

of the Farmers' Association of Ontario. He was "Master of the Grange" for three years, and in 1910 attended the first session of the Canadian Council of Agriculture at Prince Albert. He was chosen first secretary of that association.

Mr. Drury was one of the organizers of the monster deputation of farmers to Ottawa urging the government to take up reciprocity. Later he was one of the organizers of the U. F. O., and is now the vice-president of its co-operative trading department.

Last session he was chosen by the U. F. O. deputation to debate the good roads question with Hon. G. S. Hearn and Hon. Finlay Macdonald, and put both representatives of the government at a disadvantage in presenting the farmers' standpoint. Mr. Drury is happily married and has five children.

**His Strong Tariff Views.**

The premier-designate of Ontario is well known to hold strong tariff views. His latest expression of these was before the recent U. F. O. convention, when he put forward the following statement of the farmers' standpoint: "We may claim without undue egotism that the farmers are the backbone of Canada, that they are bound to this country by ties that bind no other class to it; that they are bound in many cases by a hundred years of education in the one place and that this country is our fatherland. We are the class whose homes are in the country and who, because of love of home, love our country."

He put the following proposition in political economy to the convention: "That to produce commodities for ourselves which we can more cheaply buy abroad must necessarily result in diverting capital and labor from profitable industry to unprofitable, as well as burdening production with the excessive cost of the commodities produced."

**A Fighting Leader.**

His personal attitude he expressed in the following words: "I might as well say I am a crank on the tariff. I have been fighting those fellows for the last thirteen years. During that time I have suffered somewhat personally. I have had hard knocks, and I think I have been able to give some hard knocks—thanks be for that. This question is at the present time a very live question. It is a question which has now to be fought to the finish. It is not a question of the farmers' seeking; we have laid it aside during the war, but while the war was on our opponents, the manufacturers and the Industrial Reconstruction Association have brought it forward and made it a propaganda, and we must meet it fairly and squarely, and solve the tariff question (hear, hear). In discussing this question we must remember that we are asking for the farmers of Canada, but I am going to show that unless we get fair play, not only we, but the country as a whole, will suffer."

The closing words of the address are also interesting on the present occasion.

"The time has come for the farmers to take up the thread of their lives again. We have been too busy winning the war to keep tabs on the important questions which need discussion now. You know, as practical farmers, what keeps us from being up to the very last notch in machinery. It is because we have not the money to pay for it. (Hear, hear.) If a tractor cost \$400 instead of \$900, twice as many people would buy them. (Hear, hear and applause.)"

And this brings me to a very brief thought on another of the economic problems of reconstruction, the reinstatement of our returned soldiers in civil life. Very many of them have signified their desire to farm, or to live in no place where they will do more good in the rebuilding of the country than in its rural life. I think the return of the soldiers to the soil would be a grand thing for Canada. I think the communities in Ontario would welcome an infusion of them. I would like to see the scheme carried out that is in my mind, to have them teach our schools. I believe it would tone up our life immensely, for we need a different viewpoint.

Mr. Dowry's wish was to enter the federal parliament but the wish of the U. F. O. and particularly the decision of J. J. Morrison has changed the current of his career which becomes now one of the most interesting in Canada.

LEASIDE

WM. BUCKLEY DEAD.

William Buckley died yesterday morning in the General Hospital from pneumonia after a short illness, in his 37th year, and is survived by his widow and four children.

This is the first death in many years recorded in the town. The late Mr. Buckley was an employee of the Leaside Brick Company and was well-known in the district.

THE CHANGE in the weather makes the purchase of a comfortable Topper Coat imperative and the choice offered in our new department will appeal to men wanting a fashionable Overcoat at a moderate price.

The variety of styles is good, and you will find semi-Regain, new three-quarter sleeve, satin shield lined, some one-quarter, others full lined. Materials are the newest Banookburns, Scotch Tweeds, English Tweeds and different diagonals being represented.

These coats are all made by one of the best tailoring houses in Toronto.

Prices \$22.50 to \$55.00 W. & D. DINEEN CO., Ltd. 140 and 142 Yonge St., Toronto

EARLS COURT

FAVORS PARK PURCHASE

Mayor Promises to Push Matter of Royce Property Without Delay

"It is my intention to push the matter of the Royce property sale without delay, as I promised your deputation when it waited on the board of control," said Mayor Church over the phone yesterday, and added that the Royce property has been ordered expropriated. There seems to be a tangible, as Lieut.-Col. Royce is reported to have said, nothing has reached him in reference to the Royce estate.

Fifty of the leading Earls Court business men and merchants formed a deputation to the city hall and were introduced by Ald. Brook Sykes, George Hirdman and Donald MacGregor. The board, after a few minutes' discussion, decided that the Royce property should be purchased, and a resolution to this effect was passed before the deputation withdrew. Earls Court says it must have the park, and will start a big and noisy campaign until it gets it. The Mayor's office has said that it is in favor of a new park for this district.

NEW STORES BUILDING.

Ground has been broken at the corner of Elmwood and St. Clair avenues, where six new stores will be erected before Christmas. The new stores will have two-story apartments above and will be the last word in store construction. Only a couple of vacant lots now remain between Dufferin and Elmwood on the south side.

Four new stores just completed on the north side of St. Clair have all been rented at \$200 per month, while the new stores east of Dufferin are being rented at \$125.

DANFORTH

YOUNG-SMITH WEDDING

A pretty wedding was celebrated in North Broadview Presbyterian Church last evening when Miss Edith Viola Young, 17-year-old daughter of Mr. and Mrs. Albert Smith, 20 Worcester ave., were united in marriage by Rev. W. M. Kinnaird, pastor. The bride was supported by her uncle, George Young, in the absence of her father, J. W. Young, thru illness. The bridesmaids were the Misses Hilda and Edith Young, sisters of the bride. Elmer Smith acted as best man. The church was crowded with relatives and friends of the young couple. After the ceremony a wedding supper was served at the residence of the bride's parents, and the bride and bridegroom left for their honeymoon for western Ontario.

LADIES' AID TEA.

The annual tea and concert in connection with Danforth Methodist Ladies' Aid Society was held last evening in the Sunday school room. A musical program was contributed by H. G. West, Miss Goodman, Miss A. Powell, M. Richardson and others. Rev. J. J. Couper, pastor, presided, and an enjoyable time was spent.

RIVERDALE

BOYS' Y.M.C.A. ACTIVITIES.

Under the directions of their leader, M. Glonna, the Broadview Boys' Y.M.C.A. orchestra commenced practice for the winter season last evening at their headquarters, Broadview avenue.

Practice also commenced in connection with the bowling between several league teams.

TODMORDEN

BOY SCOUTS FIRST PRACTICE

Don Mills Methodist Boy Scouts corps have secured the Torrens avenue school basement for their winter camp and met last evening for their first practice under the supervision of their scout master, R. J. Sellers.

"OVER THE TOP" GOES WHILE DOMINION IN VICTORY LOAN RACE

Large Corporations Take the Lead in Creating Atmosphere Giving Encouragement to Smaller Buyers—Toronto Hard on Leader's Heels.

Forging ahead with the surety of the race that never knew defeat, the Victory Loan activities of yesterday throughout the Dominion went "over the top" in every direction, showing results, heavy and specific, to be ahead of those of last year. Large corporations, such as the Canada Steamships Lines, the Canadian National Railway, and the Canadian Pacific, are showing splendid lead and creating an atmosphere and environment that gives encouragement to smaller buyers.

"Toronto's canvassers are 'putting it over' with marked success, and the third day of the collection was equally as good as its predecessors. The small investors are coming to the front in remarkable fashion, while many who subscribed largely on other occasions are doubling their purchases for the third loan. The canvassers are working early and late. For instance, in the district there are 27,000 places of call listed. This particular division is over the Don, and next week Chairman S. B. Playfair promises to have some surprise east enders. Mr. Playfair is eminently satisfied with the progress of the loan to date. He met the board of directors yesterday with an agreeable check on the investment from \$5000 to ten times that amount.

Funny Experiences.

The eloquent meet with many funny experiences in the course of their daily grind. One canvasser, a returned man, by the way, in Chair. A. H. H. division, had booked one individual for \$200 and was trying to induce him to take more, when the latter finally said: "I will not take \$100 for every ribbon you can show." The veteran signed him up for \$500 or \$200 more.

Canvasser Harrison of Chairman Major O. Harrison, division, had been approached on the street by a "rag and bones" merchant, who asked him if he had anything to sell. "No, but I have something to sell to you," before they parted Mr. Harrison had "written up" the "old cloy" man for \$1500 worth of bonds.

Canvasser Reynolds of the same district had a somewhat similar experience, landing a humble cobbler for \$2000, when he had only anticipated getting \$100 for every ribbon you can show.

A Captain's Triumph.

"Captain" Joe Lawson of district "B" personally induced a transaction whereby an industry in his division increased its subscription from \$5400 last year to \$23,000, representing 100 factory workers, and qualifying for seven crowns, which is a record.

Rapid progress is being made with the Victory Loan in the factories and industrial plants of the city and yesterday afternoon seven more institutions were added to the honor roll as follows:

P. C. of P. C. of Employees	Payroll
Lever Bros. ....	79
Palmolive Oil .....	10
Dunlop Tire .....	80
E. L. Ruddy Co. ....	75
Norwich Union Fire .....	78
Insurance .....	75
Soren .....	11
Litho Print Ltd. ....	94

Third on List.

Rolph-Clark-Stone Limited, whose representatives met Saturday afternoon at headquarters, but decided not to wait and left to return Sunday afternoon to find that they were third on the list, got their revenge yesterday when they returned with a new list of subscriptions and received four crests, the greatest number yet granted to any firm in Ontario. The new subscription brings the total for the firm up to \$4 per cent. of the payroll and 17.7 per cent. of the payroll. The company employs 382 people, including 100 girls.

An Encouraging Feature.

"It is indeed a most encouraging feature to hear from many of our canvassers of the large number of small subscribers for the second loan who are renewing subscriptions to the extent of their resources for the present season. Even the Victory Loan had accomplished nothing more than this it has more than justified itself by the spirit of thrift and saving which it has instilled into the community."

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by flat-till, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis or even cancer. Excessive acid is accompanied by sour stomach, flatulence, food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck's Magnesia, a powerful antacid in a quarter glass of water right after eating. This will drive the gas, wind and acid out of the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive and takes the place of many of the stomachic stimulants. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

TORONTO RETURNS IN VICTORY LOAN

Total for Toronto, \$2,293,950	\$20,042,800

people of the province, remarked J. W. Mitchell, chairman of Toronto District. Hundreds of buyers in the city and they had only 42,000 horses other community in the Dominion, tell our canvassers candidly that their holdings of past issues of Victory bonds are not only their only savings they have ever made.

"If I hadn't bought bonds last year I would never have saved any money. It is my first investment in the Dominion and I want you to put me down as a 'this year'." is substantially the story told by scores and scores of subscribers in the factory, stores and dwellings throughout the city. The spirit of thrift will be a tremendous factor in the success of the third loan. The purchase of Victory bonds in 1917 and 1918 represents a tremendous addition to the national wealth and bring to Toronto and nearby ten million dollars in dividends alone," concurred Mr. Mitchell.

Window Competition.

Competitions for window dressing are creating no small amount of interest. These are divided into two parts, class A for the larger concerns, such as Eaton's, Simpson's and Murray-Kay and class B for smaller stores. For these entries are the Robert J. Simpson Co., the Hydro-electric and Gas Co., the Ontario Electric Co., John G. Kent, general manager of the Exhibition; W. C. Miller of the Reg. The winners of class A are Simpson's, Murray-Kay and the Ontario Electric Co. Decorations posters and other equipment may be got from headquarters.

Financial anniversary is going to do its "bit" in a big way when Sunday, Nov. 9, will be the occasion of sermons advocating the patriotism and duty of the Victory Loan. In the afternoon open-air pulpits will be erected down University avenue from College street to Queen street—one for every religious denomination. Services lasting an hour will be held. Five bands, which will be directed simultaneously by Bandmaster Slater of the 48th Highlanders, will lead in the musical program.

Another feature will be a competition for automobiles, trucks and horse-drawn vehicles. These will be processed in procession and judged in Queen's Park. Flying by airplane, bombing captured guns, and the taking of Camp Mead will be included in the carnival.

Colds Cause Headaches and Pains. Feverish headaches and body pains caused from a cold are soon relieved by taking LAXATIVE BROMO QUININE TABLETS. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 25c.

MANY HAPPY RETURNS

To William J. Patterson, Jr., of 86 Colborne street.

WOMEN'S GOLF MATCH.

Hamilton's Ontario Women's Golf Club the first women's golf championship match took place this afternoon. The winner was Mrs. W. E. Knappman of St. Clair avenue, who won a silver cup by defeating Mrs. Armand Smith of Winona.

MUNICIPALITIES ENDORSE SIR ADAM

(Continued From Page 1.)

complished by the commission, Sir Adam paid a tribute to the loyalty and work of the whole staff, and said it was their work which had made the Ontario Hydro undertaking the outstanding feature of the world. The whole scheme was just in its making. None of them knew how the new government would act inwards Hydro.

Sir Adam had noticed that the U.

Have all Your Shoes Fitted with Rubbers

Protect your new shoes by having them fitted with their particular style and shape of rubbers.

Utilize your old shoes on wet days by making them waterproof with easy, comfortable, perfect-fitting rubbers.

that enable you to get staunch, well-made, long wearing rubbers in shapes and sizes to fit every shoe for every member of the family.

Ask your dealer for one of the six brands named above.

F. O. had criticized the Hydro debt of one hundred million dollars and said retrenchment must take place. "Beck, trust the people, and they will be disposed of at a profit as any individual would take good care of itself, and would never call for taxation," said Sir Adam, said: "We can finance any Ontario in everything. They could not turn back in the enterprise, but they could invade industrial concerns to come and settle in Ontario. On his office desk he had applications from new manufacturing firms for 10,000 horsepower for the coming year, and they had only 42,000 horsepower to give out. They had requested one of the Niagara power companies to help them out. "Power we must have," added Sir Adam, and then went on to say that when the Chippewa plant was open next summer all this power would be available to Ontario. He said that the Hydro project was the use of the St. Lawrence River waters, they would not obtain additional power, but ocean boats would be able to navigate from Montreal to the head of the great lake and the Hydro plant would raise the waters of Lake Ontario and take the water in Montreal harbor two to three feet, and give them one and a half million additional horsepower. Hydro was living on income, people who used coal were existing on capital."

Rumors were circulated as to the financial standing of Hydro. That was done to try and damage this credit. Sir Adam assured the meeting their credit was never better than at the present time. (Cheers.) Reversion to the Chippewa development, Sir Adam said that after that was completed private competing companies could not live. They must be taken over by Hydro and at a fair price consistent with the interests of the municipalities. When that came about the whole scheme would be made as follows:

To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing ailment can usually be successfully treated at home by Sir Adam's medicine. In many instances has effected complete relief after other treatments have failed. Sufferers who scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you will have been the means of saving them poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure, but to clear the middle ear of excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form of distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

must be put up to the people. "I have never spent one dollar," declared Sir Adam, "without consulting the people." Sir James Whitney said to me: "Beck, trust the people, and they will be disposed of at a profit as any individual would take good care of itself, and would never call for taxation," said Sir Adam, said: "We can finance any Ontario in everything. They could not turn back in the enterprise, but they could invade industrial concerns to come and settle in Ontario. On his office desk he had applications from new manufacturing firms for 10,000 horsepower for the coming year, and they had only 42,000 horsepower to give out. They had requested one of the Niagara power companies to help them out. "Power we must have," added Sir Adam, and then went on to say that when the Chippewa plant was open next summer all this power would be available to Ontario. He said that the Hydro project was the use of the St. Lawrence River waters, they would not obtain additional power, but ocean boats would be able to navigate from Montreal to the head of the great lake and the Hydro plant would raise the waters of Lake Ontario and take the water in Montreal harbor two to three feet, and give them one and a half million additional horsepower. Hydro was living on income, people who used coal were existing on capital."

A Unanimous Resolution.

On the conclusion of Sir Adam's speech the following resolution was unanimously passed: "That this meeting demands that Sir Adam Beck be continued as chairman of the H. C. C. and that the constant of three member only—Sir Adam Beck as chairman, one member from the municipalities and one member nominated by the government and in the event of the nomination being refused a representative thereon, Sir Adam Beck should have the appointment of one representative, and further, the term of office for the said commissioners be for not less than six years."

The resolution was proposed by Controller Maguire, seconded by the mayor of Windsor, and carried unanimously amid much cheering.

A second resolution, stating that in the interests of the municipalities and the Hydro project, Sir Adam Beck be seated in the Ontario Legislature, and steps to secure same be taken, if possible.

A third resolution was passed pledging loyalty to Sir Adam and undiminished confidence in his work, and that his continuance in office was absolutely necessary to the furtherance of Hydro power.

Other Speakers.

Amongst other speakers at the meeting was W. K. Ramsden, who was in the chair, and said it was no concern of the Hydro project, but it was the legislature, but it was the concern of the Hydro project, and the Hydro project was the guiding star for the Hydro project.

T. J. Hannigan said the Hydro Commission should be permanent and not at the whim of Grit or Tory.

W. C. Mitchell of Belleville said it would be a mistake to lose Sir Adam in his great work. "We are here today," he said, "to hold up the master builder, and we want Hydro put where it can't be wrecked by politicians." S. Carter, ex-M.L.A., Guelph, said he had seen efforts in the legislature to break down Sir Adam, and desperate efforts had been made to break him down. Carter said in future the government

TOWNSHIP OF YORK.

NOTICE is hereby given that a by-law (NO. 4577), was passed by the Municipal Council of the Corporation of the Township of York on the 28th day of October, 1919, providing for the issue of debentures to the amount of \$2,000,000, for the purpose of enabling the Board of Public School Trustees of School Section No. 31, in the Township of York to repair and improve the School property by installing a hot water heating system in the school house in said section; and that such by-law was registered in the Registry Office for the east and west ridings of the County of York on the 29th day of October, 1919.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the 30th day of October, 1919, the date of the first publication of this notice, and cannot be made thereafter.

Dated this 30th day of October, 1919. W. A. CLARKE, Clerk of York Township.

would not dare to turn a deaf ear to the municipalities.

Mayor Church declared Hydro here to stay. Sir Adam made the Hydro and his services must not be lost in this emergency. He opposed a suggestion that the Hydro Commission be composed of representatives, one each for north, south, east and west of Ontario. The controller said Sir Adam represented the whole province and not a particular part of it.

Amongst other who spoke were A. F. Wilson, Markham; W. Ellis, Hamilton; W. K. Sanderson and Mayor Lewis, Brockville.
