New York, November 19.—The Metropolitan Life Insurance Company, operating under a special char-ter with capital stock of \$2,500,900 divided into 80. one shares of \$25 par value, has decided to give its policyholders the opportunity to authorize the mutualization of the company. Stockholders representing more than 90 per cent. of holdings have already agreed to the mutualization of the company. agreed to the mutualization scheme. The stock is restricted to a 7 per cent dividend and the owners of the stock have agreed to accept \$75 a share in conation of the plan which will call for the return to the stockholders of the \$2,000,000 share capital from the assets of the company and \$4,000,000 from its surplus. The total surplus at the end of September, 1914, was estimated at over \$40,000,000. The plan has been unanimously approved by the

directors. It has been approved informally by the large majority of the stockholders and will be subnitted to a meeting of the stockholders December 4th. All policyholders insured for \$1,000 or more will have a vote in the final decision as to the change from a stock corporation to a mutual company. PUBLIC HOSPITALS IN BAO FINANCIAL WAY

Montreal General Hosiptal le Forced to Ask for

presentatives of three principal hospitals of the city waited on the Board of Control last night at the City Hall to lay before the city authorities a request

that the derict the nospitals will have to face at the close of the current year, amounting to about \$85,000, should be paid by the corporation of Montreal.

Mayor Martin and the controllers promised careful consideration of the proposed grant of money, though at the same time His Worship pointed out the city was also suffering from the financial crisis, and he thought the wealthy residents of Montreal should really make up the deficit the hospitals had to suffer

for the current year.

The memorial submitted to the board on behalf or the General Hospital. Notre Dame and Western de-clared the said institutions were obliged to ask for aid as since their establishment, covering a period varying from 35 to 93 years, they had never been in a more critical position. And: "We would further point out that while hospitals were at first thought of as purely charitable institutions, they are now considered not only as charitable, but as a necessary part of the economic construction of modern society both from a humane and scientific point of view and, therefore, should the voluntarily supported hosiptals ing the flanges and relaying the pipe, which pracbe closed to-day, it would be absolutely necessary for the city to at once establish and support at its own fore, was limited to the 40-inch pipe.
