THE NEW CENTURY ALPHA

BABY Cream Separators

Have never been beaten!

AN EVERYDAY STAND-BY.

SEE HOW IT TURNS UP.

SHELburne, June 18, 1900.

The Canadian Dairy Supply Co., Montreal:

GENTLEMEN,—I have bought a No. 2 Alpha Separator from your agent, Mr Hugh Taylor, of Shelburne, Ont. It is now working four months, and I am pleased to give you this testimonial.

Last March I got a DeLaval on trial, which was satisfactory. Just then the Melotte agents from Dundalk got me to try a No. 1 Melotte separator; saying it would "beat the DeLaval, as it had done often before." But it came far from giving the results which they claimed for it. My barn is about 8 rods from the house, and the weather being very cold at the time, I found the Melotte separator would clog at times as the milk was a little chilled.

The agents then brought a No. 2 Melotte, which gave the same results. I found that the discs in the Melotte separator would start and clog, commencing at the bottom and continuing upwards the longer you skimmed. As a result of the trial, I bought a DeLaval, and would advise my fellow farmers to try a DeLaval Separator before buying any other, as it is a machine that is well constructed, and will skim milk at any temperature and not clog.

Yours truly, SILAS MYERS.

CANADIAN DAIRY SUPPLY CO.,

327 Commissioners Street, MONTREAL.

Strong, durable, cheap. The only "Hinge" Stay. Write for circular and prices.
