

development of the country. A central office has been established at Kamloops for looking after the organization and protection of these forest reserves, and several trails have been opened up and other work undertaken for the better protection of the reserves.

One of the most interesting features of the reserves is the beautiful little lakes found in them. One of these, generally known as Trout lake, in the Long Lake Forest reserve near Kamloops, has become quite a summer resort and is celebrated for its fishing. People from all parts of the world come there for that purpose. A portion of the shore of this lake has recently been surveyed and is being handled by the Forestry Branch as a summer resort. The area proposed to be added is 1,670.51 square miles.
