A Rain Coat Is Almost Indispensable

But often they are unwieldy and hampering. Not so with these coats, however, for they are made of oiled silk, and hence are very light. They may be folded up into a very small bundle without injury in any way to the coat. So that if you are going on a camping or a cycle trip, one of these Raincoats will be just the thing to add to your outfit.

They come in amber and smoke shades, are double-pley throughout, have fly front, buttoning to neck, with low collar and windstraps on the sleeves.

If you are undecided about the matter, come in and see them, and your doubts will vanish. Price, \$18.00.

ONLY TEN MEN GET FREE OF SERVICE

One Hundred and Seventy Appeal for Exemption From Army.

ONLY ONE REALLY FREE

Every Man of Fifty Appearing at One Tribunal is Drafted.

Only ten of the 170 men appearing before exemption tribunals in Toronto yesterday were granted exemption from military service. Of the ten who were granted exemption all but one received limited exemptions, which will expire before the end of the present year. Yesterday set a new record for the proportion of men having their exemption pleas refused.

Another record made yesterday was at the tribunal presided over by Chief Justice Sir William Mulock. At his court fifty men were called and all were put in the army. Forty-six "B" men who failed to appear at the tribunal were put in the army; three of the four who were present to support their claims were refused, and the fourth man, Thomas

McLaren, withdrew his appeal, stating he was ready to join the army at once.

STRIKE OIL GUSHER WHEN GAS DRILLING

An oil gusher is reported to have resulted from drilling for gas in the Township of Dover, County of Kent, near Lake St. Clair, according to G. R. Mickle, mine assessor. It is stated that the flow is several hundred barrels a day although accurate measurement has not been made as yet.

The Union Gas Company was sinking a gas well when at 3200 feet oil was encountered, and that well is said to be one of the best ever discovered in Ontario. All the territory in the vicinity has been under lease for some time, for it was just about a year ago that a well was struck which has been giving from 50 to 100 barrels a day.

MILITARY POLICE BUSY.

Brockville, May 21.—Three members of the Dominion police, acting under the Military Service Act, are in town looking into the matter of all persons coming within the scope of the law and liable for military duty. They are making a general inspection of factories and other places employing labor.

SOLDIER NOT GUILTY.

It is announced that Pte. Mitchell Harvey Burrows, the Brantford soldier, who appeared before a court-martial at Exhibition Camp, Toronto, on a charge of wilfully maiming himself by shooting off two of his toes, to evade military service, has been found not guilty.

TO SUBMIT ESTIMATES FOR COST OF BRIDGE

Adjournment was again made in the case of the Toronto-Hamilton Highway Commission and the County of York respecting the erection of bridges, after argument had been heard by the Ontario Railway and Municipal Board yesterday. The bridge in question is one to cross the Mimico Creek, to be built of concrete, and be 24 feet wide, with six feet additional for sidewalk.

Estimates giving the cost are to be prepared by H. D. Hogarth, chief engineer for the department of highways, and submitted to the board at the next hearing which is slated for May 21.

BANKS OFFER SERVICES.

Every bank and branch bank in Toronto has been offered to the Toronto board of registrars for the purpose of registration booths during banking hours of every day of the week prior to and on June 22, official registration day. This arrangement will provide the opportunity of registration to a great number of people without the necessity of standing in line on the last day.

Elderly people and those who are infirm are urged to register at their nearest bank during the early part of the week. By doing so they will avoid the possibility of delay at the registration booth, and will also be able to choose a convenient day from the point of view of the weather.
