## VARSITY RESIDENCE PLANNED **DECLARES PRESIDENT LOUDON**

Greek Letter Societies and Their Privileges, Already Granted, are Here to Stay, But Developments are Promised Shortly.

President Loudon was questioned yesterday regarding his attitude towards the granting of land to the Kappa Alpha Society for the erection of a chapter house. He said that he had been prejudiced against Greek letter societies, as they were secret. He was not a Greek letter man himself, but when they came into existence in Toronto he had made exhaustive enquiries into their working. He had received much information from Dr. Angell of Michigan University who commonded the Bursar's office elicited the fact that like rate is 3% per cent., payable semi-annually. The term of payment extends over 22 years.

The President was inclined to minimize the bad effects of secret societies amongst the students. If there were but one or two of them the men might be split up into cliques and factions, but there was safety in numbers and, as these societies were growing more popular, others would spring up and no one society would gain a prepen derance dangerous to the unity of the students of them the men might be split up into cliques and factions, but there was safety in numbers and, as these societies were growing more popular, others would spring up and no one society would gain a prepen derance dangerous to the unity of the students. They were an institution which had come to us from the States and they had come to stay. He thought it better to draw them into the University precincts than to have them scattered over the town, where no supervision could be

The statement had been made that only four or five societies could be accommodated on University property. This was true, but the leasing of lands for this purpose in no way encroached on the property set aside for the building of a college residence. In any case, the conditions of the lase, which is for 42 years, stipulate that the University can resume possess on at any time, an indemnity being paid for the chapter house. Mr. Loudon doubted the statement that

Professor Baker refused to be drawn into conversation on the matter. If he said anything in favor of the societies it would be discounted by the fact that he was a Creek letter man. Anything he might say against them would be in conflict with the action of the trustees. He objected to the term "secret" being used in this conrection. He had not been a member of such a society until he joined in order to produce the lade a charter.

There is a splendid show at Shea's this week, and the usual large audiences are in attendance. The Miyo-San Company is presenting a very pretty one-act American-Japanese musical comedy. Man's Glory Is In His Strength.

Every day we have evidence that the weakling has no place in the busy, bustling life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the successful man of to-day; it matters not whether he be a Merchant, Lawyer or Laborer, with head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which insures success. I can make just such men of weaklings. I care not how

long they have been so, nor what has failed to cure them. Let them wear my Dr. McLaughlin Belt every night as I direct, and in place of the weak-nerved, debilitated being, I will show you a strong man-full of vigorous life, with nerves like steel and ready to look any man in the face and feel that he is the equal of the best of them and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for twenty thousand weak men, and every one of them had spent from \$50 to \$500 on drugs before he came to me as a last resort.

Are you weak or in pain? Are you nervous or sleepless? Have you Varicocele, Rheumatism, Weak Back, Kidney Trouble, Weak Stomach, Indigestion or Constipation? Are you lacking in Vitality?, I can give you the blessing of health and strength. I can fill your body with vigor and make you feel as you did in your youth. My Electric Belt is worn while you sleep. It gives a soothing, genial warmth into the body. This is life-vigor.

Is it because, tiring of spending money trying to seek relief through other treatments, you are doubtful whether there is any help for you? Now to enable you to satisfy yourself whether or not I have the confidence which I tell you I have in my treatment, I make this offer: If you will secure me for the price of my Belt I will take your case and cure you before you pay me. Is this not fair? This is my offer:
