Tall Boasting.

A Parisian paper relates the following story of a contest in boasting which, it says, took place between three artists of Marseilles: Mon cher, said one of the artists, yesterday I painted a pine board in imitation of marble, and did it with such fidelity that, when the board was put into a pond of water, it sank like a stone. Pool, said the second, that is nothing! Yesterday I happened to hang up my thermometer on the back of the frame of my view in the Arctic Regions, and the mercury instantly went down to twenty degrees below zero. All that is nothing at all, said the third artist. You know my portrait of the old Marquis of Camargne? Well, it is so lifelike that it has to be shaved three times a week.

The pulses of her iron heart Go beating through the storm. That is true of more than the great ship that bridges an ocean. Where are the pulse-beats greater than in the stormy competition of to-day's commerce? An iron heart sustained by an iron purpose to deal squarely and honestly with the public may expect to succeed. This is the keynote of this store's successful business in Boy's Clothing. There's queer stuff palmed off on our boys under the name of coats and pants. Parents realize the advantage of buying clothes that are "all wool and a yard wide," an axiom expressive of strict integrity in store transactions. Boys' Tweed Suits, Serge Suits, Diagonal Suits, and Boys' Overcoats. This is made only of material we can recommend, well put together, and withal low in price.
