POLICE MAKE MERRY. First Division Men Dine, Speak and Enjoy an Excellent Musical Program.

It was a genial gathering that took part of the social time held last night at the Court-street Station by the police of the first division. Inspector Stephen occupied the chair, and among those present were: Inspector Hall, Inspector Stark and Constable Joe Phillips. After partaking of the food and drinks provided by the officers of the first division, the musical program was given by the police of the first division. The program was given by the police of the first division. The program was given by the police of the first division.

WHAT ARE THEY AFTER? The Capital Aldermen Trying to Learn How a Police Force Ought to Be Run?

The civic fathers of Ottawa are probably planning over Toronto for something. Alderman White, chairman of the Fire and Light Committee, and Ald. J. C. Rogers are the Russian, and they are looking around. They are investigating for pointers on the way to run a police force. If they are, Ottawa certainly needs all the help they can get.

On there last Friday was a positive young. Old men, women and children were the victims of the police baton in the street. The Ottawa police did not know the side-bodded men, for they realized that the latter might be dangerous. The men from the Capital said the Dominion police were to blame for the brutality in Ottawa. The police were to blame for the brutality in Ottawa.

King Street—Opposite the Postoffice.

POLYGAMIST ROBERTS GOES.
The Utah Man Expelled From Congress by a Vote of 278 to 55.

Washington, Jan. 25.—Representative Roberts of Utah, accused of practicing polygamy, was expelled from the House this evening, the report of the committee recommending this action being adopted by a vote of 278 to 55.

The amendment to expel Mr. Roberts without seating him, offered by Mr. Lacey, was ruled out on a point of order, and the House only voted upon the resolutions of the majority and sent them to the committee. The latter to meet and then expel Mr. Roberts was defeated 81 to 24.

What Roberts Says About It.
Mr. Roberts was present throughout the day, and only left the hall after the result of the last vote had been announced. As he did so he gave out a statement justifying his retention of his plural wives on the ground that his moral obligation was not binding upon his conscience than technical obedience to statutory law, and saying that there was little excuse for the extraordinary efforts to crush a system already abandoned and practically dead. He said he was a "Martyr to a spasm of prejudice." He would not, he said, attend to the Congress until he was able to go back home with a light heart, content of the future.

S. A. Scherman, commercial traveler. Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for Indigestion, Rheumatism, and the various aches and pains. I was the whole of one day unable to get up, and after a few minutes' use of the oil, I was able to get up and move. I have since used it on many occasions, and it has always given me immediate relief and is a sure cure of the worst cases."

Eldon Lodge Reunion.
The fifth annual reunion of Eldon Lodge, No. 1, O. L. O. L., was held at the County Orange Hall. At the dinner, Mr. H. C. Dixon presided, and Mr. J. H. Jones, Secretary. Speeches were delivered by Mr. J. H. Jones, Mr. Wm. Law and Rev. J. H. Jones. The evening was given by the Eldon Male Quartet, Douglas McKnight, Cantwell, Bros. Colling and Hassard.

Race and Population.
James M.A., Deputy Minister of Agriculture, gave a lecture before the Central Y. M. C. A. last night on "Race and Population." His lecture was an estimate of the nations responsible for Canada's population. It was interesting and instructive.

William Rennie closed the afternoon meeting with a valuable address on "Culture of the Soil." The rotation of crops every four years was an essential to preserving the productivity of the land. The speaker claimed, "The value of clover to form the vegetable matter so much needed in the top soil was formerly enlarged upon, as was the waste of applying mineral fertilizers without judicious cultivation. The evening session was enlivened with topical selections that were interspersed with addresses on "Bentleying the House," by Mr. Rennie, "Butter-Making," by Mr. Rennie, and "Three Historic Days on the Niagara River," by Major Sheppard.

THEY ARE STILL FIGHTING.
Gen. Schwan's Column Drove 500 Insurgents From Their Entrenchments at San Diego.

THE FILIPINOS LOST HEAVILY
American Loss One Killed and Fourteen Wounded—Schwan Moving Forward.

Manila, Jan. 25.—(9:40 a.m.)—A part of Gen. Schwan's column, consisting of six companies with some artillery, drove a force of 500 insurgents from their entrenchments at San Diego near San Pablo on Sunday. The enemy officially reported that they lost 47 killed and many wounded. Our casualties were one killed and 24 wounded. The injuries in most instances being slight.

Another battalion, while executing a flank movement, came upon a hundred other rebels in a trench position, and routed them, killing 15. The American Gen. Schwan moved against Malajay, Laguna Province, on Tuesday. He found his position almost impregnable, but by lowering a rope down the steep river banks by ropes, flanked the enemy and drove them out. Part of the force proceeded to San Cruz, killing insurgents.

Gen. Wheeler and his daughter left on Wednesday on the transport Warren for San Francisco, via Hong Kong and Guam.

Schwan Doing Good Work.
Washington, Jan. 25.—Gen. O'Day's report, received this morning, states that Gen. Schwan is conducting the campaign in the south of Luzon with the greatest success. He has located southeast of Laguna de Bay what is probably the last command of the insurgents. The report shows that, with small loss to himself and heavy loss to the enemy, he has managed to dislodge this force probably beyond the possibility of reconstruction.

Toads and Frogs.
From The Baltimore Sun.
Some traits of "the medieval toad" were recounted in a paper written by Mrs. Frances M. Butler of Snow Hill, Md., and read by Mrs. J. H. Rogers at the monthly meeting of the Baltimore Folklore Society of the Baltimore Folklore Society, held last night at the residence of Mrs. Rogers. The toad was credited with secreting a poisonous venom which it had in its body, which it spat out indiscriminately at its prey and beast. The toad was credited with secreting a poisonous venom which it had in its body, which it spat out indiscriminately at its prey and beast.
