

Hospitals, Etc.

THE PROVINCIAL AND CITY HOSPITAL, visited daily at 12 M., by the Medical Officers, and the CITY ALMS HOUSE, containing from 200 to 400 inmates, many of whom are in the Hospital Wards, are available to students without fee. The best opportunities are here presented for clinical instruction, midwifery practice, and the study of the treatment of diseases; likewise for the observation of pathological appearances, which will be demonstrated by *post mortem* examinations.

By an addition lately made to the Hospital, the accommodation for patients has been doubled.

THE HALIFAX DISPENSARY compares favourably with similar Institutions elsewhere, being divided into four departments, viz: (1) *Surgical*; (2) *Medical*; (3) *Diseases of Women and Children*; (4) *Diseases of Eye and Ear*. With an out door department under the charge of four visiting physicians. Here the student has the advantage of becoming practically acquainted with the less severe forms of disease, the privilege of seeing patients with the visiting physicians, and opportunities for obstetric and dental practice.

The new and spacious Building lately erected for Dispensary purposes is now fully equipped and in active operation. The number of applications for relief has largely increased, amounting during the past year to over 13,000.

Prizes.

Prizes are given by the Faculty to the student passing the best examination for Degrees in Primary or Final subjects. Prizes not given unless 85 per cent. of the whole number of marks is made.

Special Prizes will be announced at beginning of Session.
