U. S. Ambassador Writes.
Under date of March 20 the American ambassador wrote to Sir Edward Grey, the British foreign secretary, as HE YEAR

his compliments to his majesty's secretary of state for foreign affairs, and has the honor, under instructions from the secretary of state at Washington to transmit the hereto annexed text of a tolegram, dated March 17, which Mr. Bryan has received from the German foreign office thru the embassy at Berlin:

"'According to notices." PEED SALE ge,Saddle, Ponies

derman foreign office thru the embassy at Berlin:

"'According to notices appearing in the British press, the British admiralty is said to have made known its intention not to accord to the officers and arms of German submarines who have become prisoners the treatment due to them as prisoners of war, and especiality not to concede to the officers the advantage of their rank.

Acted on Orders.

"The German Government is of opinion that these reports are not correct, as the crews of the submarines added in the execution of orders given to them, and in doing this have solely fulfilled their military duties.

"At any rate the reports in question have become so numerous in the neutral press that an immediate explanation of the true facts appears to the officers the advantage of their rank.

Acted on Orders.

Sir Cecil Spring-Rice Asks to port of Incident at Bermuda Harbor.

neutral press that an immediate explanation of the true facts appears to be of most urgent importance, if for no other reasons than consideration of public opinion in Germany.

"The imperial foreign office, therefore, requests the American embassy to have an enquiry of the British government made by telegraph thru the medium of the American embassy in London as to whether and in what way they intend to treat the officers as consigned a fine are by such famous way they intend to treat the officers and crews of German submarine boats who have been made prisoners in any respect worse than other prisoners of st Standard Breds, in-Chimes," "Lady C.,"

Reprisals Threatened-"Should this prove to be the case request is added that, in the name of the German Government, the sharpest protest be lodged with the British mment against such proceedings and that no doubt be left that for each member of the crew of a submarine nade prisoner a British army officer held as a prisoner of war in Germany will receive corresponding harsher

"The imperial foreign office would be greteful for information at the earliest convenience regarding the result of the steps taken."

Prisoners Segregated. Sir Edward Grey replied to the Am-erican ambassador under date of

April 1 as follows:
"The secretary of state for foreign

ENEMY CREWS SEGREGATED admiralty, that the officers and men admiralty, that the officers and men who were rescued from German submarines U*28 and U-12 have been placed in naval detention barracks in view of the necessity of their segregation from other prisoners of war.

"In these quarters they are treated with humanity, given the opportunity for exercise, provided with German books, subjected to no forced labor, and are better fed and clothed than British prisoners of equal rank now in Germany. tinued From Page 1.) are British prisoners of equal rank in dermany, and the Germans are not subjected to forced labor.

Not Honorable Oppenents.

As the submarine crews have been entaged in sinking neutral merchant ships and unarmed British vessels. Sir Boward said they could not be regarded as honorable opponents, but were offenders against the law of nations and common humanity."

British prisoners of equal rank now in Germany.

Not Honorable Opponents.

"As, however, the crews of the two German submarines in question before they were rescued from the sea were engaged in sinking innocent British and neutral merchant ships and wantonly killing non-combatants, they cannot be regarded as honorable opponents, but rather as persons who, at the orders of their government, have committed acts which are offences against the law of nations, and contrary to common humanity. "offenders against the law of nations and common humanity."

The foreign secretary said that 1000 officers and men of the German navy had been rescued during the war, but that none from the British navy had been rescued by the Germans. However, he made no suggestion for a

fences against the law of nations, and contrary to common humanity.

"His Majesty's government would also bring to the notice of the United States Government that during the present war more than 1000 officers and men of the German navy have been rescued from the sea, sometimes in spite of the danger to the rescuers, and sometimes to the prejudice of the British naval operations. No case has, however, occurred of any officer or man of the royal navy being rescued by Germans."

CLAIMS OUTSIDE AREA

Sentry Who Shot United States Citizen to Appear Before Court-Martial.

WASHINGTON, April 2.—Sir Cecil Spring Rice has called on the colonial secretary at Hamilton. Bermuda, for a full report of the shooting of George B. Montgomery of Buffalo, N.Y., by a sentry at Hamilton. The state department had under consideration today a mailed report from Wm. Allen, the American vice-consul, setting forth that the boat in which Mr. Montgomery was sailing was fifty yards outside of the prohibited limit when fired upon by a sentry. A non-commissioned officer and the sentry both have been ordered to appear before a court-martial, the result of which has not yet been learned.

not yet been learned.

The consular report states that Mr. and Mrs. Montgomery and two other women companions were sailing for the Aquarium in Bermuda, one of the places frequented by sightseers, and had approached the shore near a de-tention camp for German prisoners, the United States ambassador, and, with reference to his excellency's note of the 20th ultimo, respecting reports in the press upon the treatment of prisoners from German submarines. prisoners from German submarines, has the honor to state that he learns from the lords commissioners of the

About Strength and Vigor

Sent Free to Al

Dear Sir—This free offer will interest you, just as it is interesting intelligent people everywhere.

Here is a new way to get in line for the self-restoration of your health and strength, and for the self-recovery of that slement generally supposed to belong to yout, but which in teality should be a natural part of every healthy, vigorous person throughout life. My offer is to help you to this new state, by sending tree, for your benefit, something which is being read today by thousands all over fite world. That something is a little publication of 38 beautifully illustrated pages, which deals logically, and simply, and in a common-sense way, with our great present-day health problems. It warms you sgainst neglect of the Human Machine, and points out a way to assist you in conserving your natural energies to a ripe vigorous old age. "Five Thousand Golden Words of Advice" is what someone has called this little volume, and, rendember, a copy is ready for you and is waiting. Therefore, just send in a ocupon below large in the hear from you at once.

Yours very truly,

SANDEN—Author.

GERMAN FRONT IS VULNERABLE

Successes in Champagne and at Neuve Chapelle Teach Lesson.

(Continued From Page 1.)

withstand the French offensive were drawn from many parts of the German line, which indicates that the enemy has no central reserves that he can call up in case of an emergency. "As regards ammunition, the Ger-

man artillery has practised economy which is unusual with them. many days they made no effort to keep down the fire of the French guns, altho this meant heavier losses for their infantry in the trenches. This showed clearly that their supply of ammunition was not all that they could have wished, and an extra ex-penditure may will have made itself felt in the amount available on all

parts of the German front. Line Not invulnerable. "Two, valuable lessons, therefore, have been learned from the operations. The first is that the German front can be pierced. There were moments both in Champagne and Neuve Cha-pelle when the way was open when nothing more formidable than the weak resistance of sorely tried troops faced the attackers, and it does not follow because the hole was closed before advantage could be taken of it that this will be the case every time.

"The second lesson learned is that serious attack on one point has an a serious attack on one point has an effect on the enemy's plans and fighting power at every other point. The British attack at Neuve Chapelle ruined the enemy's chances of a big success at St. Eloi. The French attacks at Perthes helped the British attack at Neuve Chapelle, and both these assisted the Russians to withstand the German offensive in the eastern theatre."

disturbances to his bodily health and normal functions.

All those who find themselves in this sad predicament are compelled to take a back seat in life's game as it is played in this strenuous generation, while the strong and healthy forge forward in the limelight of public approval, accepting the confidence and the plaudits of their fellow-beings, and the true admiration of all. This, my dear reader, is the mighty and glorious power which comes alone from a well-balanced, vigorous body, the condition which you and everyone else should strive to attain. In this respect, please remember that you can do much for yourself, as my little book will explain, but, in addition, I believe I may be able to greatly aid you in your effort, for I manufacture a little appliance which I call the Sanden Electro-Herculex, that would be avery good thing for you to use. This Herculex weighs but a few ounces, and is worn all night. Thus while you sleep it sends a continuous, soft and pleasant stream of electro-energy into yeur body. Over 90,000 now in use or recently used. People everywhere asy it gives strength, takes pain out of the back, builds up the nerves, and gives a new lease on life. It is a marvel of mechanical ingenuity, a real self treatment without the use of drugs or medicines. With special attachments, it is used by thousands all over the world for rhaumatirm, lumbago. Corps at Full Strength.

Speaking of the inspection by Gen.

Joffre, the French commander-inchief, of several divisions which had tachments, it is used by thousands all over the world for rheumatirm, lumbago, been thru the whole of the fighting, liver, stomach, bladder disorders, etc. In one part of the free book, I fully describe this Electro-Herculex, and tell you what it will cost for a thorough test. If you live in or near this city, I should be most

been thru the whole of the fighting, the observer says:

"We must not forget that these regiments have had to be brought up to strength, sometimes almost organized after each of their attacks, of which they carried out several during the last 30' days. What we really are looking at is the French system of reinforcements and the system which keeps army corps not only up to their strength but up to their full standard of fighting efficiency. It is one which plainly is answering well.

"There is an idea in many circles that France has a number of army corps or divisions somewhere in the background ready to be thrown into the fighting when the great day of victory is at hand. This idea should be dismissed. The transport of the strength of the s

CATTLE PLAGUE IS WIPED OUT

Huge Number of Diseased Animals Slaughtered in United States.

WASHINGTON, April 2.-Practical eradication of the foot and mouth scourge disease of live stock in the United States is announced by the department of agriculture.

Officers in charge of the campaign waged against the plague said that with the single exception of a herd of animals near Syracuse, N.Y., which had been designated for slaughter today, telegraphic reports from the in-spectors thruout the country showed that the disease had been to the best of their knowledge completely wiped

Figures compiled by the department show that 124.141 animals have been slaughtered because of the foot and mouth infection from the time of the outbreak in October to March 25 last.

WILL MAKE A TRIP

Distance of Two Hundred and Fifty Miles Will Be Covered.

Capt. E. L. Janney, a squadron ommander in the Royal Flying Corps ho is establishing an aviation school in Toronto, arrived yesterday from New York and is staying at the King Edward Hotel. With him is Lieut. Harley G. Smith, who will be the military instructor of the recruits for the flying corps. "We are opening up on Tuesday," said Capt. Jenney, "on the Lawrence Park estate, which has been definitely arranged for, and where the buildings are, the construction of which is being proceeded with.

The owners of Edgecombe Park have also extended the privilege of using also extended the privilege of using their property."

Regarding the pupils, Capt. Janney stated that the number would be limited to 30, altho over that number had offered to join. "No pupils will be accepted," he said, "unless they are willing to accept military discipline and go to the front when called upon. They will have four months' training.

and go to the front when called upon. They will have four months' training, which will include military instruction, theory of aeroplanes, and the practical construction of aeroplanes.

"On Monday. April 12, one of the finest constructors in the aeroplane business will begin work in Toronto on an army biplane." A Henri Farman biplane, he said, would arrive in Toronto in ten days

Toronto in ten days
"The first aeroplane to be built at
the school will be completed about
the first of May. It will be equipped the first of May. It will be equipped with a 110 horse-power gyro-motor, which was invented by K. Berliner of Montreal." This is already bought and is of remarkable power.

Capt, Janney will make a test flight from Toronto with the first aeroplane completed. "I will make at least a 250-mile cross-country flight." A few months ago he made a successful aeroplane flight from Boston to Quebec City.

bec City.

Will Have High Speed.

Lieut Bernard F. Hall of the Royal
Flying Corps, will co-operate with
Capt Janney at the Toronto school,
and will sail on the next boat from England.

The aeroplanes to be built at the school will have a speed of 86 to 90 miles an hour and a climbing speed of 1200 feet a minute.
