JAMES PATTON,
Supervisor of Cullers.

A TREE was cut at Jackson's camp on the Skagit, W. T., a few days ago, that yielded from logs of 32, 30, 30 and 26 feet, in all 118 feet in length, and measuring 71 inches at the top. The logs cut from the tree scaled 24,000 feet, which, at \$7 per thousand, will amount to \$168.

SAYS the *Virginian*, of Staunton, Va.: We would like to have some of the "forest-wise" people—wise from European, but not from an American stand-point—who are croaking about the destruction of our forests, and predicting that we will have a treeless country in a short time, see how rapidly and beautifully Culpeper and other counties along the Virginia Midland, that were almost deforested during the late war by the great armies that camped and wintered there, are now becoming afforested in the lifetime of half a generation. We noticed a few days ago fuel and fencing being cut where Meade's army burnt up every tree in the winter of 1863-4.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS PAIN-KILLER*, and take no other mixture.

Cobourg, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a first-class family medicine, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c.,

J. E. KENNEDY
