

HONS BOMBED AMERICAN STEAMER ALGONQUIN WHICH FORMERLY RAN TO ST. JOHN

Submarine Gave No Warning and After Firing Twenty Shots, Bombs Were Fled on Board—Crew Saved.

London, March 14.—American steamship Algonquin has been torpedoed by a German submarine. The crew was saved.

The Algonquin was torpedoed without warning, according to a report made by the American consul at Plymouth. The consul states that all on board were saved. The vessel was torpedoed at six o'clock on the morning of March 13. The submarine refused assistance, according to the report of the consul at Plymouth. Twenty-seven men have been landed.

"It was just after daylight on Monday when we were attacked," said the captain of the Algonquin, as quoted by the Press Association.

Thirteen Sunk in Week.

London, March 14.—Thirteen British vessels of more than 1,600 tons were sunk during the week ending March 11, says today's official announcement on shipping losses. Four British vessels of less than 1,000 tons and three fishing vessels also were sunk.

There was no warning. The submarine started fire at a range of three miles. When about 20 live shells had been fired at the Algonquin, of which four hit her, forward, the crew decided to take to the boats, and pulled away from the sinking vessel.

"Then the submarine approached and, with only her periscope showing, sailed around the steamer several times. Finding that the crew had abandoned the ship the submarine came to the surface.

"Some of the Germans boarded the Algonquin, and placed bombs and these were exploded, and within a quarter of an hour the ship disappeared.

"I appealed to the submarine commander for a tow towards land, in view of the roughness of the weather, but the German gruffly replied: 'No, I am too busy.'"

Washington, March 14.—Former Ambassador Jas. Gerard arrived here today, and was met at the railway station by the president's secretary, Mr. Tumulty, and other officials. Any plans Mr. Gerard may have had for making a statement were changed when the state department arranged for him to say he could make no detailed statement until he conferred with the department.

Mr. Gerard may not see the president for a day or two, as the president is receiving no visitors until he fully recovers from his cold.

Ran to St. John.

The Algonquin was a vessel of 1,806 tons gross, 245 feet long, and 40 feet of beam. She was a single screw steamer and was built at Glasgow in 1888.

Formerly a Canadian-owned boat under British registry, the Algonquin was transferred to the American flag in last December when she was purchased by the American Star Line. While under Canadian ownership she was engaged in trade between New York and St. John.

Prices in the Cuban market in some lines have decreased and the demand is light.

At present there is very little demand for fish in drums and the price has fallen to \$9.25 per drum for cod and haddock. Importations for the month of March to date 488 drums.

The demand for codfish in cases is fair and the market is unchanged. Prices from \$11.50 to \$14.50 per case. Importations for March to date: From New Orleans, 400 cases; from Boston, 567 cases; from New York, 220 cases.

The demand for herring is light and the price \$1.50 per box for blotters the same.

The price of potatoes has fallen to \$9 per barrel and importations to date 2,058 barrels from Boston.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect to grandmother's time.

THE INDIAN COTTON DEBATE IN LORDS.

London, Mar. 14.—The Indian cotton duties were also the subject of debate in the House of Lords. Baron Selington, under-secretary of India, moved the acceptance of the government's measure.

Earl Beauchamp moved an amendment to postpone consideration until after the war. The Marquis of Crewe contended that the government had failed to show that the measure was necessary for the conduct of the war.

Earl Curzon, lord president of the council, replying in behalf of the government, argued that it was not a question of free trade or protection, but of mere justice to India.

GRAND CENTRAL HOTEL IN TRURO BURNED

Truro, N. S., March 14.—At four o'clock this morning an alarm was rung in for a fire in the Grand Central hotel, probably one of the oldest buildings in Truro. It had been burning for some time when seen and some patrons of the hotel had a narrow escape from suffocation and death. Three were compelled to jump from the upstairs windows, were badly injured and were taken to the hospital in an ambulance. One lost \$250. The building was badly gutted, the upper part practically destroyed. So far as can be learned there was no insurance on the property.

ASQUITH WILL REPLY TO DARDANELLES CHARGES

London, March 14.—Former Premier Asquith will have an opportunity to reply in the House next week to the report of the Dardanelles commission, which levelled criticism at the manner in which the expedition was conducted by the Asquith government.

Andrew Bonar Law, chancellor of the exchequer, promised today to move adjournment of the House on Monday or Tuesday, at which time Mr. Asquith will be able to make his statement. It is reported Mr. Asquith's reply will consist largely of a defence of the late Lord Kitchener.

Battalion's Glorious Success helped by Bovril

DAY by day proof after proof appears to show how Bovril "gives strength to win." A Rifleman of the—Inf. Brigade, after speaking of the valuable quality of Bovril, "which has once again proved its worth," writes as follows:—

"In the recent strenuous fighting of September 15th, I remember the case of my battalion. After spending two wet and miserable nights in the firing line, we were ordered to attack at break of day. We were feeling very cold, but cheerful and confident, because we were told that the Tanks were to accompany us. To add to our satisfaction we were given a good issue of Bovril, which I know enabled the chaps to withstand the many hardships, for rations failed to turn up that day, and the chaps would have felt very hungry. As it was, the issue of Bovril made my chums feel very confident, the result being that they attained a glorious success. This issue of Bovril no doubt saved the lives of many of the wounded, as some had to lay hours before they could be removed."

Not only on the Battlefield, but in the Munition Shops, in the Factory, in the Home, Bovril "gives strength to win."

Send Bovril to your friends—they deserve the best. Take Bovril yourself. Take it to defend you against winter ills, and to give you that added vigour and energy which mean so much just now.

Bovril gives Strength to win

University of Toronto, PRESIDENT'S OFFICE.

The Serbians are doing magnificently, but they are yet only on the borders of their homes and in great need. We in Canada know how terribly but heroically they have suffered, and having heard England's appeal for assistance, for them we will I am sure do the utmost to help this sorely stricken nation.

"Buy and Boost" Home Products

This is the beginning of the "Home Products" Campaign, which we are featuring for the purpose of acquainting our citizens with the broad range of articles manufactured by local industrial establishments, and to show how a greater preference for local brands will mean greater prosperity for our city, our industries, our merchants and all of us, who are proud to call this city "Home."

Does our city know itself? Do the thousands of people residing within its boundaries appreciate the many advantages it has to offer, and are these same citizens doing their share in making this a bigger, better, happier, more prosperous city?

The purpose of this "Home Products" Campaign is three-fold.

First—To familiarize our home people with the goods manufactured by our home factories and to promote a more general preference for local brands.

Second—To impress firmly on the mind of every citizen the good to be derived from patronage of "home industries."

Third—To bring into closer relationship the manufacturers and consumers on the very practical and demonstrated theory—that the more home-made goods that are bought here the more prosperous this section will become.

If our citizens can be made acquainted with the articles produced here at home there will be a larger sale of these articles and the output of our manufacturing establishments can be greatly increased. Increased business for our home industries will mean greater employment for our citizens, greater commerce for our city and greater prosperity for our people as a whole.

We know that you, Mr. Citizen, will do your part by enlisting in this campaign—making it a rule to buy and boost home products at every opportunity and getting your friends and neighbors to do likewise.
