THE LIFE OF ST. ELIZABETH OF HUNGARY, by the Count de Montalembert. The Life, translated by Mary Hacket, and the Introduction, by Mrs. Sadlier. 12 mo., of 427 pages, with a fine steel engraving. Cloth, 5s; cloth gilt, 7s 6d. The first edition of Three Thousand having all

been sold, and there being many calls for the work, we have put to press a New Edition. The translation has been read over with the French copy and carefully corrected.

Of the merits of the work, we can safely say, that no bicgraphy ever issued from the American Press equals it—it's as interesting as a romance.

The Press have been unanimous in praise of the first edition. We give extracts from a few of them: "The book is one of the most interesting, instructive, and edifying that have been produced in our times, and every Catholic will read it with devout thankfulness to the Almighty God, that he has been pleased to raise up, in this faithless age, a layman who can write so edifying a work. It is marked by rare learning, fine artistic skill, and correct taste; and breathes the firmest faith and the most tender piety. His work is as refreshing as springs of water in a sandy desert....Let every one who can read purchase and read this beautiful Life of one of the most lovely and most favored Saints that have ever been vouchsafed to hallow our earthly pilgrimage. Brownson's Review.

"The whole introduction shows the hand of a master, and it loses nothing in Mrs. Sudlier's racy and elegant English. It enhances the merit of the work, which, in the Dublin edition, was published without this essential preface. Of the Life itself, we cannot speak too highly. The exquisite character of 'the dear St. Elizabeth,' (as the good Germans have at all times styled her), is brought out with a clearness, a tenderness, and a vigor, which bring tears from the heart. We do not think there is any book of the kind in English, at all to be compared to this Life of Saint Elizabeth."-American Celt.

"We might say much in praise of the narrative and Life of St. Elizabeth, attending which, from the beginning to the end, is a charm which cannot fail to attract and secure the attention of the reader, did not the well known abilities of this distinguished author render it unnecessary We cheerfully recommend the work to our readers."-Pittsburg Ca-

"This magnificent work of the great French Tri bune of true liberty, has at last been translated into English. The name of its Author is a sufficient guarantee for the value of the work. Montalembert is one of the lights of the age-a man who combines rare power of intellect, with unswerving devotion to the cause of liberty and the Church. Let every one who desires to study the spirit of the Middle Ages, read this book."—Catholic Telegraph.

Ayer's Cathartic Pills

THE sciences of Chemistry and Modicine have been taxed their utmost to produce this best, most perfect purpative which is known to man. Innumerable proofs are shown that these PILS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly apon the esterm of all men. They are safe and pleusant to take, but powerful to cure. Their penetrating properties stimulate the viral activates of the body, remove the obstructions of its organs, purify the blood, and exped discase. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered acgains into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take and being purely vegetable, are free from any risk of harm Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering follow-men.

The Agent below named is pleased to furnish gratis my American Amanac, containing directions for their use, and certificates of their cures of the following complaints:—
