

September 20, 1927.

Professor W.G. McBride,
Chemistry Building,
McGill University.

Dear Professor McBride:-

I am enclosing herewith copy of a circular received from the Imperial Institute, forming part of their scheme of co-ordination in research.

I should be glad if you would let me know whether any member of your Department proposes to carry on research in any of the suggested subjects, in order that I may advise the Imperial Institute to that effect.

Yours faithfully,

Principal.

Copy to Dr. Ruttan
Dr. Stansfield.
