

## The Honan Mission.

---

We reproduce above the picture of Dr. McClure's House, and hope in our next report to have a picture of our hospital and chapel. The best report we can give of his work is contained in the following letter. I have very heartily to thank those friends who so readily and generously responded to my appeal on behalf of our Honan Mission, and feel assured I can fully depend on their sympathy and support in continuing this work.

DEAR DR. MACKAY :

I trust you do not think that because I have not written I have forgotten all the folks at home. Although you and all my friends are often in my thoughts, yet I must confess my shortcomings in not writing oftener. Unlike the chief butler, "it is not this day only that I do remember my friends." I beg forgiveness again from you and all the Crescent street friends, and I hope I may turn over a new leaf in this respect.
