Ottawa, April 1st, 1932.

Dear Mr. Caldwell,-

I have your letter of the 30th ultimo. I can assure you your case has given me no little thought and care. It is a hard one indeed to meet. No doubt a credit such as you suggest would be quite effective but how such a credit could be obtained I do not know.

I had distinct and definite word from the Minister that he has no thought of making the purchase and I am sure such a purchase could not be considered under the very difficult financial conditions at the present time.

Yours very truly,

Arthur Meighen.
