On Tuesday morning of last week there was another break in Fordwich dam. It is supposed that a musk rat undermined the sement work and the water washed out a large hole so that the pond was almost dry in the morning. The break has been repaired.

An Indian lost his railroad ticket at the union depot in Kansas City not long ago. He told Lee Mitchell, the station master, that his ticket had been stolen, and that two of his companions, also Indians, were missing. "Go through your pockets," suggested Mitchell, "perhaps you have overlooked it." The Indian searched but all he could find was a half pint bottle of whiskey. He had no money. "I guess your Indian friends stole your ticket," said Mitchell. "Huh! White man got it," replied the Indian, "Indian steal whiskey first."

"Josiah," said Mrs. Chugwater, wiping her spectacles, "baseball must be an awful cruel game. This paper says a man named Smith was pounded all over the lot. And I guess it must have been true, for it says that in the next inning he died on second base.

Easy to Retain Health—Most important of all is proper attention to the bowels. Avoid constipation, it's the health-killer of ro-day. Harsh, gripping medicine is ruinous—beware of it. Best results follow a truly vegetable remedy Dr. Hamilton's Pills of Mandrake and Butternut, which not only relieve costiveness in one night but cures the cause of the trouble and prevents its return. No distress or inconvenience attends the use of Dr. Hamilton's Pills which are world famous for their mildness and efficiency. Sold everywhere, 25c per box.

The officers of the several regiments which drilled at London are petitioning the government to move the camp from London to Goderich. Goderich has offered a site of 600 acres free of charge. Friction has arisen over certain strictures made by the temperance people of London on the presence of the canteen. The officers contend that practically nothing is sold on the grounds but beer and that does the men no harm. They contend too, that under the eyes of the officers the men will hold themselves in check, but if they are compelled to go into the city for refreshments, they are more liable to get drunk. It is pretty difficult to say which of the parties in dispute has the best of the argument.

The Northern Spy is an apple that is self sterile. That is, the flowers will not fertilize themselves, and have to have other trees nearby for the purpose of fruit-setting. A gentleman from Hespeler put out several acres of Spys years ago and failed to get fruit at 20 years. A friend advised grafting a few trees of another variety to blossom about the same time. This was done and the orchard immediately became remunerative. This fact is worth knowing to the orchardist.

Galt, July 16.—The police of the county have been on a hunt for a week past for Lily Cooper, aged seventeen, a girl of the town who has no home or parents and has eked out a precarious existence for some years as a factory worker and domestic. The girl has a mania for playing practical jokes, such as issuing fake orders to livery stables and restaurants. Wednesday, Lily hired a horse and rig from Lawrason's livery, Preston, and neglected to return it. She was traced to Hamilton, Brantford, Guelph, and small villages in this district, but was always too quick for the police. The county force have been tracking her for days. Preston, Hespeler, and Galt police have helped in the pursuit. It was not until Sunday night that two men at Puslinch Lake, Josh Wayper and Frank Bernhardt, captured the girl horse-thief and held her till the Pres on police secured her yesterday. She was in a demoralized state, and the rig in worse condition. To-day the complainant withdrew the charge of horse stealing and the prisoner was discharged with a warning to behave herself in future.

Buffalo burglars tortured a coachman almost to death because he refused to give them the key to his master's house.

The bridge on the 2nd concession of Brant near the marl beds sank four feet on Saturday last and as a result the road has been closed. It would appear that the bridge sank as a result of the water being lowered by workmen of the National Cement Co. at Durham who are engaged draining the lakes. Reeve Froom says that it is altogether likely that the Durham people will have to bear the loss, which will be quite an item.

The Clinton New Era of last week saes: "The rinks of Clinton bowlers and their wives went to Listowel on invitation to play a friendly game on Friday. They had just got nicely started when a fire broke out in the town, and interfered with the game. Later on a rainstorm came on which indicated that the flood gates of heaven were open. Some of them returned home by the late train, which ran off the track at Scaforth, owing to an open switch, and it was nearly daylight before they reached Clinton, and got beaten into the bargain.

We have to report a most distressing occurrence from Bruce Tp. On Wednesday last Mr. Geo. Patterson, of the 5th con., committed suicide by taking a solution containing carbolic acid. The deceased had been worrying a great deal ever since he sold his farm a few months ago. Although the proceeds of his sale left him in fairly comfortable circumstances, he could not seem to feel contented. He was a very quiet, hard working man, and well respected. The widow and family have the deepest sympathy of all in their sad bereavement.—Paisley Advocate.

Mark Twain says that all are lazy; some are able to fight it down while others fail. He knew a non-combatant of this class when a boy in Hannibal. His name was Jim Black, and one summer morning he was lying under a tree beside the river, listening to the birds and watching the steamboats glide up and down the great stream. "Well, what are you here for?" Mark asked him. "I'm here," said Jim, "for to pile them bales onto the wharf." "Oh, and now you are resting, are you?" "No," said Jim, "I ain't resting, because I ain't tired. I'm just waiting for the sun to sink down behind that there hill, so's I can knock off work."

An amusing but true story is being told regarding two young fellows recent from the Old Country. A farmer who lives between Paris and Burford, drove to Brantford and left two newly-arrived Englishmen in charge of the farm. Last fall at threshing the separator blew the chaff on the barn roof, where it remained, and the farmer ordered his help to clear the chaff off the roof in his absence. When he returned he found to his amazement that the Englishmen had taken every shingle off the roof, which would cost him about \$75 to replace.
