GAME INTERESTS

In another part of this paper there are some observations in regard to the advantages to this province of its hunting and game interests. The Intercolonial Railway management has done a great deal to extend a knowledge of the advantages of New Brunswick in that respect, and, to a considerable extent, there has been a gain for the provincial finances. The general observations are worthy of more than a mere glance from the reader's eye. It will be seen, also, that the Premier of Quebec—Hon. Mr. Gouin—is impressed with the importance of the general subject, and he has authorized a meeting of persons specially interested in matters of hunting and fishing to be held in Montreal next month.

A CARRIAGE FACTORY FOR NEWCASTLE

TO THE EDITOR OF THE ADVOCATE.

I see an advertisement in the St. John Telegraph signed Wood worker. He is a young man who never had to take his coat off to know what work is. It is setting forth in most glowing terms the bright prospect for a carriage shop in Newcastle. Well as I am a few years older than Wood worker, I would like to give him my experience in this town of carriage makers. I would like to take him back some thirty odd years to the days of John Newman, who died in the work and he died young. Since that time I can give you the names of fourteen men who have been in the business here and have either failed or abandoned the business altogether and gone to something more profitable.

MAC ANE.

Newcastle, Nov. 30.

[Newcastle has at present one up-to-date carriage shop and in conversation with the proprietor recently he stated that never in the history of the factory were things so quiet. There is certainly not enough work in this town to keep two shops busy especially during the dull season.—Ed.]

CANADA MUST ADVANCE

London, Dec. 1.—Edward Farrer has a lengthy article in The Fortnightly Review on "The next colonial conference, in which he says:—Imperialists are endeavoring to persuade Canada to return to forms of government she has long outgrown in order, as they conceive, that she may become more useful, not to herself but to the mother country. It would have been a lighter thing, we are told, to make a shadow on the dial go forward ten degrees than make it go back ten, and surely when a change takes place in relations between England and the larger colonies it will not be a retrograde movement, but an advance on their part to complete political independence. Canada will shortly demand the treaty-making power, to be exercised under limitations. By-and-by there will be a demand for the right to elect a Governor-General. We are tired of the "prancing proconsuls" appointed of late. They pay no heed to warning, says Mr. Farrer, in concluding.

DR. MCLEOD

NOT GUILTY

Boston, Dec. 2.—A verdict of not guilty was reported in the superior court today in the case of Dr. Perry D. McLeod, charged with being an accessory after the fact to the illegal operation which resulted in the death of Susan Geary, the victim of the suit case tragedy, and with concealing the crime. The prisoner was discharged. The case was given to the jury at 4.45 p. m. yesterday and a conclusion was reached at 10.15. In accordance with the instructions of Judge Stevens, the verdict was sealed, and was reported when court opened today.

William E. Hunt and Louis W. Crawford who pleaded guilty several days ago to the charge of being accessories after the fact to the illegal operation, were then brought into court, and each was sentenced to not less than six years nor more than seven years in state prison.

Some of the Shedd's smelt fishermen have been reaping a rich harvest since the fishing season opened. Some remarkably big catches are reported. Two men engaged in the industry are reported to have made four hundred dollars in less than a week. Their catches were probably the best made and the fish were sold right on the ground, so that there would be little to deduct in the way of expenses. In one or two cases, it is said, some of the nets were so full of the little fish that they broke while being hauled up and all were lost. Some equally large catches of smelts are reported from other fishing grounds.—Times.

FRENCH BOOKS FOR PROVINCE

Interprovincial Conference at Montreal Decided on Four Readers For The Schools

MONTREAL, N. B., Nov. 28.—An interprovincial conference was held here today to deal with the text books for French in the schools of Nova Scotia and New Brunswick. Those present were Premier Tweedie, Hon. C. H. LaBelle, and Dr. Inch, from New Brunswick; Hon. A. H. Comeau and Dr. McKay, chief superintendent of education, from Nova Scotia. The others in attendance were Rev. P. M. Dagnaud, superior of Ste. Anne College, Capuchin Point, N. S.; Rev. Paul Bourgeois, of St. Joseph's College; Professor Lanou, formerly of Halifax, now of Royal Military College, Kingston, Ont.; Charles Herbert, school inspector, Dufur Corner, N. B.

Premier Tweedie presided at the meeting. Complete arrangements were made for the issuing of four readers, the manuscript to be placed in the hands of the chief superintendent of education on or before July 1 next. Premier Murray was unable to attend on account of pressure of business.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

CHRISTMAS CANADIAN MAGAZINE.

Packed full of good things is the Christmas number of our national periodical, The Canadian Magazine. The illustrations are wonderfully well done, and are over fifty in number. These include full page plates of such famous pictures as Correggio's "Holy Night," Bellini's masterpiece "Madonna of St. Francis," and his "Apostle James," and Sir J. E. Millais' "A Descent." There is also a splendid series of full page plates showing the harbors and ports in Canada—Victoria, Fort William, Sault Ste. Marie, Depot Harbor, Toronto, Montreal, St. John, and Halifax. These pictures indicate Canada's marine possibilities in a most graphic manner. The two leading articles are "Andrea del Sarto," by Herbert M. Vaughan, and "Canada, After Twenty Years," by Sir Gilbert Parker. The stories are excellent and are by Nellie L. McClung, Jean Blewett, Alice Jones and Verna Sheard—all Canadian women. The description of "A Prairie Fire," by Douglas Robertson, is a vivid bit of word painting, and its vividness is increased by the illustrations. The book reviews are especially good this month, and the departments of comment and criticism are thoroughly interesting. The cover is a beautiful piece of work, with the Statue of Liberty as the centre piece in the design.
