# SPECIAL FARMING & LIVE STOCK EDITION

OFFER PRIZES.

Many farmers and farm lovers are wealthy enough to encourage the grow- Full ing of good, clean grain by offering individual prizes for good fields to be awarded at the fall fairs. The closing with the conditions laid down by the department of agriculture for these day was most successful. Col. B. V. prizes on the part of so many societies shows the need for such work. Many agricultural fairs will be unable to get mood. While prices were not as large a grant for the purpose, and here is a rant, yet it is a hopeful sign to see onchance for hig-hearted and progressive tario breeders becoming interested in men to encourage farmers in the work. this great dairy breed of recognized A prize offered for this and inserted in the county of township fair prize lists of Messrs. G. Manhard of Manhard 2365 hogs, 195 sheep and lambs, and 300 will be a move in the right direction.

## 90 CARS AT CITY YARDS CHOICE CATTLE HIGHER

Sheep, Lambs and Calves Are Firmer.

Receipts of live stock at the city market

A few choice well finished fat cattle were offered, but a large percentage were only half fat and not what might be expected at this season of the year. Trade was brisk, in fact it was one of the best markets of the season thus far. The main reason, in fact the only one, was on account of moderate receipts during ne week.

The advance in price since Tuesday mounted to fully 15c to 25c per cwt., on

the best cattle. Exporters. Not many offered and prices ranged from \$5,25 to \$5,60, and those quoted at the latter price were bought for butcher purposes, Export bulls sold at \$4 to \$4,50 per cert.

Butchers. 200 Prime picked lots sold from \$5.25 to \$5.50; loads of good at \$5 to \$5.25; medium at \$4.75 to \$5; common mixed at \$4.25 to \$4.60; cows \$3.50 to \$4.60 per cwt.

Stockers and Feeders.

Harry Murby reports a light trade in teeders and stockers during the week, owing largely to the active demand for butchers cattle, which has placed them at a price too high for those who were buying shortkeep feeders, Mr. Murby bought about 100 stockers, and feeders, during the week, weighing from 600 to 800 lbs., at \$3.50 to \$4 per cwt.

There was a good outlet all this week for good to choice milkers and springers, the bulk of which were taken by eastern bulyers from Montreal, Ottawa and Quebec. A good many went to Montreal. Buyers, as usual, were after the high-class cows, giving or likely to give a large flow of milk. The best sold up to \$60 and \$70, and the bulk of good ones went at \$45 to \$55. Medium cows have been slow sale in comparison with the good. Common light cows were not wanted, and were hard to cash or close out at \$25 to \$30. Milch Cows.

the case more emphatically than usual this season, because the price of milk is higher than it has been in years, and that is about all some of the dairymen seem to think about. For him there is money to sacrifice the calf, and save the milk. The result has been that the market has been flooded with a poor class of veal, and dealers want something better. If 75 per cent, of the calves coming on the market were fed about two to three weeks longer, prices would average much higher, but the dairymen have figured it out and have concluded that it wont pay. Prices for calves were firmer to-day in sympathy with the advance in beef prices, selling from \$3.50 to \$6.00 per cont., and some few were reported at \$7 per cwt., but this was for an odd new milk fed vealer of choice quality, such as butchers are anxious to get.

Sheep and Lambs.

The last cast made tremended the past fifty years, and dichigan Agricultural college has taken a part in it that is little undertended by the people of this state. England is sending Henry T. Rovey, F.R.S., LL.D., D.C.L., of Cambridge University; Germany and Italy are sending distinguished delegates, while from Canada James W. Robertson, LL.D., C.M.G., of McGill University; G. C. Cameron, B.S.A. M.

So per cwt., and some few were reported at \$7 per cwt., but this was for an odd new milk fed vealer of choice quality, such as butchers are anxious to get.

BROWN TAIL MOTH.

OTTAWA, May 30.—Dr. Fletcher, government entomologist anticipates attending the Annapolis Valley convention next week, where it is proposed to discuss means for eradication and next week, where it is proposed to tion next week, where it is proposed to discuss means for eradicating the brown tail moth. This pest has made its appearance in the orchards of the maritime provinces, and Prof. Cummings of the Nova Scotia College has a corrected with the government work. co-operated with the government workers in the matter. New England has had its own time with this moth, and mililons have been spent in trying to stamp it out. It has appeared in Can-ada in these eastern parts thru the big tourist traffic no doubt.

Trade Brisk-Hogs Unchanged- Had Season Been Earlier There Would Have Been a Large Increase.

H. C. Hammond, of the firm of Osler as reported by the railways since Tuesday & Hammond, has just returned from P.O. were 90 car loads, composed of 1202 cattle, the Northwest, having been in the City of Winnipeg from May 1.

Mr. Hammond reports that the season, as here, has been very backward, so much so that until May 15 a feeling of depression had become almost general. Since that time, however, a large amount of seeding has been done, and it is claimed that the acreage this year sown in wheat will be almost equal to that of last year.

The Rocks bred for beauty and business, from Boyce's prize winning strain; \$1 per 15; \$4 per 100; also 2 cockerels, at \$1 each. A. R. Latter & Son., Rosehurst Poultry Yards, Ravenna, Ont. that of last year.

But so large a quantity of land was prepared for seeding last fall which cannot be sown this year, that ft will probably mean a falling off of 20 per cent. from what it would have been had the season opened earlier.

"The farmers could not get on the per 9.

on account of wet conditions, and as hatching, good stock, 50 cents for hatching, good it is, a good deal of land intended for wheat will be sown with coarse grains.

"As usual, the people are full of hope. They are very optimistic in that country, and they might be said to be lack-ing in repose. That is, they are very energetic and forceful in the way they
