# FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

IT contains the elements essential to the animal organization, the oxidizing agents and tonics.

In combination with the stimulating agent phosphorus, possessing the merit of being slightly alkaline, and is dispensed in the convenient and palatable form of a syrup.

Its effects are usually visible within twenty-four hours, and are marked by a stimulation of the appetite, the digestion and assimilation entering directly into the circulation; it tones the nerves and muscles; exerts a healthy action of the secretions; neither disturbs the stomach nor injures the system under prolonged use, and may be discontinued at any time without inconvenience.

In a word, it possesses the stimulants to arouse the strength, the tonics to retain it, and merit of a high degree.

ALL ACIDS, ODORS, TASTE, COLOR, AND OTHER IMPURITIES, WHICH HAVE HITHERTO PREVENTED THE USE OF PETROLEUM IN MEDICINE, ARE ENTIRELY ELIMINATED, AND THE VASELINE IS AS HARMLESS AND DELICIOUS TO USE AS CREAM.  
For Eczema, Tetter, Salt Rheum, Chilblains, Burns, Wounds, Rheumatism, Piles, and all Irritations and Eruptions of the Skin. It has received the unanimous endorsement of the Medical Press and Profession, Scientific Journals of all characters throughout the world, as being the Best Remedy known.  
3 Sizes: In Bottles, 25 and 50 cents; in 1 lb. Tins, \$1.  
As an emollient, Vaseline is superior to any other substance yet discovered. Its marvelous healing and restorative qualities exert a soothing effect, and it is rapidly taking the place on the whole globe, to the exclusion of the various complexion powders, pomades, cosmetics, and other cosmetics. It will keep the skin clear, softer, and smoother than any cosmetic ever invented, and will preserve the youthful beauty and freshness of the healthy complexion.

Silver Medal at the Paris Exposition. Trade Mark.

## Scientific and Useful.

TO PERFUME LINEN.—Rose leaves dried in the shade, or at about four feet from a stove, one pound; cloves, caraway seeds, and allspice, of each one ounce; pound in a mortar, or grind in a mill; dried salt, a quarter of a pound; mix all these together, and put the compound into little bags.

A LETTER FROM A CLERGYMAN. VERNONVILLE, Sept. 8th, 1876. Messrs. Milburn & Co.,

GENTLEMEN.—Dr. Fowler's Extract of Wild Strawberry has cured the worst case of summer complaint I ever knew. Our little child was, for one month, not expected to recover. We got medicine from our family physician, but, like everything else, it failed, until we tried Dr. Fowler's Great Cure—Extract of Wild Strawberry—which acted like a charm, and perfectly cured the infant in less than three days. Yours faithfully, REV. S. R. KEARNS.

HOMINY PUDDING.—Three quarters of hominy, one egg, five ounces of sugar, one ounce butter, one quart milk, a few drops of almond flavouring. Soak the hominy in boiling water over night, in a covered vessel. The next day strain and stir into the milk when boiling, boil half-an-hour, then add the sugar and butter. After it has boiled a few minutes again, set aside to cool, and then stir in the egg, well beaten; add the flavouring. Pour into a buttered pie dish, and bake half-an-hour, or till highly browned.—Food Reform Cookery Book.

FOR dysentery, diarrhoea, and all summer complaints, use the greatest of all pure, simple remedies—Dr. Fowler's Extract of Wild Strawberry. It is pleasant, rapid, reliable and effective. For sale by all dealers. T. MILBURN & CO., Proprietors.

SPONGES.—Sponges long in use are sometimes affected with sliminess, which is caused by the sponge not being wrung as dry as possible immediately after use. When this has once formed, it increases rapidly. A London paper says that one of the most effectual receipts for cleansing sponges, and certainly one of the cheapest, is a strong solution of salt and water, in which they should soak for a few hours, and then be thoroughly dried. Sponges should not be left in a sponge dish; they should be kept suspended where the air can freely circulate around them. Quick evaporation of the dampness is the main thing to keep them in good order.

DAMP WALLS.—Moisture may be kept from a brick wall by dissolving three quarters of a pound of mottled soap in one gallon of boiling water and spreading the hot solution steadily with a large flat brush over the surface of the brick work, taking care that it does not lather. This is to be allowed to dry for twenty-four hours, when a solution formed of a quarter of a pound of alum, dissolved in two gallons of water, is to be applied in a similar manner over the coating of soap. The soap and alum mutually decompose each other, and form an insoluble varnish which rain is unable to penetrate. The operation should be performed in dry, settled weather.

Now that the season of summer complaints is approaching, every individual should be guarded by a proper remedy. The most pleasant, safe, and speedy cure for diarrhoea, cholera morbus, dysentery, cramps, cholera, nausea, and all bowel complaints, is that old reliable medicine, Dr. Fowler's Extract of Wild Strawberry. All dealers supply it at 37½ cents per bottle.

APPLE CHARLOTTE.—Cut the apples into quarters; core and peel them; mince them very fine; put them into a stewpan, with pounded sugar, cinnamon, the peel of half a lemon, and a few drops only of water. Put them on rather a brisk fire, taking care to stir without breaking them. Let them stick lightly to the pan; then add a lump of fresh butter the size of an egg; mix well together; take out the cinnamon and lemon; cut some thin slices off the crust of a thin fresh roll; then cut out some rounds of them (the size of a shilling) with a paste cutter, and cut the remainder of the crust into pieces a finger in length and two in breadth, squaring the ends. Take a round copper mould, spread clarified butter all over it, dip each of the round pieces of crust in butter, lay them on the bottom of the mould and the long pieces on the sides, taking care that the edges lap over each other so that no space is left between. Fill the mould with the marmalade of apples, adding some apricot marmalade, stirring all well together. Cover the mould with slices of bread dipped in clarified butter, and bake in a moderate oven for about an hour; then turn out and serve very hot.
