A CARD.

THE AGRICULTURAL INSURANCE COMPANY

Of Watertord N. Y., beg leave to announce to the
public of Canada that they have transferred the good
will of their business in this Dominion to

THE CANADA AGRICULTURAL

INSURANCE COMPANY,

OF MONTREAL.

"Re-insuring all its risks in said Company from the
1st day of May, 1874, and that for the security of
its policy holders in Canada, the deposit of $50,000
will remain in the hands of the Canadian Govern-
ment, for the term of three years.

On retiring our business from the Dominion of
Canada, we would avail ourselves of the opportunity
to express our grateful acknowledgments to our
agents, our patrons, and to all who have in any way
favored us with their confidence and support, and
would commend our successors, the Canada Agricul-
tural Company, to the same and will hereby ex-
press the hope that the same and all kindness in
operation on the part of agents, and the same confi-
dence and liberal patronage on the part of the public
may be extended to the new Canada Company.

ISAAC MUNSON.

Secretary.

CANADA

Agricultural Ins. Company.

CAPITAL, $1,000,000.

OFFICE, 245 St. James Street,

MONTREAL.

PRESIDENT:
Col. A. C. DeLOTBINIERE-HARWOOD, D.A.G.
VICE-PRESIDENT:
WILLIAM ANGUS.
MANAGING DIRECTOR AND SECRETARY:
EDWARD E. GOFF.
INSPECTOR:
JAS. B. SMITH.

Western Branch Office,

King Street, COBOURG, Ont,

WM. T. FISH, General Agent.
J. FLYNN, Inspector.

This Company is organized for the purpose of insur-
ing Farm Property and Farm Business, thereby
avoiding heavy losses from sweeping fires and hazard-
ous risks.

An arrangement has been completed by which this
Company has the benefit of the renewals and business
of the Agricultural of Watertown, N.Y., which at
once places the Company in possession of a large and
profitable business.

J. B. BOUSTEAD,

Agent at Toronto,

Office, 16 Adelaide street east.

INFALLIBILITY.

HUNDREDS CURED DAILY IN CANADA

BY THE

DIAMOND RHEUMATIC CURE.

This statement is substantially a FACT based upon
evidence in the possession of the agent, in the shape
of written testimonials, and particularly from some of
the most respectable and trustworthy families in the Do-
minion.

DIAMOND RHEUMATIC CURE.

In its history this invaluable Medicine occupies the
most honorable position, possessed by any remedy
to attain. A few years since it was known only to
the friends and intimate associates of the proprie-
tor, and always sought for by them whenever
prostrated by disease, and in the way one hears
the notice of physicians generally, and through their
kindness and influence, the acknowledged value as
a Rheumatic Remedy, the demand for it became so
great that it was not always in its compounded form
ready for use. Hence its manufacture. Its reputa-
tion is established upon the testimony of thousands
of living witnesses, and certificates of genuine worth
from almost every section of the Dominion
and Canada; and in this way, on a basis of its merit
alone, it has become one of the most popular and
reliable remedies ever offered to the public. In this
1874 it stands before the world with great confi-
dence, and, when the strife becomes more intense,
and the battle more fierce, it will be found to be
determined and daring attacks of the French
horsemen, and to endure the destructive fire
of the return of artillery, when the
occupation of La Haye Sainte, pressed
towards the heart of the British position,
Napoleon, however, could shake the heroic
Wellington, however, could shake the heroic
rear, continuing the prolonged attack, when
the absence of supports which might have
come up to strengthen the wasted de-
fenders' line enabled the Prussians to make a
combined movement against the front and
flank of their foe, which, at one moment,
seemed all but fatal. Gathering together all
their unbroken men the Russian command-
ers launched them in force against the ex-
hausted 2nd Division, which was soon
despatched to turn the British right, where
the fight raged on the stone around the
battery. The Guards wheeled to repel
this attack in flank, and still stubbornly
held their ground; but a part of the Grenadier
Corps were almost cut off, and the position of
affairs had become critical, when
this isolated fragment, amid loud cheers,
forced its way bravely through the hostile
masses and rejoined the remainder of the
assailants. The arrival of the French
gave at last relief to their worn-out allies,
and, at 8 o'clock, the victory was gained
ultimately after a struggle, perhaps the most
sanguinary and severe that ever occurred.
The well-authenticated remark of
a French General who witnessed the stand
made by our corps, "Ma foi! a grenadier
commands Waterloo," is a sufficient com-
mentary in itself, to attest the fact that
the Guards, during the terrible struggle,
fully sustained their high character.

It is necessary to dwell on the closing
scenes of the glorious yet tragic Crimean
War. The Guards participated in the fearful
loss of influenza of the army in the winter of
1854; and the Grenadiers, who at the begin-
ning of the campaign were but far from 1,000
strong, dwindled down to 150 half-famished
men. In this terrible collapse we see the
results of the unparalleled privations of the 1st
Guards were exposed to the combined ex-
posure of the Russian bullets and the copper-
plate knight; and, when the strife became
more desperate, and during attacks of the French
horsemen, and to endure the destructive fire
of the return of artillery, when the
occupation of La Haye Sainte, pressed
towards the heart of the British position,
Napoleon, however, could shake the heroic
rear, continuing the prolonged attack, when
the absence of supports which might have
come up to strengthen the wasted de-
fenders' line enabled the Prussians to make a
combined movement against the front and
flank of their foe, which, at one moment,
seemed all but fatal. Gathering together all
their unbroken men the Russian command-
ers launched them in force against the ex-
hausted 2nd Division, which was soon
despatched to turn the British right, where
the fight raged on the stone around the
battery. The Guards wheeled to repel

OF THE JOSEPH HALL
TURING COMPANY, OSHAWA,
Ontario.
February, 1874 instant, and testing of the
spring May Sales, says as follows:

Self-Dumping Steel-Toothed Horse
Rake, as manufactured by the Joseph
Hall Company, received two of the
Silver Medals at the great National
Agricultural Implement trials held near Pick-
ering. The "Wisner" raked ten acres of
green lucerne per acre in two hours and a
half in a most satisfactory manner. This is the most
perfect machine of the kind we have seen, and
we would advise every one, whether he be a farmer
or not, who can obtain a gentle horse
to work it, to purchase one. It can be so ad-
justed as to rake with perfect ease, it can be so ad-
justed as to rake with heavy green lucerne
or light hay, and it can be so adjusted as to rake
with the teeth above the ground for the
purpose of not raking
