FORTY-NINE PEOPLE

Are Still-Missing From Windsor Hotel, New York.

No Bodies Were Recovered Yesterday by the Workmen.

A Fire Engine is Still Required to Pour Water on the Ruins.

NEW YORK, March 21.—Three bodies were recovered from the ruins of the Windsor Hotel today. They were badly charred and great difficulty was being experienced in identification. The first body recovered today was that of a woman of small stature. The arms and legs were missing. It was thought that it was the body of Miss Dora Hoffman of Baltimore, a woman of sixty years, who is among the missing. Tonight, however, two of the employees of the Windsor Hotel called at the morgue and claimed to identify the remains as those of Mrs. Margaret Auzé of New York city. The men are William Curran, porter man at the hotel, and James Trainer. Both were positive as to the identification.

There are now five bodies in the morgue, each tagged with a number, which with the ten known dead, brings the list to fifteen. The list of missing is still very large. The injured at the hospital are all recovering.

The unknown bodies are as follows: Body No. 1, recovered Monday; male, legs, arms and head missing.

Body No. 2, recovered Monday; woman, supposed to be young, recognizable, on one hand part of kid glove with pearl button; black cloth button on dress marked "Made W. & K. Co., Seattle," supposed to be an employee of the hotel.

Body No. 3, recovered Tuesday; female, supposed to be about 60, small stature, arms and legs missing, identified as Mrs. M. Auzé of New York.

Body No. 4, recovered Tuesday; fragments of what appears to be a woman's body.

Body No. 5, wholly unrecognizable. The legs are gone, what remains of the arms folded over the breast; body charred and shriveled to about half its natural size. The teeth are in excellent condition, not a tooth missing; none is filled. They are sharp pointed and apparently those of a woman; they are the only possible mark of identification.

The recognition of Mrs. Margaret Auzé made by the two employees of the hotel tonight, seemed to be very positive. Both recognized the beaded dress, part of which remained. Mrs. Auzé had been a guest at the hotel for fifteen years, and Trainer said he always waited on her in the dining room. He identified her by the prominent jaw bones and by the teeth.

Mrs. Auzé and Miss Dora Hoffman of Baltimore were seen, it is said, to go to their rooms on the fifth floor shortly before the fire broke out, and it is thought almost a certainty that both perished.

Although the work of clearing away the debris is progressing as rapidly as possible, it seems doubtful when the shaft of four hundred men was made, that but a small part of the ruins had been removed. An effort was made to pull down the section of the rear wall by means of a wire cable, but the cable broke and the wall is still standing.

by two of the hotel employees as that of Mrs. Margaret Auzé of New York. But this identification has not yet been considered conclusive.

The rain today interfered to some extent with rapid progress of the work, and it was not until the afternoon that the workers succeeded in getting steadily down to the remains of the debris. The fire department still has its lines about the ruins, isolating a considerable section of one of the busiest parts of the city.

A bundle of papers and circulars addressed to W. Schomman, general manager of the Equitable Life Insurance society, was found in the ruins tonight. Besides these were two alarm clocks, a silver hair brush and mirror with the initials "C. L. A." a set of silver toilet articles, an ivory nail brush and fragments of many articles. Most of the articles were found at the Fifth avenue and 46th street corner.

A woman's skirt, a tuxedo coat and a part of a corset were found this evening near the Fifth avenue and 46th street corner of the ruins. There were also found a pair of opera glasses, a pair of gold eye glasses, a salt cellar, a tin box containing a quantity of jewelry and a bundle of letters.
