THE ALPHA Gas Engine is equally efficient in delivering the most power with the lowest fuel consumption, whether gasoline, kerosene or natural gas is used for fuel.

The ALPHA is also efficient because of its conservative power rating—each size has a generous reserve power above its rating, which permits of occasional overloads.

The De Laval Company is very efficient in rendering prompt service—well worth the consideration of any buyer of a gas engine.

If you don't know who handles the ALPHA in your vicinity, write nearest sales headquarters for his name.
