

White Millinery Refreshingly Cool

There are three reasons for the popularity of white hats—they are smart; they are becoming, and they are appropriate for so many occasions.

You will find the white mode, so much in demand by the women and misses who dress correctly, beautifully portrayed in our showrooms. The very spirit of Summer has been captured in the fashioning of these Hats, which were received only yesterday.

AFFECTS COKE PROJECT HERE

Hon. C. Stewart Announces Bill to Encourage Industry

Will be Introduced at Ottawa—Money for N. B. Buildings in Estimates

A bill to encourage the construction of works for the production of coke from coal mined in Canada is to be brought down in the House by Hon. Charles Stewart, Minister of the Interior, a despatch from Ottawa this morning said. The assistance given is not to exceed three per cent. of the cost of the work.

LOCAL PROJECT

It will be recalled that when S. E. Elkin was in the city a short time ago he said the erection of the coke plant here was waiting for this legislation to be enacted and the word that it will be before Parliament now is expected to have the effect of encouraging the promoters of the project to go ahead with the work of erecting the necessary buildings for this plant. It has been said that the site of the coke plant would be the area now occupied by the buildings of the Maritime Mill Co. and that in addition to several new buildings there would be a large wharf structure built to give a berth on the harbor line.

PUBLIC BUILDINGS

Another Ottawa despatch this morning says that among the estimates passed for public buildings there was included \$124,000 for New Brunswick; \$5,000 for Prince Edward Island; \$82,500 for Nova Scotia; \$274,000 for Quebec and \$315,397 for Ontario. Other estimates passed included \$48,000 for repairs to public buildings in the Maritimes; \$865,000 for miscellaneous expenses of the department; the Public Works for architectural, engineers and national monument work and \$212,770 for grading, docks, locks and dams throughout the Dominion.

RAIN MAKES CHANGE OF PLAN NECESSARY

West Indies Visitors' Morning Drive to Hampton Called Off—Luncheon at Riverside.

The delegates from the West Indies to the conference at Ottawa on June 10, who arrived in the city yesterday, were taken through the plant of T. S. Simms Ltd. this morning and were greatly pleased with what they saw. The different parts of the plant which the raw material passes to emerge in the finished product which they see on the shelves of the shops of their home country were explained to them by L. W. Simms.

Owing to the rain the proposed drive to Hampton was called off but it was the intention to drive out into the country for a drive after the luncheon at the Riverside Golf and Country Club should the weather prove favorable.

Commissioner Bullock in discussing the conference this morning said he thought the Maritime delegates were making a mistake in asking the government for a fortnightly service from these ports. What they should ask for, in his estimation, was a better class of steamers with more frequent sailings from the ports of Saint John and Halifax and also for absolute free trade between Canada and the West Indies.

SHOWS TROUBLES OF N. B. POTATO MEN

Edmondston Man Trades 40 Barrels of Tubers For One of Flour.

Forty barrels of potatoes for one barrel of flour was the basis of a trade made in Edmondston the other day. The authority for this statement is a well-known business man. The deal meant that the product of about five bushels of western wheat called for the production of 40 barrels of good eastern spuds. The incident demonstrates rather forcibly that the potato growers of New Brunswick are experiencing difficulties which are rather hard to face. It isn't all roses producing spuds.

IN NEW SERVICE

Steamship Japala Arrives to Take Cargo From Here to India.

The steamship Japala, 4,386 tons, Captain Neal, arrived this morning from New York and is loading for Indian ports. She is expected to sail on Thursday of this week. This will be the inauguration of the Saint John-India route run by the Roosevelt Steamship Company.

HATFIELD & CO. VS. C. P. R. Chief Justice Barry was in Supreme Court Chambers this morning to hear evidence in connection with a case transferred from the Charlotte County Circuit, but counsel announced that the matter in dispute had been settled. The chief justice will hear argument of counsel in the afternoon in the case of Hatfield & Co., Ltd. vs. the C. P. R., an action which was tried at the January term of the court. It is in connection with terminal charges on potatoes here. Hon. W. P. Jones, K. C., appears for the plaintiffs and Dr. F. R. Taylor, K. C., for the defendant.

PASSPORT BOOK FOUND. While viewing the Reversing Falls yesterday, a lawyer tourist from out-of-town lost his passport book, carrying several important papers and certificates. Later, it was found by Sam Carey and handed over to F. J. Fitzgerald, Fairville, for safe keeping until the owner could be located.

Moose Tours In Carleton

A LARGE BULL MOOSE paid a visit to the West Side this morning and, after looking the place over, ambled on down toward the Bay Shore. He was seen about 8 o'clock, coming from the direction of Fairville, moving along very leisurely. Proceeding along Lancaster avenue and down toward Queen Square, he turned around and made for the wooded places along the shore.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbaker, "what effect will the packing plant and the vegetable and fruit-canning plant have on 'The Settlement'?" "Well," said Hiram, "some'll say these is two more schemes to get the best of the farmer—an' some 'll pitch in an' raise more live stock an' vegetables an' fruits."

"And which will be the wiser?" asked the reporter. "The fellers that raises more stuff," said Hiram. "We been yellin' fer markets an' sayin' two more chickens an' a turpud 'ud glut the Saint John market any day—an' it wasn't no use to try to sell nothin'. Now we'll have a market—an' if we kin do more work an' raise more live stock an' more 'll be all the better fer the farm. We been gettin' kind o' lazy because it wasn't always easy to sell what we rize—but I'm fer pitchin' in an' showin' them farmers in Ontario an' the rest o' the country that we don't hev to buy everything we eat from them. It made me mad the other day when a hotel man told me he hed to git beef an' bacon an' butter an' eggs from Ontario. Ain't we got no pride at all? Hev we gone to see? Be we quitters? No, sir—we ain't. Wev gonto put our backs into some real work an' show 'em—By Heav!"

THREE ARE HELD ON SERIOUS CHARGE

Woman Complains to Police; One Arrested and Two Give Themselves up.

Harold Winchester and George Winchester, both of Prince Edward street, walked into the police headquarters at 1 o'clock today and gave themselves up to Detective Sgt. Power, there being a warrant out against them for alleged assault on Mrs. Archibald Stratton, of Erin street, on last Sunday evening. Robert Short, also charged with the assault, was arrested by the police last evening and came before Magistrate Henderson in the Police Court this morning. He was not asked to plead. Short is a well-known character with children. The case against the men is expected to come up in the Police Court tomorrow morning.

The first report of the affair was made on Sunday evening to Policeman Coughlan when he was called to the Stratton home and Mrs. Stratton told her story. So serious was her statement that the policeman had Mr. and Mrs. Stratton go to the police station, where her charge was repeated to the detective. The information was sworn out yesterday and Short was arrested yesterday afternoon.

SIMONDS CASE IS IN CIRCUIT COURT

Action Over Cutting of Trees—Suit is For \$500 For Trespass.

Before Mr. Justice Crockett, at an adjourned sitting of the Circuit Court held this morning in the Equity Court rooms, the case of Margaret Bartel vs. J. D. Beye, both parties of the Parish of Simonds, was commenced, and is being continued this afternoon. This is an action in which the plaintiff is suing for \$500 for trespass in connection with the cutting of certain cedar trees and alleged waste made by the defendant while working on this job. The latter denies all the allegations in the claim, and the defence hinges on the construction of a contract for the logs made between the plaintiff and Fred B. Hazen. Several witnesses were examined this morning. J. S. Tait appeared for the plaintiff and E. P. Raymond, for the defendant.

COAL SCHOONERS BRING 3,280 TONS

Vessels in Port After Quick Round Trips to New York.

Some 3,280 tons of anthracite coal have arrived in port, since last night. The schooner, A. F. Davison, Keriton and Linton agents, is on passage from Philadelphia to this port with an expected cargo of 850 tons of hard coal. Captain Boudreau, of the four-masted schooner Harry A. McLennan, Keriton and Linton agents, while not establishing a Saint John-New York round trip schooner record, came very close to it when he piloted his vessel here to New York and return in 31 days. The Harry A. McLennan left here on May 15 with 4,000,000 laths for New York, discharged her cargo, loaded 1,100 tons of coal for the Maritime Mill Works and arrived here early this morning.

The American schooner Emily F. Northam, Captain Ward, Keriton and Linton agents, arrived yesterday from New York, also, making the trip in 31 days. She loaded lumber here and sailed for New York. There she loaded 500 tons of anthracite coal for J. S. Gibbon & Company. After discharging her coal here she will proceed upriver to Georgetown to load piling for New York. The American schooner Frederick J. Lovatt, R. C. Elkin & Co., agents, arrived this morning with 780 tons of hard coal for George Dick and the schooner James E. Newsome, Captain Knight, J. T. Knight & Co., agents, arrived last night from New York with 900 tons.

SPRINKLER SYSTEM PLACED IN ROYAL

Eight Miles of Piping and 1,459 Sprinklers Installed as Protection Against Fire.

For the last two months, eight workmen, an engineer and architect, all employed by the Automatic Sprinkler system of Canada, with head offices in Montreal, have been busily working on the installation of automatic fire protectors, in the form of water sprinklers, in the Royal Hotel. Some 1,459 sprinklers and eight miles of pipe have been installed in this hotel, and, besides decreasing the fire risk to a great extent, this has also been the cause of the Royal's fire insurance premiums being reduced 67 per cent. The entire cost of the whole work amounted to \$20,000. In such an old-established hotel as the Royal, according to T. Kenneth Raymond, guests having rooms on the higher floors, might sometimes feel unsafe, but knowing that the hotel is literally covered with these automatic overhead sprinklers, anxiety as to the outbreak of fire would be much less.

Son of Famous Father Comes Here

Horsemen throughout the province will be interested to learn that "Peter Schlessinger," son of "Peter the Great," a famous Kentucky stallion, arrived in the city this morning on the Eastern Steamship liner S. S. Governor Dingley for Thomas Hayes. The horse is said to be one of the best bred ever sent to Canada. Peter Schlessinger was out of "Maggie Onward," by Onward, by George Wilkes. He is unmarked and is eight years of age.
