**Editorial Notes.**

WE are pleased to announce to our readers that we have secured the services of Mr. E. J. Phillips, who writes under the *nom de plume* of JEP, to contribute to the magazine. Mr. Phillips published the *Toronto Journal of Philately* in 1892, and is well up in matters pertaining to philatelic journalism.

NOTWITHSTANDING all notes to the contrary, philately is at present flourishing in Canada, in fact more so than it ever did before. We have a good national organization in the Dominion Philatelic Association, and Toronto, Montreal, Halifax and a few other cities have splendid local clubs.

PHILATELIC papers are indeed scarce, our only rival being the *Dominion Philatelist*, but perhaps it is just as well.

Some time ago when six journals were appearing in Canada at one time, they were not well supported, and of course blew out of existence. To bring Philately on a better standing in Canada would be a difficult task at present.
