

THREATENED ABORTION

In these cases Hayden's Viburnum Compound exerts a sedative effect upon the nervous system, arrests uterine contraction and hemorrhage and prevents miscarriage. It has proven of special service in habitual abortion.

THE RIGID OS

This condition, which prolongs labor and so rapidly exhausts the patient and endangers the life of the fetus is of common occurrence. H. V. C. acts most promptly and effectively and is not a narcotic. No less an authority than H. MARION SIMS, M. D., said:

"I have prescribed Hayden's Viburnum Compound in cases of labor with Rigid Os with good success."

A more convincing argument could not be presented.

POSITIVE RESULTS IN OBSTETRICAL PRACTICE

AFTER-PAINS

The value of H. V. C. after the third stage of labor cannot be overestimated. Its antispasmodic and analgesic action modifies and relieves the distressing afterpains and quiets the nervous condition of the patient. By promoting the tonicity of the pelvic arterial system it prevents flooding and thus eliminates the dangerous element in obstetrical practice.

A WARNING

The enviable reputation of the Viburnum Compound of Dr. Hayden, H. V. C., in obstetrics and in the treatment of diseases of women, has encouraged unscrupulous manufacturers to imitate this time-tried remedy. If you desire results, you must use the genuine only—beware of substitution.
