

(b) <i>Exposure, Suture, and Ligature of Individual Veins</i>		161	
82. Exposure of the Superior Vena Cava	161	84. Ligature and Suture of the Innominate Veins	164
83. Ligature and Suture of the Inferior Vena Cava	162		
<i>Tributaries of the Innominate Veins</i>		165	
85. Ligature of the Thyroidea Ima Vein	165	86. Ligature of the Common Jugular Vein	166
<i>Tributaries of the Common Jugular Vein</i>		166	
87. Ligature of the Superior Longitudinal Sinus	166	93. Ligature of the Internal Jugular Vein	167
88. Ligature of the Lateral Sinus	166	94. Ligature of the External Jugular Vein	167
89. Ligature of the Occipital Sinus	167	95. Ligature of the Anterior Jugular Vein	168
90. Ligature of the Spheno-parietal Sinus	167	96. Ligature of the Subclavian Vein	168
91. Ligature of the Diploic Veins	167	97. Ligature of the Axillary Vein	168
92. Ligature of the Superior and Inferior Ophthalmic Veins	167	98. Ligature of the Veins of the Arm	168
<i>Tributaries of the Inferior Vena Cava</i>		168	
99. Ligature and Suture of the Common Iliac Vein	168	103. Ligature of the Long Saphenous Vein	169
100. Ligature of the Internal Iliac Vein	168	104. Ligature of the Short Saphenous Vein	170
101. Ligature of the Common Femoral Vein	168	105. Ligature in the Portal Area	170
102. Ligature of the Tributaries of the Femoral and Internal Iliac Veins	169	106. Ligature of the Superior Mesenteric Vein	170

SECTION III

Surgery of the Nervous System

INTRODUCTION	171
A. METHODS OF EXPLORATION, AND RELIEF OF CEREBRAL TENSION	172
1. Puncture of the Skull and Brain	172
(a) General Remarks	172
(b) Special Indications for and Technique of Puncture of the Brain	173
2. Trephining for Exploration and Decompression	175
B. OSTEOPLASTIC TREPHINING	182
3. Osteoplastic Resection of Skull	182
4. Circular Craniotomy	184
5. Craniotomy for the covering in of Osseous Defects in the Skull	185
C. SPECIAL INDICATIONS FOR TREPHINING	186
6. Trephining over the Sinuses of the Dura Mater	186
(a) Trephining over the Superior Longitudinal Sinus	186
(b) Trephining over the Occipital Sinus	187
(c) Trephining over the Lateral Sinus	188
7. Trephining for Intracranial Hemorrhage	189
(a) Arrest of Hemorrhage during Trephining	176
(b) Partial Circumscribed Craniectomy	178
(c) Extensive Resection of the Skull	179
8. Trephining for Intracerebral and Subdural Hemorrhage	189
9. Trephining for Supradural Hemorrhage	191
8. Trephining for Abscess of the Brain	193
9. Trephining for Cerebral Tumours	194
(a) For Cerebral Tumour	194
(b) For Cerebellar Tumour	195
