I clear \$50.00 a day above expenses right along. THOS. KELLY.

The Greatest Line in the World

### Armstrong Well Drilling Machinery

We've been building high-grade drilling outfits for nearly half a century. We've learned how to combine simplicity and durability. And we offer equipment that is guaranteed to drill faster and at a lower cost per foot than any other machinery in existence—machinery that is easiest to operate—that runs quietly—that never breaks down—that is always on the job. Our patented Internal Compensating Hand Wheel Clutch—a feature that saves all lost motion—is one of the greatest money and work-saving improvements ever found on a drilling machine. Besides saving energy and power, it gives absolute control over drilling motion. This and our

Friction Hoist, another great trouble and work-saver, give operator an easy right-hand control of entire machine, including raising and lowering the derrick by power. Many other equally striking advantages. We make all kinds of machines, at all prices and for all formations; with power and without.

Write Today For our wonderful 12-page book Tells all about Armstrong Machinery—how it is "making good" for well drillers everywhere—how a reasonable investment will set you up in this big paying business. Be for postage bring big book by return mail. Write today.

## Ask these Men if they ever saw better Barns

FARMERS can now buy better barns than they ever saw before—Steel Truss barns of iron and steel. They can put them up in days with a few helpers, where if used to take weeks and months—and a big gang. They can get rid of the old clumsy wooden frame that filled the inside space with beams and timbers. They can forget half their worries, because Steel Truss Barns are fire-proof, lightning-proof, and weather-proof.

This puts barn building on a modern basis. And we leave it to the men who have built on this plan, to say how it carries out all our claims.

But here is the best part of this big new idea. The Steel Truss barn—the barn you would gladly pay a big price to own—costs less than perishable wood.

These Steel Trusses of Double-Angle Steel make the most rigid barn construction known to man.

## Steel Truss Barns

(Patented in Canada and the United States)

These barns are built complete in our factories. We send you a whole barn. There is nothing for you to provide, because we ship everything complete—Steel Trusses, corrugated iron covering, and all the lumber, and there's not a piece of wood in the whole job that one man cannot handle. The Steel Trusses come ready to put in place. Doors are fitted with all the hardware, and are ready to hang. Bird proof track is supplied. Windows are of metal and wired glass, and are built into the sheets of corrugated iron. They are as easy to put in place as any other sheet of iron.

The Steel Truss Barns have large, circular ventilators of galvanized iron—and the best hayfork outfit money can buy. Cornices, ridge and eaves, roof and sides are all the best grade of galvanized iron.

To land a barn on your farm in such shape as this is going to save you many a dollar in labor, and an endless amount of time and trouble. And, remember, no wood shows anywhere on this barn. Once a Steel Truss Barn is built, there is no cost for repairs—no paint bills, no rotting sills or shingles. Figure that saving when you think about your new barn.

Eight factories are ready to send you one of these barns any size you want—and the very day your order reaches us. We know that men will want to know a lot about this great new barn idea, and we are ready to answer questions and send out full information explaining the whole thing clearly. Do not hesitate to write us about it. Tear out the coupon and mail it to day.
