THE BEST QUEENS

Are those that produce the best bees for gathering honey
and are gentle bees. These are the Queens I purpose
breeding from and believe they are superior to imported
queens. I have selected three out of over 200 as produc-
ing bees famous for honey gathering, and originally bought
from

MR. JAMES HEDDON.

Not content with these, I have purchased from

MR. G. M. DOOLITTLE

one selected by him from over 600 which I also will breed
from. The value of Mr. G. M. Doolittle's Italians as
honey gatherers is well known. Those who have tried
the Heddon strain require no recommendation from me.
A customer last season took over 1900 pounds of honey
and increased to 27 from 14 colonies purchased from me
last year. Another nearly 150 lbs. from one colony and
increased to five. Another 140 lbs and increased to four
colonies. These were all the bees I sold last year, or no
doubt could give more recommendations.

Prices for 1887 as follows: Tested queens on June 1st
or after, \$2; Hybrid queens on June 1st or after 60 cents
each. Dollar queens after June 15th from Doolittle's
Italians or Heddon's strain \$1; 10 per cent off to any
person ordering one dozen during the season of 1887; 15
per cent off to any one ordering one dozen at one time (can
have them sent three at a time if desired). Will endeavor
to be prompt in shipping. In ordering please state
whether from G. M. Doolittle's selected Italian queens,
or from my selected Heddon strain. Address,

I began the manufacture of comb foundation in 1880,
and I am glad to say that I have not had the first com-
plaint so far. Brood runs from 5 1/2 to 6 feet to the lb.; sec-
tion about 11 ft.; shall commence making weather-
stripping, April 15th. Brood cut to almost any size. Sec-
tion foundation unless otherwise ordered is made in strips
3 1/2 x 1 1/4 and 3 1/2 x 1 1/2. I will make up wax for you, you paying
per lb.; Section, 20 cts. per lb. No circulars. Prices of
foundation on application.
