Chicago Markets.
J. P. Bickell & Co., Lawlor Building, report the following fluctuations on the Chicago Board of Trade:

April 28. Open. High. Low, Close.

J. P. Bickell & Co. say at the close: J. P. Bickell & Co. say at the close: Wheat—Higher. Lower cables were responsible for dip at opening, but buying of a very good character turned market into a buoyant affair, values closing 1½c to 1½c higher. Crop advices continue very unfavorable, and are coming from reliable sources. Cash demand is still slow, but improving. We continue to advise the purchase of September wheat. Erickson Perkins & Co. say at the close: Wheat—There is decidedly less skepticism about the deterioration which has been going on for some time, and the buying is of a class which indicates this. As each successive day passes to bring stronger confirmation of damage and deterioration, we cannot but continue to refterate our belief in higher prices for September wheat.

Corn—Market was a heavy one thruout the session, considering the strength in wheat.

Corn-Market was a heavy one thruout the session, considering the strength in wheat. Until the demand improves sufficiently to give us a good decrease in local stocks we cannot advise buying corn.

Oats-Some further liquidation in May, with cash and elevator interests the best buyers. DOMINION STEEL HISTORY

The Men Who Took Risk of Second Mortgage Bonds.

MONTREAL, April 29 .- (Special.)-Now that the Dominion Steel Co. is out of the woods and the difficulties of the coal company are a thing of the past, one cannot but call to mind only four years since, when the alternative of putting up \$1,500,000 cold cash, or al-lowing the steel company to pass into the hands of a receiver, stared the steel company's directors squarely in the face. The names of the men who decided to take \$1,500,000 of the second mortgage bonds at par and pay cash for the same when the first mortgage bonds were only selling at 75, were: J. Referring to the fact that the Grand Trunk Pacific is now bringing large numbers of settlers into the wheat belt of Western Canada—repatriated French-Canadians from the east and thousands of American farmers from the south—a high official of the Grand Trunk recently stated that the development of the west was proceeding with such gigantic strides as not to

be fully appreciated by the Canadian people themselves. "Take these figures, for instance," said the official, "which the Grand Trunk has compiled and distributed over Great Britain and Europe, and you will see what I refer to.

RUSSO-JAPANESE WAI

Lord William Cecil Gives Instructiv Address Before Canadian Club.

"The proposal is not to give China something she does not want. We will incorporate the learning of the east with that of the west. We want to establish a great university that will reflect the great benefits which have come from Christianity. We do not in any way wish to force Christianity on China, but we want to give China the best thoughts of the west and the things that are noble."

His dreamy, poetic eyes afire with enthusiasm, and his body tense with earnestness, Rev. Lord William Cecil spoke these words to a large gathering of the Canadian Club yesterday. His subject was the future of China, and his mission in Canada is to create an interest in a movement scene to be interest in a movement soon to be launched for the purpose of raising \$1,000,000 to endow a university in China, where the benefits of western china, where the benefits of western civilization can be taught. China, he said, was an old conservative country that had passed thru thousands of years without undergoing

any change in her civilization, but since the Russo-Japanese war she had become a thoroly civilized nation. The great political change was due to the of the self-esteem that there was no foreign nation to compare with her in power. With a population of 400,000-000, what need had she to be afraid of a nation like Japan? From this de-lusion, China had a rude awakening. Another force not so obvious, but a force which the world must regard as the greater, is Christianity. Thruout almost every province of China white missionaries are now established.

"I ask you then what is our duty?"said Lord Cecil. "As sympathetic human beings, can we sit still and do nothing: keep our civilization to ourselves and keep from China the great advantages of western knowledge? Or assume to of western knowledge? Or are we to go to China and say we will do our best to help you and give you the light we have? It is the duty of the

Property Owners Still Hopeful of Securing the Improved Thorofare.

to lay a 42 foot asphalt pavement on St. Clair-avenue from Yonge-street to Avenue-road was laid over for two weeks by the committee on works yesterday. A deputation, headed by If. H. Suydam protested against the narrow pavement and asked postponement until the question of widening the thorofare is settled. Severally eral property owners on St. Clair-avenue between Yonge-street and Deer Park-crescent offered to give part of their land free of charge if the city would widen the street and preserve the trees, having car tracks placed in the trees, having car tracks pl the centre with poles on the devi-strip only, or, if the street were made strip only, or, if the street were made into a wide boulevard without car tracks. They stipulated the that the city bear the whole cost of pavement. Their names are: W. B. Markle, 169 feet; R. J. Berkinshaw, 102 feet; R. S. Steven, 75 feet; E. J. C. Norrie, 34 feet; W. A. Walker, 36 feet; Ernest Watt, 36 feet; John W. McColl, 36 feet; Harry Theris, 38 1-2 feet; C. A. Hull, 70 feet, and Fred B. Meeve, 35 feet.

Contractor Burridge was ordered to tear down bay windows of an apart-ment house he is erecting at Church and Gloucester-streets, because they extend over the street line. The incident may result in a bylaw compelling all builders to file duplicate plans with the city engineer and city

putized the committee to widen Bloo street to 100 feet from Dundas-stre to High Park-avenue, a distance 3400 feet. The assessment commission er and city engineer, estimated would cost \$75,000 exclusive of lan damages, which would be \$25,000 extra. Nothing will be done until 50 per cent. of the property owners sign a pe

The committee pledged itself to the policy of paving public lanes by turning down a deputation which opposed the paving of the first lane running west from Caer Howell to Beverley-street. The first lane east of Yonge off Gloucester-street, and the first south of Bloor of Dovercourt-road will

also be paved. A communication from W. Duffett, 15 East King-street, asking that College-street be widened from Yonge to Spadina, was fyled.

The express stand was shifted from Adelaide and Church-streets to the west side of Chestnut, near Osgoode Hall

Hall.

Assessment Commissioner Forman has arranged to sell No. 126 Jones-avenue to Annie L. Smith, 57 Dagmaravenue, for \$200; Nos. 140, 142 and 144 DeGrassi-street, to J. P. White, 92 Church-street, for \$607, and No. 149 Bolton-avenue, for \$53. These houses have to be removed because they are on the line of the high level sewer. Latest analysis of water made on April 26 along the line of the proposed extension of the intake pipe proves that the water 2000 feet out is worse than at the intake pipe.

MILITARY FUNERAL

Ex-Members of 48th Regiment May Pay Tribute to Late Commandant.

The attention of the office com. officers and men of the 48th High-landers is called to a regimental order on another page. The commanding of-ficer wishes to remind all ranks of the night. One application and you are like a new being; it takes all the pain and weakness out of your back; it makes you answer the morning greeting with "I'm feeling fine." It is a great strength builder; it overcomes the results of earlier mistakes and indiscretions; it gives you a compelling power, so that you are attractive to all women and men with whom you come in contact. Three months' use is sufficient. F. A. Clarke, Port Hope, Ont., writes: "I am a man again, thanks to you. Noth-

The funeral will leave St. Andrew's Church, West King-street, at 3 p.m., proceed by way of Simcoe, University-avenue, Queen's Park and Avenue-road
