THE FORGOTTEN DEAD.

There Are Few English Tombston

Some years ago there was a corre-pondence in the papers, the main ar-ument being that there were very few other skin troubles.

Leo Corrigan, 475 Ferguson Ave., N. Hamilton, had Eczema since childhood. He consulted specialists—lay weeks and weeks in hospitals—and despaired of ever getting better.

"I thought Mira would be like other remains I had treat," he writes, "but, to my delight, a free hours after the first application I fell great relief It has worked wonders for me."

Doubtless there are many tombstones of a far greater age, but most of these are now undecipherable from the perishing material used or have sunk deep into the earth, in which case there can be small doubt as to the inscriptions having be-

come obliterated.

The oldest record I have come across was at Godshill churchyard, near Ventnor, where the visitor can see legibly inscribed, "Annie Garde, 1592," but probably some of your readers may know of tombstones bearing an earlier date. The most surprising number of old tombstones clustered together are possibly those grouped at Bonchurch, Isle of Wight, these ranging from 1616 to 1702. In all there are seven, having inscribed, "Annie Garde, 1592," these dates: 1616, 1619, 1620, 1627, 1646, 1687, 1702.

So far—that is, during a three years' search—I have found tombstones of the seventeenth century at Godshill, Bonchurch, Brading and St. Lawrence (Ventnor), in the Isle of Wight; at Wuteringbury, in Kent, where there are several in excellent order; at Tonbridge Bristol, Ipswich, Harwich, Southwold, Colwyn Bay (old parish churchyard), and at Millbrook, near Southampton.

I might note that in all I have so far found only thirty-five tombstones over 200 years of age.—London Standard.

"THE ARABIAN NIGHTS."

Sir Richard Burton's Translation of

the Tales.
"The Arabian Nights" was first introduced to Europe by a Frenchman named Galland, and the first English versions were simply translations of his. Then a Dr. Scott gave a very superior edition, "occasionally corrected from the Arabic." In 1839, however, appeared an English translation entirely from the Arabic, with copious notes and illustrations. It was Edward William Lane's, a gerst' man whose long residence in Egypt had fully qualified him for his work. This translation may be said to have held the field until the appearance of one by Sir Rich ard Burton. Sir Richard was a daring and successful traveler, who had a re-markable facility in acquiring eastern languages. He performed a pilgrim-age to Mecca disguised as a pilgrim, a feat as difficult as it was daring. In 1872 he was appointed to the post of British consul at Triest. Here he applied his knowledge of Arabic to making a faithful translation of "The Arabiau Nigo's Entertainments," supplementing his work with copious notes and terminal essays which have been called a mine of curious and diverting information. Its publication caused a great sensation. Details were freely great sensation. Details were freely given that had previously been suppressed. But the accuracy of the translation as a whole was candidly acknowledged, and Burton may be credited with having made into the English language the finest translation of these wonderful Arabian tales.—London Augusts. don Answers.

Saved by a Cipher.

The story is told of how a neatly constructed cipher saved Sir John Trevanion's life. This cavalier was taken prisoner and locked up in Colchester castle to await his execution. On the second day of his confinement the jailer brought him a letter, which, as far as the warder of the castle could discover, was merely a note of condolence from a friend. But the letter had been concocted on a cipher to which Sir John had a clew. Every third letter after s punctuation mark of any kind was to tell. What he made out was this:
"Panel at east end of chapel slides." On the following evening the prisoner begged permission to pass a quiet hour in prayer in the chapel. The request was granted, and before the hour had passed the panel had done its work and the bird had flown.

Canaries and other tame birds are sometimes taught to perform tricks, but it always has been regarded almos an impossibility to train a wild bird.
Andrew Hume, the famous Scotch bird lover, trained one of the wildest of Scotch birds to perform all sorts of remarkable tricks—to jump and keep time with the skipping rope, to per-form on the slack and tight rope, climb an upright rope, stand on top of a running carriage, draw cards out of a box, mount a ladder and ring a bell, go round a wheeling stair step by step and fly to its owner's head when

"I suppose your late uncle didn't fail to remember you in his will," said the sympathetic friend.
"You can hardly call it a remem-brance," replied the poor relation. "It was more like a faint recollection!"

"How long," asked the judge of a vagrant negro, "have you been without any means of support?"
"Since my wife died in 1903, sub," responded the darky respectfully.

WIFELY SYMPATHY.

There Are Times When It is Bad For a Husband. Ointment quickly cures Itching Piles, Eczems, and other skin troubles.

Suppose after a woman is married she finds that her husband is one of the kind who are easily discouraged and who are quick to give up in the face of difficulties. How can she help him and arouse him from his feelings of despair and lethargy?

The problem is a difficult one, but by

no means impossible of solution. A wife, however, must act warlly and tactfully if she is to bring about the desired result. In the first place, of course, it is absolutely essential that she should hide her real feelings concerning her husband if these tend toward the slightest contempt.

Secondly, she must take care not te sympathize with his weakness. Easily discouraged men have a craving for sympathy which is very intense. of paim branches, and the girls are imprisoned in them when they are two or three years old. The children are said to grow up strong and healthy in spite of their

Hope, praise, encouragement—these are the levers with which a wife may spur her weak husband up the ladder of success, but sympathy will pull him down. Of course it is a difficult undertaking to alter a man's character and instill into him qualities that he does not possess by nature, but a wife's fortune is bound up in her hus-bang's. What he is socially and financially she is, and if she sits down quietly and accepts failure she is as weak and as cowardly as he is.

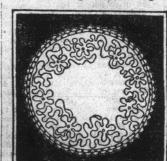

Spanking does not cure enildren of bed-weiting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if you children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures in the child; the child is the child in the child is the child in the A wife who wishes to encourage her husband should make him believe that she thinks him one of the cleverest of men. Not for one moment should she allow him to see that she does not consider he is the very essence of courage, determination and perseverance.

PRETTY TABLE COVER.

For Use In the Parlor, Sitting Room or Library.

The illustration shows a pretty table cover that can be carried out in almost any material, the model, however, being designed for use in a drawing room, library or living room, shape was a large circle, the edge of

which was scalloped and buttonholed in heavy embroidery silk. The irregu-

lar design and the band inside the scallops were outlined in narrow gold cord and green silk cord, which was couched on, the work being very quickly done. The cover used as a model was of heavy mercerized linen of a soft green tone, but various other color combin tions would be equally effective, and If desired, a single cord could be used to follow the design. In a smaller size the pattern could also be used for white linen counterpanes, white cot-ton loop braid, which has exactly the effect of hand work, being used as explained.-Exchange.

The Chocolate Cure. In an obscure but picturesque little village of faroff Germany there is a place called the "Ghocolate Cure," where thin people go to become stout. The patients eat and drink cocoa and te all the time while admire the scenery, gossip and grow fatter every day. The true secret of the great success of this treatment is the happy way chocolate has of fattening just the right places, settling in the hands, the arms, the neck and the shoulders, making the fair patient prettier and plumper all the time. The really effective part of this cure may be tried at home by any persevering woman, and the medicine is so very palatable and the method so sim-ple that there is actually, it seems, no Generosity.

Never be sorry for any generous thing that you ever did, even if it was betrayed. Never be sorry that you were magnanimous if the man was mean afterward. Never be sorry that you gave. It was right for you to reason why all of us should not be of just the desired weight; anyway, the suggestion deserves an honest trial, and even if nothing be gained, why, surely nothing can be lost.

Stairway Closets.

The steps were removed bodily and a glass door opened into the dining room from where they had been. The space inside she had paneled, and rows of shelves were built in well up to the ceiling. The lower ones In a Chicago school a class was studying irregular plurals of nouns when it was asked by the teacher to give the plural of "child." Then it was that little Edgar, who knew how it was at home, promptly answered, eled, and rows of shelves were built in well up to the ceiling. The lower ones were used for china and the supper ones for preserves. A small window cut into the side yard admitted light into what was really a small shelf lined room. The whole cost little. Upstairs a capacious linen closet filled in the vacant space. Another woman who did not wish to have the stairs actually taken out had the upper landing converted into a closet, but left the stairs underneath, using them from the first floor as a store closet for brooms, buckets and the like.
