

ENGLAND. LONDON.

Table with 4 columns: Year, Amount, Year, Amount. Rows include 1816, 1817, 1818, 1819, 1820, 1821, 1822.

In 1816, the first year after the conclusion of the war, the retired pay, half-pay, and allowances of officers of the Army, amounted to £459,924; the sum in the following years has been—

ability we copy it verbatim.—Also wanted an apprentice to the tailoring business; if he be a lad of ability he will be taught the fiddle (if required.)

A few days ago a young man arrived in this town, from a visit which he had been paying his friends in the country. The preliminaries of his marriage had been settled with a young lady residing a few miles out of Liverpool, and every preparation was made for the joyful occasion.

seamen of their knives, &c. when employed in obtaining water. Eight seamen were wounded, one Esquimaux killed, and another wounded. The Blossom was at Pitcairn's Island in December, 1825. The colony consisted of 25 Adams was alive. They express considerable anxiety to be transferred to some other part of the Globe, and have petitioned the Government of this country to grant them some spot in New South Wales, which, by cultivating, may afford them the means of subsistence.

SCOTLAND. Emancipation of a Slave in Orkney.—An interesting question came lately before the Justice of Peace at Stromness, upon an application for W. M. Landown, formerly a slave in Jamaica, who had come to Stromness on board the brig Traveller of Aberdeen, bound for that island, and of which vessel he had been steward. The point for decision was, whether this individual, who came lately to Britain, and lived a short time in Aberdeen, could be obliged contrary to his present inclinations, to return to a place where he might be claimed by his master, and again subjected to slavery.

NEW-YORK FIRE DEPARTMENT.—A communication from Alderman Cox, late Chief Engineer, on resigning that office, was laid before the New-York City Council, on the 24th Dec. He states that in 1825 there were 54 fires in the city; in 1826, 67; in 1827, 62; and thus far in this year, 131—the losses by fire during 11 months of the present year, amount to the enormous sum of \$600,000!

MEXICAN MINES.—From September, 1825, to June, 1826, the different Mints in the republic of Mexico, coined gold to the amount of \$603,071, and silver to the amount of \$6,856,319. For 93 years, commencing with the first mint in 1828, the amount of gold and silver coined in Mexico, averaged \$14,437,189 per annum. In addition to this, a great quantity was exported as bullion.

RUSSIA.—The American Quarterly Review reckons the population of Russia at between 50 and 60 millions of souls, of whom about 40 millions are serfs, (white slaves employed in husbandry.) The number of serfs belonging to the crown is 14 millions. The serfs are sold in Russia as slaves are sold in the United States; but they are bonded to the land; they form a part of the glebe, and can only be made over to another as part of the estate. On some estates, they are allowed to work three days in the week on their own account; the other three days they work for their lords. When the government wants recruits for the army, each person holding serfs is directed to send his quota of peasants, suitably equipped, to a particular spot. The serfs settle in the new places, where they are to march. The friends of the reform believe their fate is the most lamentable manner, and take an everlasting farewell of their children, brothers, and relations. They seldom see or hear from them again. Few serfs are given to Russian soldiers; the rest being sent to some remote spot, where they are unable to read or write; and most of them fall in battle or by natural death before the expiration of their 25 years' service. The pay of the poor soldier is not more than 55 cents a month. Capt. Jones, in his Russian Tour, estimates the Russian army at 800,000 men, of whom not more than half are efficient for field duties. The Co-sacks usually send 40 or 50,000 cavalry into the field in one war.—Hampshire Gazette.

ability we copy it verbatim.—Also wanted an apprentice to the tailoring business; if he be a lad of ability he will be taught the fiddle (if required.)

The Co-sacks usually send 40 or 50,000 cavalry into the field in one war.—Hampshire Gazette.

COLONIAL. [INSERTED BY REQUEST.] St. Andrew's Meeting at Guisburgh.—A meeting of the Upper Canada St. Andrew's club, was held at the city of Guisburgh on Monday the first inst. to celebrate the anniversary of the titular Saint of Scotland. About forty gentlemen, the greater part of whom, were from the land that lies beneath the Tweed, sat down to an excellent dinner in the Swan Inn. Among other extraordinary incidents on table, were "a couple of eggs upon a trencher"—"two eggs in the pot"—"the chicken of the morning"—"and our last dish," with other delicacies too numerous to be here recorded.

INDEPENDENCE OF SPIRIT.—A carter at one of the ports in Scotland, had the misfortune to break his horse and cart over the pier into the river. The horse was drowned, and the cart broken. When the merchants of the town heard of the accident, they kindly resolved to assist the poor man to obtain another horse and cart, because he had always been very steady and industrious. But, lo! when they told him that they were about to raise a subscription for him, the honest man scratched his head and said, "Na, na, gentlemen, I'm a muckle obliged to ye for your will, but I canna consent to be begged for yet. Ye see, the wheels of the cart are no broken, nor a bit the waur, and the sheen (shoes) of the beast are a'our as gude as new; an' I've just ta'en aff his hide, an' sold it in a gude market and sae w' the siller for it, and a little I laid by for a rainy day, I'll just try to do for myself aince mair. But I'm as muckle obliged to ye, as if I could tak yer siller. Its na pride, ye see, but just I dinna like ony thing 'n the shape of alms."—World.
