The bombardment of the local team's goal by the soldiers was kept going, and although strenuous efforts were made to repulse these attacks another goal was scored just before half time was called.

With the change of ends the play of the local eleven improved, principally through the fast work of Berkeley, Hooker and Cornwall, who made several creditable efforts to score. These attacks were relieved, however, with little apparent difficulty.

Lewis, who played centre forward, put up his usually fast, game. As usual, Victoria's defence was all that could be desired, and the Flora eleven found it a difficult matter to score. Towards the end of the first half, however, they managed to make a goal.

The Sporting Editor:—The letter published in the Fimes of March 9th was to the point, as the people of Victoria seem to always leave everything to the last. Now, if the business men want to see good lacrosse they must help the players by supporting them, as it does not matter what game is being played the men must have encouragement. color and allowed the sailors the advantage

Towards the end of the first half, however, they managed to make a goal.

In the second half both teams put up a faster game. After playing hard for some time the sailors again scored. It looked very much as if the locals were not going to be allowed to make a single point, but just before the whistle blew they managed to secure a goal. No further scoring was done and the game ended as mentioned.

Victoria will have to put up a game considerably faster than Saturday's exhibition if it is expected to stand at the head of the league at the close of the season. Unless the city team play improves wonderfully, their chances for the provincial championship are very poor. What is needed is steady training.
