Spring and Fall Wheats Below Last Year's Average.

FAIR CROPS OF RYE AND PEAS.

From an advance copy of the November report of the Ontario Bureau of Industries, furnished by the secretary, Mr. A. Blue, the following summary of the statistics of the grain crops of Ontario is gleaned, which is based upon returns of actual yield made by threshers and correspondents:—
The produce of fall wheat is considerably

ander the estimate made on the 1st of August, the full extent of the injury done by rust not being realized at that time. The worst reports relate to the western half of the pro-vince, where the bulk of the fall wheat is grown. There the crop was seriously dam aged by winter weather, and although a partial recovery was made as the growing season advanced the grain was blighted in the ripening stage with rust. As a result, the average vield is low and, the quality poor. In the eastern half the plant wintered well, and the yield per acre is much higher than in the west, but the rust effects are only less severe. Spring wheat is generally reported as an excellent crop, the grain being plump and the yield per acre good. Rust and the midge affected it injuriously in some localities, as in the counties of Ontario, Durham, and North umberland, and in all the northern counties late fields were hurt by the September frosts. But for these drawbacks the crop would have been one of the largest and best that the

country has produced.

The total breadth of fall and spring wheat this year is 1,676,545 acres, and the produce 21,329,337 bushels. Last year the breadth was 1,775,337 acres, and the produce 40,921,-201 bushels. The average yield of fall wheat per acre last year was 26,3 bushels, and of spring wheat 16.5, This year the average of spring wheat is 16.75 bushels, and of fail

The season was too wet for maturing a good crop of marketable barley, and although the berry is plump, it is generally discolour-ed. A large portion of it will in consequence be fed on the farm. The area under crop was 757,622 acres, the produce 18,690,380 bushels, and the average yield per acre 24.67 bushels. Last year the area was 848,617 acres, the produce 24,284,407 bushels, and the

average yield 28.6 bushels.

The oat crop has been a large and fine one. The grain is of excellent quality, especially in the western half of the province, and many correspondents remark that in weight it exceeds the standard bushel by four to six pounds. In the northern counties some inury was done by early frosts, but its extent in the aggregate is not appreciable. The total produce of the 1,423,539 acres in crop was 55,482,797 bushels, or 38.9 bushels per acre, Last year the area was 1,375,415 acres, the produce 50,097,997 bushels, and the

average per acre 36.4 bushels.

Rye has been a fair crop, both as regards quality and productiveness. The area sown was 188,438 acres, the yield 3,000,680 busheis, and the average per acre 15.9 bushels. Last year the area was 159,031 acres, the yield 3,549,898 bushels, and the average per acre

Peas sown on low land was injured by the rainy weather of July, but on high or welldrained land it was an excellent crop. The bug was less destructive than in former years, and in some districts it seems to have disappeared. The area in crop was 541,713 acres, the yield 10,728,137 bushels, and the yield per acre 19.8 bushels. Last year the area was 557,157 acres, the yield 10,943,355 bushels, and the yield per acre 19.6 bushels. Corn, buckwheat, and beans were so generally destroyed by the frosts of September that it is importable to estimate their produce Beans were a partial crop in the localities where they are chiefly grown, but thousands of acres of corn and buckwheat were utterly

mined in the districts most favourable to their maturity. heir maturity.

Rowell, who is now in New York, will find plenty of opponents. Fitzgeraid, the alderman of Long Island city, and present champion long-distance walker of the world, is anxious for a match, which will probably be arranged to day. John Hughes, the "Lepper," also wants to meet Rowell or Fitzgerald, and has posted a deposit in New York. The secretary of the Clipper Baseball Club, of Brussels, Ont., writes to say that when the Maple Leafs, of Guelph, played with the Torentos for the championship they had no right to do so, as they did not hold it, having been tied with the Clippers in the championship race. He says that by Toronto's last win the three clubs have an equal claim to the flags.

The Chicago Times says that "George W. Hamilton, a chempion jumper of the world, is entertaining the people of Davenport, Iowa, leaping over horses 16 hands high with ease. His record is 14 feet 5½ inches for one standing jump. In three straight leaps he covered 39 feet and 1 inch. He is only 26 years old 5 feet 8 inches high and are inch. 160 years oid, 5 feet 8 inches high, and weighs 160 pounds." Hamilton is really what is stated, having made the record stated (14 ft. 54 in.) some four years ago, but with the assistance of 22 lb. dumb-bells. Jem Goode, the English boxer, whose re-

cent arrival in this country some weeks ago made such little stir, has proved himself to be a knocker of more than average ability.

A few evenings ago in Patsey Sheppard's

"Abbey," the emigrant had a set to with
John Kilrean, of Somerville, and they had a good-humoured match under Marquis of Queensbury rules. Goode handled his fists well, and although much the smaller man was all there. The fight-if it was such-was a draw.

Hanlan, the champion oarsman, arrived in Boston on Monday from New York. He is there for two boats, one of which has been at Ruddock's workshop, on the Charles river, since August, while the other is building, and will be completed to day. He says he has fully determined to go to Australia, and will start thither, via San Francisco, in a few weeks. He will give an exhibition race with Stevenson, the California champion, on Thanksgiving day. Hosmer will also go west in a few months, thinking there is more money in winter regattas on the Pacific coast George Irvine, the Ottawa ped, is not satisfied with walking over the Indian Little Plume once, and wants to get on another race with him. He says lie is free to confess that he was surprised at the gameness Little Plume had shown, and his rather remarkable cuteness in running into him just previous to the finish. He claims to have been out of condition, brought about chiefly through looking after the details of the management of the race. This from a man who did all the fouling in the race is kind of rich.

Michael Eastman, a veteran newspaper folder employed by the New York News Company, has challenged the newspaper folders of the United States to engage in a match for the championship. The conditions are that the competitors shall fold 2,000 copies of a weekly newspaper in three folds and turn the heading out, the folder making the best time to receive as prizes a gold medal worth \$100 and \$500 cash. The challenge is specially directed to Joseph P. Willis, a folder of Boston, who, in a recent match there with six competitors, won the championship by folding 500 copies of the Boston Globe, daily edition, in nineteen minutes. Eastman says that he has folded 10,000 copies of a weekly paper, four folds, folded straight, turned out the head and counted, in nine hours,

A. T., Walkerton,—Qu.—Has a Town Council power to make a lease of the public cemetery belonging to the town for 939 years to any religious sect or denomination? Ans.—Sec. 461 of the Municipal Act empowers the municipal corporation to acquire lands for public cemeteries, and empowers the Council to sell or lease portions of such land for the purpose of interment, but the section does not contemplate the leasing of the whole cemetery by the Council, and we think the Council has not power to do so.

S.J.W., Salina.—Qu.—"My wife's father died intestate twenty years ago, leaving real and personal estate. My wife diff it eyears ago, all of our children having died before her death. Have I any claim upon the estate of her father?" Ans.—You have a life estate in your wife's portion of the real estate, and any part of the personal estate to which she was dottiled you can claim absolutely.

I.H.M., Sandwich.—Qu.—"Has a tenant a right to take away manure from the leased farm at the expiration of his tenancy without permission of his landiord?" Ans.—The removal of manure is an injury to the land, and may be regarded as a species of waste, and if so, the tenant can be restrained by injunction or sued for the damage done, or both. Injunctions have been granted in similar cases.

K., Ancaster.—Qu.—" Will the acquiseoence by all parties concerned in the dispositions made by a will prepared and executed by the testator when partly deranged, be binding on them after fifteen years?" Ans.—H all parties concerned have acquiseoed in the dispositions of the will for fifteen years, we are of opinion that all are now bound by it, and cannot question the will or have it set aside now on the ground of the testator's insanity.

W. A. M., Hillsburg.—Qu.—" When a constable serves a warrant charging a person with a felony and the accused person resists arrest, would the law justify a constable or policeman in shooting the accused?" Ans.—A constable or policeman, who, in the execution of his duty, either civil or criminal, kills a persons who assaults or resists him will be acquitted if it can be shown that the person was unavoidably killed, and that the killing was occasioned by his resistance of the officer. See Russel on Crimes—Justifiable Homicide—page \$18.

MADE IN ANY NAME.

We advertise extensively and wish to ascertain the relative merits of different papers, as not five per cent. of our patrons refer to the paper in which they have seen our advertisement. As the season is advancing whon we make few contracts, we adopt the following plan, which we shall use as a guide in selecting papers in which to advertise for the coming year.

The public will readily understand the value of the information we get and why we can afford to pay liberally for it. We wish to impress upon our many thousands of patrons throughout the Dominion that this is a bona jide offer, and not a trade trick to sell goods.

The illustration at the head of this advertisement is, a SOLID SILVER BROOCH, which we will furnish with any name desired for \$1.00 when accompanied by the annexed 50 cts. coupon. In no case will we sell the brooch as the price without the Mall coupon. The brooch is elegant and beautifully finished, and is good value for twice the price.

We send by mail, prepaid, and guarantee satisfaction. The proprietors of this paper endorse the above statement and guarantee.
