News Summary.

DOMINION. -James Carmichael, of Spring Hill, N. S., was struck dead by lightning on the doorstep of his home on Thursday evening. He had returned from his day's work, and was talking to his mother when the accident occurred. He was 25 years of age, and highly respected. -The Grand Division, S. of T., of N. B., met in semi-annual session at Richmond last Wednesday evening. Since last session seventeen new divisions have been organized. -The drive from Katabdin is now in the vicinity of the forks of the Penobscot and includes about 18,000,000 feet of logs. One hundred men and six horses are employed on the drive. All last winter's cut, and the whole of the previous season's cut have been successfully brought from the Wissaquoi. Mr. Tracey expects to reach his destination at Greenbush boom, about July 20th. -The vote on the water supply for the town of Kentville resulted in a three-fourth vote in favor of having brought into town. Estimated cost \$25,000. -Captain and Mrs. Bates, nee Miss Annie Swan, of New Annan, the world's two great giants, will shortly visit Nova Scotia for the purpose of recuperating Mrs. Bates' health. They will spend several weeks at Mrs. Bates' parents' residence. -John S. Townsend, of the well-known firm of J. S. Townsend & Co., wholesale fruit brokers, Monument yard, London, in company with Joseph Seaton, of this city, has just returned from a trip through the Annapolis valley, says the Halifax Herald, looking after the interests of the former firm in reference to the apple trade of Kings and Annapolis counties. Mr. Townsend expressed himself as much pleased with the appearance of the farms in the valley. He thinks that there is yet a great future for Nova Scotia in the apple trade. He says that of the hundreds of shipments of apples that he has received from various parts of the world within the past few years, Nova Scotia apples for quality have far exceeded all others. He says that the European demand for first-class fruit is unlimited and that the apple trade of Nova Scotia is a most profitable one. He says that the farmers through the valley need not hesitate to set out more orchards. The reports from the various sections through which he passed would show that the apple crop will be even larger than last year. He pointed to L. S. Eaton, of Kentville, his agent in Nova Scotia. -A furious hail storm raged along the Bellisle on Thursday afternoon, while the thunder and lightning was amusing itself in this section. The hailstones were described in the Globe as something enormous—half the size of a hen's egg and as hard and heavy as glass. So heavy was the storm that the steamer "Bellisle" had to come to a standstill until it had passed over. No one could remain out doors an instant without having their hands or face cut with the sharp sleet. One farmer, named Grey, living at the apron of the Bellisle, was driving home from Hampton with a load of lumber when he was overtaken by the storm. He tried to push along, but finding that impossible, in order to save his life, he says, he had to stop his team and crawl under the lumber until the hail rained had moved along. The crop in the field, as well as man and beast, suffered severely from the hail. While the storm was in progress the atmosphere grew almost as dark as if it were night. -Digby county: Nomination day the 9th inst.; election day the 13th. Candidates: Herbert J. Jones, liberal conservative, and H. M. Robicheau, liberal. -Recently a suit was brought in Boston against the International Steamship Company for the loss of a horse claimed to have been injured in course of transportation from St. John, and the owners swore in court that the horse was worth \$175. The steamship company not only showed that the animal was well cared for while in their charge, but also that the owner had sworn before the American consul at St. John and the Eastport custom house that he cost but \$23 and explained to the appraiser at the time that he was 18 years old and lame also. The decision of the court was in the steamboat company. -Portland, Me., Press. -A young Indian, lying in a helpless state of intoxication close to the rails of the I. C. R. at Hampton, was struck by the incoming train on Sunday morning and received injuries that the physicians say must prove fatal. The skull of the unfortunate fellow was found to be broken. -The growth in popular favor of the North American Life Assurance Company, of which the Hon. Alex. Mackenzie is President, is most phenomenal. A comparison of the volume of its business with that of other Companies at a similar stage of their existence is altogether in favor of the North American. -Ottawa Free Press, Feb. 10 '87. -Mr. C. R. Burgess will launch from his yard at Kingsport on the 7th inst. the largest ship next to the "W. D. Lawrence" ever built in Nova Scotia, says the Windsor Tribune. She is 22 1/2 feet keel, will register 2070 tons. Her other dimensions are 24 feet hold, 45 feet beam. She will rig at Kingsport Pier and be ready for sea in a month. -Mr. C. Spooner, of the Island Press, has decided to move his plant to Sussex, and establish a paper there. We wish him a large measure of success. -A six-year-old son of Robert Nelson, of Portland, N. B., drank water from a stagnant pool on Thursday last, and died on Saturday in most intense pain. -Dr. John Bennett, formerly Chief Superintendent of Education for New Brunswick, is dead. -The sermons of Rev. T. de Witt Talmage deal with every phase of human duty. He struck a chord that should find a response in the breast of every father, when he exclaimed:—"How a man with no surplus of estate can neglect to use his life and then look his children in the face and say his prayers at night, expecting them to be answered, is a wretched thing never been able to fathom. Procrastination is hell's deception. Go to morning mowing and buy a policy!" -In The Dominion Safety Fund Life Association, St. John, N. B. -A lad, named Alexis Harrison, was accidentally drowned while bathing at Macoon station, N. S., on Saturday. -James Bennett of Windsor, N. S., is now filling an order for one thousand barrels of ground plaster which is going to the West Indies via Halifax. HOTEL BRUNSWICK, MONCTON, uses Wood's Great Peppermint Cure.

BRITISH AND FOREIGN. -Canon Hole, of Nottingham, has been asked to accept the bishopric of Nova Scotia. -Smallpox still exists at St. Jago de Cuba, but the number of cases has not increased. -The Chinese Legations at Paris and London are to be reunited. "Hung Syn" will be the new Chinese Minister to Germany, Austria, Russia and Holland. -Five thousand invitations were issued to the city hall at the Guildhall, London, in honor of the Queen's Jubilee. Most of the foreign royal visitors were present. The Crown Princess of Germany was warmly received. -One hundred Moors, bearing firearms, attacked the Spahi patrol at Biskara, killing and wounding several. Many Moors were also killed and wounded. The patrol was driven and stopped the fighting. Thirty of the Moors were arrested. Quiet has been restored. -General Loris Melikoff, the conqueror of Kara, and for a time Russian Minister of the Interior, is reported to be dying in Nice. -All the leading Berlin papers publish articles, apparently inspired, advising the financial world to stop lending money to Russia and follow the example of England and Holland, which unloaded Russian securities. -The period of grace granted Dr. McGlynn, of New York, is about to expire and he has made no sign of submission. It is stated that the Pope will without further delay formally excommunicate the priest. -In the House of Lords last week, Viscount Cross, Secretary of State for India, replying to Lord Roseberry, said that the Viceroy of India telegraphed under date of June 26th that a serious engagement took place on the 13th inst. between the Ghalzais and the Amer's troops, and that the Viceroy's agent at Candahar reported that the Amer's troops gained a decisive victory. -A despatch from Rome says:—"It is stated that the Pope was induced to send a Papal mission to Ireland by the instances on the part of English bishops, clergymen and laymen that the reports of the Irish bishops on the condition of Ireland were exaggerated. Wishing to get the exact truth, the Pope decided to send unbiased agents of his own to make an investigation. Mgr. Perasio and Gualdi, who were chosen to make inquiry, were recalled while on their way to the railway station, but started agents for Dublin. It is believed they will confirm the Irish bishops' reports."

UNITED STATES. -A severe earthquake shock occurred throughout New Hampshire and Vermont, on Thursday. -The Lutheran Synod of the States has warned all members of its Church against joining Anarchist or Socialist bodies. -Two thousand school children took the train on the Indianapolis and Vincennes Railroad to attend a picnic last Friday. The children filled twenty cars. In crossing a bridge over White River the rotten wooden sills of the bridge gave way and the structure sunk two feet with a shock, finally resting on a few wooden supports, which also prevented the little ones from being hurled to destruction in the rocky gorge below. -Six election officials in Baltimore have been sentenced to jail, each for two years, for election frauds. -Chicago is agitated over the circulation of a rumor that the anarchists have been granted a new trial. -If of our wage earners who want the earth would discuss the proper method of getting more wages and saving part of them with their wives says the New York Herald, we might get a real revelation on this subject. Women have good ideas about an anti-poverty society. -The Mercantile Agency of R. G. Dunn & Co. report the failures in the United States for the first half of 1887 to be 4,912, compared with 5,156 for the same period last year, a decline of 244. The liabilities were \$56,138,000, against \$50,434,900 for the first half of 1886. The failures in Canada during the first half year of 1887, were 721, against 699 in 1886; liabilities the first half of 1887, \$10,693,015, against \$5,501,697 for the corresponding period of 1886. -Goltz Pacha, a Prussian colonel serving as instructor in the Turkish army, who witnessed recently at Lubben experiments made with dogs trained for keeping up communications in time of war, said that the introduction of such a service in the mountain districts of Turkey would be most advantageous. He considers the African telegraph especially fitted for this service where wires cannot be used. -How to GAIN FLESH AND STRENGTH.—Use after each meal Scott's Emulsion; it is as palatable as milk. Delicate people improve rapidly upon its use. For Consumption, Throat Affections and Bronchitis it is unequalled. Dr. Thos. Pring, Ala. says: "I first used Scott's Emulsion on a child eight months old; he gained four pounds in a month." Put up in 50c. and \$1 size. -The sale of a Gutenberg Bible for \$13,250 at the dispersion of Lori Crawford's library, in London, was not so notable as the cable reports indicate. Two years ago a similar Gutenberg Bible (which is the first book ever printed with movable types) brought nearly \$20,000 in the same city. There are only four or five of these Bibles in existence in private hands, and Mr. Brayton Ives, of New York, owns one of them. His copy is an inch wider and an inch and a half longer than the \$20,000 one; it is practically uncut, and its margins still show the pin holes left by Gutenberg's press.

People in the North-west know from experience that Putnam's Painless Corn Extractor is the only remedy to be relied upon for the extraction of corns. This is the case everywhere throughout the Dominion. Be sure to get Putnam's surcopcorn cure. At dealers everywhere. MESSRS BROWN BROS. & CO. -Germans, I have been terribly troubled with rheumatic stiffness of the joints of my hands, and for seven years I have not been able to do any needlework or sewing. I spent a great many dollars in trying to find relief but without success, until six months ago I used a bottle of Simoon's Liniment which has set me free. My fingers have regained their suppleness and now, after applying the contents of two bottles, I can sew for hours without fatigue to my hands. Yours truly, Mrs. A. L. ANDERSON.
