CURE YOUR COUGH

With Ayer's Cherry Pectoral—the most prompt and effective remedy for all diseases of the throat and lungs. It cures bronchitis and croup, relieves asthma, removes hoarseness, promotes expectoration, soothes and heals the inflamed mucous membrane, and induces repose. If taken in the first stages of consumption, Ayer's Cherry Pectoral prevents further progress of the disease, and even at a later period, it relieves many of the distressing symptoms. Mrs. L. L. Cloud, Benton, Ark., writes: "I have been a life-long sufferer from weak lungs, and, till I used Ayer's Cherry Pectoral, was scarcely ever free from a cough. This medicine always relieves my cough and strengthens my lungs, as no other medicine ever did. I have induced many of my acquaintances to use the Pectoral in throat and lung troubles, and it always proved beneficial, particularly so in the case of my son-in-law, Mr. Z. A. Snow, of this place, who was cured of a severe cough by its use."

"In the winter of 1885 I took a severe cold, which, in spite of every known remedy, grew worse, so that the family physician considered me incurable, supposing me to be in consumption. As a last resort, I tried Ayer's Cherry Pectoral, and, in a short time, the cure was complete. I am never without this medicine."—G. W. Youker, Salem, N. J.
