

to be about again very
much as usual in a few
days.

My wife and I hope to
see Lady Tupper and your-
self here soon and we trust
you will give us Ray's name
if having you stay with us
while you are in Montreal
but my wife will herself write
to Lady Tupper tomorrow.

Edmund Tupper has
written to me on the subject

5258
of Mr East Atlantic Service
in the sense of his letter to you
marked private. I enclose a copy
of which you kindly send one
and I believe he has also written
to Mr Foster to the same effect.
The course proposed had
already been discussed be-
tween us and with your
powerful influence on
Mr Spots and I consider it
very fortunate you came out.
I have no doubt it can be
successfully carried out.
