# TO PAVE BLOOR ST. W. TO QUEBEC AVE.

That ward seven's third great transverse thorofare, Bloor street, will probably be completely paved as far west as Quebec avenue this year, was the statement made to The World last night by Old. Ryding. Construction work in connection with sewers and grading is now completed and the alderman's suggestion that one side of the street, at least, be paved this year, has met with the approval of the works commissioner. The necessity of

Quebec is, by restriction, a residential section, and the entire cost of paving the southern part of Bloor street—for these five blocks bordering High Park, will be borne by the city in general.

street, and the huge task of filling in street, and the huge task of filling in the immense hollow at this junction are progressing rapidly, and will both be finished by the end of the summer. The High Park avenue pavement has blocked the street from Annette to Dundas streets for several weeks now, is to be recommenced today and the entire street will be open to traffic tomorrow or by the end of the week at the latest.

#### QUEEN SIDEWALK DELAY CAUSED BY GRADE CHANGE

The difficulty in the matter of the postponement of operations in laying the new sidewalk on East Queen street. a pavement on this street, which has for so long been practically closed to vehicular traffic, was easily seen by the works department, and a report on the advisability of paving both sides of the street this year, will be brought in at the next meeting of the board.

How it is Divided.

From Dundas to Keele street, which includes five blocks, will probably be a business section. West of Keele to Quebec is, by restriction, a residential section, and the entire cost of paving the southern part of Bloor street—for these street with the southern part of Bloor street—for the southern part of Bloor street for the southern part of Bloor street for the southern part of Bloor street for the southern part of Bloor street from Beech avenue to Kingswood road, is not due to trees being in the road, but is over the grading. Commissioner Harris stated that the matter had to be referred to the city solicitors. The road would not be in bad shape in the mean time, he declared, as a temporary walk time, he declared, as a temporary walk was going to be constructed at once for the convenience of the residents of the vicinity, until the permanent walk can be convenience of the residents of the vicinity, until the permanent walk can be convenience of the residents of the vicinity, until the permanent walk can be convenience of the residents of the convenience of the residents of the vicinity, until the permanent walk can be constructed. Citizens Indignant.

A deputation of citizens from the Beaches was at the city hall yesterday to vent their indignation that the work was not being gone ahead with. They were informed that slight delay was necessary, and that in the meantime a temporary walk was soing to be built. Much inconvenience is now being experienced on account of the impassable condition of the street, and merchants are loud in their complaints against the

Other husbace. The city is not held to be wholly blameless in the matter, although the bathing establishment was opened that several young men used the upper balcony of the building to dress in. There was a slight excuse for their action, because the bathing accommodations were not available on account of the attendant not being on hand, as should have been the case. Even this did not give the young men license to act as they did in the matter. Residents of Kew Beach are quite indignant, and the police promise that nothing of the kind will occur again.

Bar Abolition Statement Termed Unfair by Presbyterian Minister.

Secretary Ben H. Spence of the Ontario Alliance is being vigorously criticized by Rev. L. Macdonnell, Presbyterian minister of Fergus.

Rev. Mr. Macdonnell says in The Presbyterian:

Since this new-model HUDSON was an-neunced in the Saturday Evening Post, the demand to see it has been overwhelming. So we brought on this car by express. It is here today-come see it.

Last season's HUDSON Six-40 seemed to mark perfection. It so met ideals that the year's output was 3,000 cars overseld. In May men effered premiums—up to \$200—to get one of those cara. New the HURSON engineers—headed by Heward E. Coffin—have devoted a year to refinements. The new model comes out with 31 new features—comforts and conveniences.

Last season's price-\$2300 t. a. b. Detroit—was the record price for a quality Six. And no comparable Four could meet it. New the HUDSON announces a trebled output, which cuts the cost \$200. And the new-model

price is \$2100 f.o.b. Detroit. Lest se son's weight - 2,980 reunds - was 1,000 pounds under old-time averages for cars of this capacity. It saved you the weight of a car-full of people, by better design n; and proper materials. Yet it proved itself, in theusands

of hands, one of the staunchest cars ever built. Now comes a further saving, due to such things as a tubular propeller shaft. The new model weighs 2,890 pounds.

### The New Criterions

This new HUDSON Six-40—as you will concede—is the typical modern car. It reveals the criterions by which coming cars will be measured. Its new-type motor has made Sixes more economical than Fours. It removes the last reason for buying a Four in the field above \$1800.
