

ZOEDONE.

A Delicious Beverage.

The BRITISH MEDICAL JOURNAL says:

"We can confidently recommend it to the attention of physicians and others who are occasionally at a loss what to direct their patients to take when parched by feverish thirst or depressed by exhausting ailments—notably in cases where alcoholic stimulants would be prejudicial. We feel that it would be found exceedingly useful in mitigating the discomfort oftentimes experienced by those suffering from the thirst, loss of appetite, and general malaise connected with the last stage of phthisis and chronic bronchitis. We would also, from our observations and experience, advise its introduction into clubs, taverns, and places of public amusement, where it would judiciously supersede vinous and alcoholic stimulants, seeing that it contains, as its name implies, life-giving ingredients in a form easily assimilated."

A BRAIN AND NERVE TONIC.

The LANCET says: "ZOEDONE contains the soluble phosphates of lime, iron, soda, and potash in medicinal quantities. Very efficient and pleasant."
The MEDICAL PRESS AND CIRCULAR says: "Is commendable equally for the style in which it is put up and the delicate flavour which it possesses, and also on account of its special merits as a nervine tonic."

NON-ALCOHOLIC. STIMULATES BY STRENGTHENING.

CAUTION.—Dealers should be on their guard against numerous imitations of ZOEDONE, put up in the same style and offered as substantially the same article. The composition of ZOEDONE is protected by Letters Patent, and the Zoedone Company will proceed against infringements.

Every Chemist that has introduced ZOEDONE has found a large and regularly increasing sale for it.

It is put up in Champagne Bottles, and there is no trouble with empties, as the bottles are included in the price.

If you are simply weak and debilitated, try Hop Bitters. It may save your life. It has saved hundreds.

THE COMMON EXPRESSIONS, "I feel so dragged," "My Food don't Digest," "I don't feel fit for anything," which we so often hear during the Spring and early Summer months, are conclusive evidence that the majority of people require at that season especially a reliable medicine that will strengthen the organs of digestion, stimulate the circulation of the blood, and "tone up" the debilitated constitution.
HARRINGTON'S QUININE WINE AND IRON, taken according to directions, produces buoyancy of spirits, vigor of mind, and gives lasting strength to the whole system.
Mr. George Sewell, of Moncton, N.B., writes from Moncton, N.B., under date of May 17th, 1881, says:
DEAR SIR.—In January last, I came to Moncton from Miramichi to consult a physician, as I was in the last stages of Consumption. When I arrived here I had lost all my weight, and was so low I never expected to leave it. A physician was called, who pronounced my case hopeless; that I might live a week or two, but not certainly more. As my last resort he recommended "Robinson's God Liver Oil with Lacto-Phosphate of Lime." I purchased a bottle, and after taking the first dose commenced to improve. It seems after taking a dose, as if I had eaten a good hearty meal. I have continued taking it ever since, and am rapidly improving. I am confident that had it not been for your Oil, I WOULD HAVE BEEN IN MY GRAVE TO-DAY. You are at liberty to use this in any way you wish, as I am anxious to let others who are afflicted in the same way know, in the hope that they too may receive the same benefit.
I remain, dear sir, yours respectfully, etc.
ROBINSON'S PHOSPHORIZED EMULSION OF COD-LIVER OIL WITH LACTO-PHOSPHATE OF LIME is prepared solely by Harrington Bros., Pharmaceutical Chemists, St. John, N.B. For sale by all Druggists and General Dealers. Price \$1.00 per bottle; six bottles for \$5.00.

FOUR NEW BOOKS.

THE REPUBLIC OF GOD.

By Elisha Mulford, L.L.D., author of "The Nation."
8vo., 22.00.
"This is a unique work, and devotes to the great topics of theology a kind of thinking of which we have had little in English literature and need much."—The Independent.
"It will do much to allay the conflict of doubt and denial that warms and distracts so many minds and hearts. It is the larger view that resolves the contradictions into unity, we may almost say that it is the very largeness of its comprehension—a demonstration of faith."—The Christian Union.

THE THEISTIC ARGUMENT AS AFFECTED BY RECENT THEORIES.
By J. L. Dima, late Professor of History at Brown University. Edited by Prof. George F. Fisher, of Yale College. 2 vols., 8vo., \$8.00.

"It is a volume for students and clergymen, and thoughtful Christians who are more or less affected by the scientific speculations and materialistic babble and clutter of our time. It is unexpressly reassuring to Christian faith to find that after the fairest investigation and the most careful weighing of testimony, the decided preponderance of evidence is in the side of religion. He makes the reader see and feel that this is so."—The Evangelist, New York.

THE GOSPEL OF THE RESURRECTION.
By James M. Whiton, Ph.D., 16mo., \$1.75.

"A thoughtful and reverent study of one of the fundamental doctrines of Christianity. To those who are capable of rightly apprehending the spiritual conceptions which Dr. Whiton embodies in this volume, they will serve to clear away many mistaken and material ideas, and will help to make the sublime and inspiring truth of a life beyond the grave much more intensely and vividly real."—Boston Journal.
"Contains a great deal that is interesting and corroboratory. His views of the recognition of friends in heaven will find a glad response in the hearts of mourners everywhere."—The Christian at Work (New York).

THE PHILOSOPHY OF CARLYLE.
By Edwin D. Mead. 2 vols., 16mo., \$1.00.

"With a profound respect and admiration for Carlyle and his work, he endeavors to set forth the leading principles of his thought and literary achievement. He has succeeded in producing a book of genuine interest and merit, which every friend of Carlyle will enjoy and be grateful for."—The Evangelist (New York).
"To those who wish a final, reliable judgment concerning Carlyle, we recommend the perusal of this book."—Christian Register (Boston).

The Week.

HOME NEWS.

Hon. Alexander Mackenzie has returned to Canada greatly improved in health.

The fine weather of the past week enabled the farmers to harvest the balance of their hay crops.

Sir Charles Tupper and Lady, and Hon. Dr. Parker, are expected to return to Halifax about the 21st inst.

The Rev. R. D. Bambrick, who has been spending a few weeks in Halifax, returned to Charlottetown on Saturday.

Mr. Mublig, the sexton of St. John's (Three Mile) Chapel, Halifax, died on Friday from lock-jaw, the effect of a dog bite on the hand.

Mr. Blake's maritime tour closed with a meeting at Chatham, N.B., last Friday. Mr. Blake proceeds to Murray Bay, Quebec, to join his family.

Mr. John McCormack, of Granville, cut this season nine tons of first class timothy and clover hay from two acres of marsh. This is a most remarkable yield.

Ottawa, Sept. 5.—Saturday night's storm was terrific. Several houses were struck with lightning, and a number of barns destroyed by fire with the season's crops.

Mr. D. MacLachlan, of Shubenacadie, has discovered a lode at Smithfield, near Brookfield Station, from which he has taken some fine specimens of silver bearing quartz.

The Fredericton Capital estimates the damage to farmers in New Brunswick by rain and floods at \$2,000,000. The Moncton Times thinks the estimate overshoots the mark.

Upwards of thirty families in Alice, Stafford, Wilberforce, Brombley, Ont., are homeless by the fire on Wednesday evening. Many of them are without food. Crops in the field and buildings have been swept away. An appeal for aid is made by the Mayor of Pembroke.

A finely modelled new barque is being built at Clifton, Colchester, by Mr. James Crowe, to be launched next month. She has been named the Linden, registers 902 tons, is owned by Hon. J. B. Dickie, the builder and others, and will be commanded by Capt. James S. Crowe, of Maitland.

It has been decided to open Old St. Paul's Cemetery, Halifax, to the public during certain hours every day, as a large number of strangers and citizens have expressed a desire to ramble through this pleasant spot so replete with interesting mementoes of the early days of Halifax.

The preparations for the holding of the Dominion Exhibition in Halifax, this month, are being rapidly pushed forward to completion. The Herald says:—The main Exhibition Building is to be so fitted up inside that the public opening ceremonies can take place therein, but a platform will probably be erected outside so that, if the weather is faultless, the addresses may be delivered in the open air, and the din avoided; this will permit of a larger audience, and prevent a repetition of the complaint that the oratory was monopolized by the people inside. Now that the buildings are assuming shape, it is evident that their arrangement will not only be very convenient, but that their arrangement will give a pleasing general effect. The new buildings being all comparatively low, there is nothing to break the continuity of aspect of the whole grounds at any point, so that the Exhibition grounds and track, when all is complete, will present the appearance of a grand square surrounded on four sides by stately architectural edifices,—the Royal Exhibition Building on the east, the Hospital, Blind Asylum, Poor's House and private residences, and distant trees on the south and west,—and the Convent, embowered in foliage, the Medical College, School House, &c., on the east. Glimpses of the Citadel, on the north-east, and of the distant harbor, and other features of the city, are seen to advantage from certain points of the grounds.

NEWS FROM ABROAD.

The will of the late Dean Stanley has been sworn under £90,000.

It appears from the estimates that the captivity of Cetewayo costs the country over £4,000 a year.

London, Sept. 5.—The eminent physician and medical writer, Archibald Billing, is dead, aged 90.

Among the English M. P.'s who will take a trip to America this autumn is Mr. John Walter, of the Times.

It is believed that Prince Leopold will visit Dublin on the occasion of the Social Science Congress meeting in October.

It is rumoured that a new batch of baronets is about to be made, including Mr. Samuel Morley, Member for Bristol.

Mr. Laycock, M. P., who died suddenly recently, had only within a few weeks buried his father, from whom he inherited a fortune of about £40,000 a year.

London, Sept. 3.—It is intended to confer the Grand Cross of the Order of St. Michael and St. George upon Sir John A. Macdonald, in recognition of his services as Canadian Premier.

Washington, Sept. 4.—Official Bulletin, 8.30 a.m.—The President was somewhat restless during the early part of the night, but slept well after midnight. He has taken by the mouth, and retained the nutriment prescribed. This morning his pulse is less frequent than yesterday. His temperature is a degree above normal. Pulse 102, temperature 99.5, respiration 18.

New York, Aug. 30.—Dr. Isaac Rosefeldt, Jr., who is under the delusion that he prescribed medicines for the President and the attending physicians failed to administer them, was sent to the Tombs to-day for examination. The Post's Washington special says an insane colored man was arrested at the White House late to-day. He was bent upon killing every one who was not a Garfield man, and had a large tin can into which he proposed to place their heads. Mr. Blaine is visited by so many dealers in nostrums which they claim will benefit the President that it has become necessary to station a policeman in citizen's clothes near his house to relieve him from annoyance.

Cape Town, Sept. 2.—The survivors from the wreck of the "Teuton" state that two hours before the ship sunk boats were lowered to a level with bulwarks, and provisions and compasses placed within. One boat broke loose from the fastenings while being lowered and six were brought alongside. About 30 women and children took places in them, first. When the water rushed into the engine room the steamer sunk by the head taking down with her four boats which were not fairly clear of the ship. Those of the passengers and crew who rose to the surface clung to the floating wreckage until picked up by those who righted a third boat. At daylight the boats made for Simon's Bay, all who were clinging to spars being first taken aboard. The Teuton had 256 passengers, 85 of a crew and 20 coolies on board. 11 of the passengers and 35 of the crew were saved.
