

S

- Steinhart, O. J., ferro-alloys, 138.
Strontium, 193.
Sulphur in blast-furnace pig-iron, 132.
 electric-furnace pig-iron, 110, 111, 128, 132.
 electric-furnace steel, 88, 99, 132, 135.
Sweden, electric zinc-smelting in, 160.
 electric steel-making, 12, 36, 93, 94, 101.
Syracuse, Heroult steel-furnace in, 90.

T

- Temperature, aluminium furnace, 7.
 definition, 37, 38.
 high of electric furnaces, 2, 3, 7, 15, 24, 33, 55, 143, 144,
 147, 150, 152, 153, 155, 156, 171, 186, 191.
 measurements of, 82-83.
 of arc, 2, 53, 56.
 of electric furnaces, 12, 48, 49, 56, 77, 82-83, 187, 191-
 193, (see also temperatures, high, etc.).
 of melting metals, 40.
 of melting platinum, 2, 21, 50.
 of melting quartz, 2, 50, 55, 56.
 of melting refractory materials, 49-56.
Thermit, 141, 172, 186.
Thermo-electric pyrometry, 82-83.
Thompson, S. P., "Electricity and Magnetism," 1.
Thomson, 3.
Thomson, electric welding, 26.
Tides, electric power from, 194.
Tilting furnaces, 87-88, 96-98, (see also Colby, Heroult, Wellman)
Tin, 40.
Titanium, 12, 132, 136-141.
Tone, F. J., electric furnaces, 25, 171.
Tool-steel, 40, 47, 89, 91, 107.
Transformer, electric, 18, 67, 93, 94, 97, 101, 102, 103, 105, 108, 117,
 119.
Trollhattan, electric zinc-smelting at, 160.
Tube-furnaces, 3, 21-23, (see also Despretz, Harker, Hutton, Potter,
 Tucker).
Tucker, S. A., electric tube furnace, 23.
 high temperature measurements, 55, 56, 83, 153.
Tungsten, 136-141.
Turin, Stassano furnace at, 140.
Turnbull-Heroult, electric ore-smelting furnace, 117-121.

U

- United States, output of aluminium in, 7.
 production of electric steel in, 36, 97, 98.
 production of graphite in, 143.
Uses of electric furnace, 86, 136-188, 191-194.

V

- Vacuum electric furnace, 83, 193.
Vanadium, 138, 140, 141.
Vancouver, electric zinc smelting at, 170.
