

Full Circle Steel Hay Press.

OUR Press has an extremely large feed opening, rendering feeding easy and ensuring rapid work. It is a full circle machine; that is, the horses walk round in a full circle continuously, fatiguing the horses much less than the half circle machines. Write for catalogue and prices.

GOSSIP.

In writing to advertisers, please mention the Farmer's Advocate.

Mr. F. M. Wade, son of Mr. Hy. Wade, Registrar of Live Stock, Toronto, and Assistant Secretary of the American Shorthorn Breeders' Association, has been revisiting his Canadian home.

Mackie Bros., Eburne, B. C.:—"We have bought the celebrated Ayrshire bull, 'Sir Laughlin,' from Jas. McCormick & Son, Rockton, Ont. After being on the car for sixteen days he weighed 1,645 lbs."

The English Shorthorn Society has now a membership of nearly 1,200; £5,442 11s. 5d. invested and £1,336 11s. 7d. of working capital to go on with. During 1895, 439 export certificates were issued, the largest number since 1890.

Mr. Geo. T. Davies, eldest son of Mr. Robt. Davies, Thorncliffe Farm, Toronto, and his brother Robert are now on a visit in Scotland, and have spent some time at Andrew Montgomerie's great breeding establishment at Castle Douglas; also visiting other points of interest, getting an insight into advanced Old Country methods of stock-raising and agriculture. The former remains there for some time, but Robert returns in about a month's time.

Dr. Peter Collier, late Director of the New York State Agricultural Experiment Station, died at Ann Arbor, Mich., June 28. A native of Chittenango, N. Y., and graduate of Yale, where he became assistant in the chemical laboratory, he was called to the Professorship of Agriculture in the University of Vermont, and was first Secretary of the State Board of Agriculture. In 1878 he was appointed Chemist of the Department of Agriculture, and made a study of sorghum as a sugar supply in 1884, printing a volume on the subject. In October, 1887, he was elected Director of the Geneva Station, which position he held until October, 1895, being a most painstaking investigator.

For the six months ended June 30th, Great Britain exported 13,209 horses, against 9,263 in the same period last year, the value being £316,038, against £254,175. Of the number exported, 3,162 went to Holland, at a cost of £37,140; 6,689 to Belgium, at a cost of £105,492; 1,756 to France, at a cost of £36,651; and 1,572 to other countries, at a cost of £76,755. During the same period 21,864 horses were imported, against 14,815 last year, the value being £566,296, against £439,274. Of these, 12,336 came from the United States, against 7,111; 4,288 from Canada, against 2,988; and 5,250 from other countries, against 14,815.

W. C. Edwards & Co., Rockland, Ont. (per Jos. W. Barnett, manager):—"Our Shorthorns are looking well and attending to business, despite the price of beef. Our calves this year are the best we ever had. The Knight of St. John is leaving his impress wherever he has been. We have some grand bull calves from him and some of our best cows Bessie of Rockland, 'our medal cow last year,' has one that will take some beating. Enquiries for calves are coming, and we are satisfied that we can please the most particular this time, if never before. Our Shrop. shearing rams are a good lot, in nice condition for business, and will be a bargain for some one."

Capt. A. W. Young, Tupperville, Ont., writes under date of July 9th:—"I am all sold out of fall stock except two choice fall boars, and spring pigs, which are looking fine this season. Crops are looking fine, except wheat, which is generally more or less shrunken. Our honey is promising, both in quality and quantity, are simply immense. Among my latest sales are to the following, and are due principally to the ADVOCATE: Peter Marr, Port Rowan, Ont., a boar (yearling); McD. Sturgeon, Deerhurst, Ont., a young sow; Agricultural College, Guelph, six pigs, from Canada Wilkes, for feeding experiments."

Alex. Hume & Co., Burnbrae, Ont.:—"A prolonged drought has struck us, consequently there is no pasture. We got in a car of Manitoba bran two weeks ago, and have just ordered another amongst a few of us in this section to tide us over. Our show herd is coming along nicely, the young stock, and especially the bull calves, not too fat, but good skins and coats, about right for dairy stock. Our pigs are the best we ever offered, particularly the March sows—such lengthy, smooth ones. We mean what our ad. says, and guarantee stock as described. It will pay any one wanting these lines of stock to write us before buying elsewhere."
