SYMPTOMS OF WORMS IN THE GROWN PERSON.—The symptoms of Worms are quite obscure, except an intolerable itching within the anus, which generally indicates Pinworms. In children, Worms are indicated by paleness; itching of the nose, grinding of the teeth and starting in sleep, irregular appetite, bad breath, swelled upper lip, picking of the nose, hard swelled stomach, and one cheek constantly flushed. The combination of ingredients used in making **FREEMAN'S WORM POWDERS** is such as to give the best possible effect with safety.
