KUROPATKIN'S ADVANCE HAS BEEN CHECKED.

The present engagement may therefore be regarded as the result of a counter-attack, which an enterprising foe like the Japanese might be expected to make, but without and vance. Gen. Kuropatkin's present superiority in numbers, it is held here, is bound sooner or later to compel the Japanese to fall back upon their strong positions within the triangle formed by Yentai, Liao Yang and Sykwantun. Everything points to that district as being the prospective scene of the decisive struggle of this year's campaign. Strategic reasons of the most weighty character render it imperative for the Russians, as well as for the Japanese to bestow their chief attention upon the country east of the Russians, as well as for the Japanese to bestow their chief attention upon the country east of the Russians, as well as for the Japanese are compelled.

It does not matter much whether Kuropatkin has assumed the offensive upon orders from St. Petersburg or by his own desire; he has taken a tremendous risk, and it is not for me to say whether he was justified or not. Mr. Dougan is a fluent Engineered the Deal for Mr. speaker, and paints a graphic picture of the conditions which prevail in the affected region. Most of the members of the Western Federation and kindred unions had been deported from the State by order of the militia, at the nstance of the mine owners, at whose disposal the governor had placed the militia. The elementary cause of the trouble was the failure of the governor to enforce the eight-hour day law, which had been placed upon the statute books of the State. The mine ownconservative party of the ers had received a decision declaring this law unconstitutional, but subseended as to not conflict with the law of the Tucker men from the nominating a candidate in the Domining in question.
