FOR FREE COINAGE.

The Conference of the American Bi-Metallic League at Washington. The Silver Question to be Made the Issue in All State Elections.

WASHINGTON, Aug. 17.—The pelicy to be pursued in advancing tire principles of bimetalism was outlined at today's session of the American Bi-Metallic league conference. Speeches were made by several congressmen and by delegates from various states. The following declaration was adopted: A has passed since chogress was together in extra session repeal the silver purchase and complete the establishment of the single gold standard. After a memorable struggle this deed was accomplished on November 1 last. The declaration recommends that the silver question in all congressional elections where members of state legislatures are to be elected who will elect United States senators be made parameunt, and that all other questions be subordinated to this. This conference urges upon voters everywhere without regard to party affiliations to vote only for free coinage candidates to represent them in congress who will pledge themselves, as heretofore recommended by the league to subor-dinate everything else to this overshadowing issue, and trust no candidate for the fiftyfourth congress who has been unfaithful in

The conference further recommends that the mining and agricultural states combine to make the eliver question the supreme issue in all elections, agree to stand together and to send no representatives to the house or to the senate who cannot be relied upon to suberdinate every party consideration to the cause of bi-metalism, to send none but free coinage delegates to the national conventions and to vote for no presidential candidate who would veto a free coinage bill. To this end the confer ence recommends that a convention be held at seme central point in both the mining and agricultural states to perfect such organization as will secure this result and prevent the will of the people from being thwarted, as in 1892, by the manipulation of party machinery. Be not misled by doubtful professions or by delusive phrases in platforms. Accept nothing but the immediate restoration of free and unrestricted coinage, sixteen to one, without asking leave of or waiting on any other

It was decided to appoint a committee of five to arrange for the conventions and provide ways and means to carry out the plan recommended.

RELIEF AT LAST.

The Experience of a Londesboro Young Lady.

A Victim of Severe Pains, Dizziness and Watery Blood-At Times Could Not Go Up a Step-How She Regained Health and Strength.

From the Clinton New Era. Miss Kate Longman is a young lady of bout 22 years of age, who lives with mother in the pretty little village of Lendesgreat sufferer and had recently been restored e health by the timely use of a well-known popular remedy, dispatched a representa-tive to get the particulars of the case. In reply to the reporter's inquiries Miss Longman said that if her experience might be the means of helping some other sufferer, she was quite willing that it should be made public. "For a long time," she said, "I was very peorly. I was weak, and run down, and at times suffered pains in my back that were simply awful. My blood was in a watery condition, and I was subject to spells of weakness to such an extent that I could not step up a door step to save my life. I dectored a great deal for my sickness, but without avail. At last, after having frequently read in the New Era of cures effected by the use of Dr. Williams' Pink Pills, I determined to give them a trial. The result was that my health soon began to return and the pains and weakness left and I was again restored to strength." At this moment Mrs. Longman entered, and being informed who the visitor was and what was his mission, said: "Dr. Williams' Pink Pills are the greatest medicine known. My daughter was so sick that I feared she would die, and she continually grew weaker until she began the use of Pink Pille, and they have cured her, as she has not had s recurrence of the trouble since." Miss Longman is now the picture of health, and declares that Dr. Williams' Pink Pills are entitled to the credit. The New Era knows of many others who have benefitted by this

remarkable remedy.

Dr Williams' Pink Pills are a specific fer all diseases arising from an impover-ished condition of the blood or a shattered cendition of the nervous forces, such as St. Vitus' dance, locomoter ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for the tronbles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to the pale and sallew cheeks. In the case of men they effect a radical cure in all cases

His numerous friends in this city will regret to learn of the sudden death of Capt. Geo. W. Donald, at Sydney, N. S. W., where he has been residing for about three years as manager of the Paramatta River Steamers and Tramway Co. Capt. Donald was well known in this city, and his gental, hearty manners made for him hosts of friends. He was one of the old Grammer school b.y., having gaduated there with henors. After studying to a law office for a while he west to sea and at San Francisc entered the service of the Pacific Mail S. S. Co., passing first in the examination for cadets over eighteen competitors, and was soon premeted to quartermaster. He preferred sailing vessels, however, and soon left that service and sailed in U.S. and Canadian ships with distinction, including bark Kelverdale and others; the last vessel he had was the ship Macedon, owned by Messcs. Wm. Thomson & Co. Instances of his daring are brought to mind by his untimely death. In 1880, while mate of a bark bound to New York, he with two or three sailers went on board the sugar-laden brig Akbar, which had been sighted in distrees with captain dying and some of the orew dead of yellow fever, and brought her The latter incident of the campaign, to her destination in eafety. In 1881 M. Lefan referred to at some length in the Dominton government presented Capt. Denald, then mate of the bark Car-niola, with a gold watch as a reward for his gallantry in paving the lives of Capt. Baker and crew of the derelict barqu H A. Parr, of Yarmoute, at the rik of bie own life during a cyclone at sea off Baldmore. Since settling in Sydney he has shown himself to be as good a business mas as he was a shipmaster by building up the business in which he was angaged. He married a daugh ar of R v. Some Interesting Facts from an Officer of French Cruiser Lyon.

He Was an Eye Witness of the Sink-

ing of Steamer Kow Shing.

It Was Nothing but Wholesale Murder and Japan Should Suffer.

Victoria, B. C., Aug. 19.—A letter just eceived by a friend in this city from M. Gustav Lefan, one of the officers of the French cruiser Lyon, serving for some time past on the China station, contains an interesting account of the story and incidents of the Japanese war, which had but fairly opened when it was dispatched. The Lyon was the only neutral witness of the sinking of the British steamer Kow Shing. M. Lefan referred to at some length in his letter. He says: "I do not think much of the Japanese or Chinese as sea-fighters. It seems a shame to give good ships and modern arms to such a set of cowardly butchers. Take the Kow Shing affair; it was nothing but cold-blooded murder. The Naniwa overhauled the Kow Shing and two smaller crafts, the Naio and Tooman, just outside of the Shopa Island, early in the morning of the 25th. The Kow Shing was flying her British colors, and so was the Tooman. The Japanese gunboat dropped her anchors when she reached signalizing distance, and we did the same. Two boats were lowered from the Naniwa, and her officers spent several hours on the Kow Shing, sending the boats back and forth in the meantime. We were anxiously awaiting developments, but did not exaccount of the defenseless condition of the Kow Shing as owing to her flying the British colors. Of course, we had Chinese troops on board. Finally the boats returned to the Naniwa and the Kow Shing went to the lee of the island and anchored there by order of the Japanese, as we afterwards learned. The next we knew, two hours later, the trading steamer was under steam and the Naniwa was standing out to the open sea, cleared for action. There was not even half or a quarter of a mile between the two; nevertheless, the big cruiser tried some of her heaviest metal on the captive. Then she got her torpedoes working, and in a few minutes the floating wreckage was all that was left of the well known steamer. We lowered our boats, picking up twenty-five men who were swimming. The Japanese were shooting the swimmers in the water with rifles and gatling guns when we came up, but suspended firing and lowered boats, too, though we did not see them pick any one up. They said that the transport was trying to escape. The

was merely shifting anchorage, so as Tooman stod by to rescue the drowning Chinese from the Kow Shing, although she herself was badly crippled. This drew on her the firing from the Naniwa, and a torpedo quickly settled her. The skipper of the Tooman, I think, was an Englishman or an American, so I have been told. Whatever country he belonged to should be proud of him. He faced the music with not a chance in a hundred, stood by the Chinese as long as they floated, and died game. It was nothing but wholesale murder, and if Japan does

In the half mile (open) though the final heat was won by Laidlaw in 1.18 35, the first heat was captured by Cornwall in 1.13 4-5 thus beating the Maritime record which was 1.16 3-8. Frank Hillis took the prize for the best mile which he accomplished while competing in the two mile event which was captured by Oulton. In that race two new Maritime records were made, Hillis' of 2.33 1-5 for the mile, and Oulton's, 5.15 2-5 for the two miles. He (Oulton) won brilliantly with Archibald, of Antigonish, not half a length behind. Cornwall formerly held the two mile record, so that it remains in St. John.

In the half mile for Ramblers, Baily, of Windsor, broke the Maritime record, covering the distance in 1.15 3-5. W. S. Archibald made a new record in the three miles, reducing Hillis' 8.48 3-4 to 8.35 2-5. Oulton in the two mile race in which he broke the record, was offered a nandican of twenty yards which he promptly refused to accept. In addition to winnig the cup are being made for the Catholic picnic for the two mile race he takes a special prize for the best time.
