skipped by H. T. Wilson and T. Rennie. Sporting Editor World: I am sorry Messirs, Rennie and Wilson were not in a position to decide their game in the trophy curling competition with more despatch. Then there would have been less said, or, rather, printed, about the probable outcome of the contest. Is it not bad form to digrass on the chances of one of these starling skips defeating the other, and much worse to write about the odds and betting? Messrs, Rennie and Wilson are expon-rits according to the lottiest ideals. They curl for the love of it, and win for their own honor and the honor of their clubs. So I think there are others basides the actual men on the ice to whom the golden rule, viz. No. 31. could be quoted with profit to the latter and benefit to the brithers of the besom in general.

President McPherson and Secretary Hilton of the new Canadian Football Association were in Hamilton on Satur-day interviewing, the officers of the Hamilton District League, and met with little satisfaction. We think they would have fared better by working over the long-distance telephone.

CHICAGO, Feb. 11.-The American League will adopt a 154-game schedule at its meeting, which begins here to-morrow; according to a statement made by
