BAND AND CIRCULAR RE-SAWS

are a necessity in a saw mill. They use the capacity of a mill one-third when logs are cut by slabbing heavy and re-cutting all slabs on re-saw, using a 19-gauge blade.

They make two plump boards out of a bad face deal.

Transfers supply them and not over four extra men required to run one.

If some large mills can use three and four, you can surely find one profitable. Will be pleased to send you particulars and prices.

WATEROUS, BRANTFORD, CAN.

The Underwood Typewriter

Writing
Remains
Always in
Sight

The liability of making errors is greatly reduced by the use of The Underwood Typewriter. Each character is seen the instant it is made; each key indicates positively the character that will appear if that key is depressed, and, above all, the operator never stops work to lift the Carriage to dispel a doubt as to whether the wrong key has been struck.

There never is even a suspicion of a doubt; everything is a certainty on The Underwood Typewriter.

But if an error is made, the false character can be erased without disturbing anything. Neither is it necessary to do anything but erase the wrong character and insert the right one. When the correct one is put in no Scale need be consulted nor any guesswork indulged in. The vacant space is simply placed behind the notch in the Guide, the correct letter inserted, and the correction is made quickly, positively, and correctly.

After the correction is made one does not again lift the Carriage and waste additional valuable time in ascertaining that the correction has, or, as frequently occurs, has not been properly placed.

Sole Agents:—**Creelman Bros. Typewriter Co.**, 15 Adelaide St. East, Toronto.

THE UNDERWOOD

Young Men... Who Succeed

AND young women, too, appreciate the value of a course in this business college. The thorough-going character of the teaching under capable masters insures
