

Caloptenus (?) bilituratus, Walk.	Acridium alutaceum, Harr.
" lurida, G. M. Dodge.	" emarginatum.
" minor, Scudd.	Tropidacris dux, Scudd.
" punctulatus, Uhler.	Tettix ornata, Scudd.
" occidentalis, Thos.	" granulata, Scudd.
" regalis, Dodge, n. sp.	" cucullata, Scudd.
" volucris, (?).	" triangularis, Scudd.
" angustipennis, (?).	Tettigidea lateralis, Scudd.
Acridium americanum, Scudd.	" polymorpha, Scudd.
" ambiguum, Thos.	Batrachidea cristata, Scudd.

And in addition I have

3 species of Pezotettix, not yet determined.

2 " Caloptenus " "

2 " Edipoda " "

And 3 others of different genera not yet determined, making a total of 95 species for Nebraska thus far.

## TINEINA.

BY V. T. CHAMBERS, COVINGTON, KY.

### BATRACHEDRA.

*B. striolata* ? Zell.

(*Asychna* ? *pulvella* Cham.)

In "The Bulletin of the Geo. Survey," v. 3, p. 134, I have referred to two species or varieties of *Batrachedra* found by me in Colorado. Some of these specimens found at Colorado Springs I referred doubtfully to the European species *B. præangusta*. Others found higher up the mountains I named *B. Clemensella*, stating, however, the doubt whether the two forms were really distinct. After the greater portion of that paper was in the hands of the publisher, I received from Mr. Stainton two specimens of *præangusta*, by which I was enabled to recognise my *B. Clemensella* as a variety simply of that species, and to increase my doubts whether the supposed species were really distinct; for while *Clemensella*
