NEWS FROM THE COUNTY.

Encouraging Reports From Everywhere.—York is getting its blood up and will make it hot for the traitors on the 23rd. The Herald is not getting to exaggerate the capital tidings received from all quarters. The simple facts are good enough for us. The government candidates are meeting with splendid receptions. Their appeals to the common sense of the county fall with grand effect and the boodles and bluster brigade are beginning to appreciate the magnitude of the contract they have undertaken. Prominent supporters of George Colter in former occasions declare in the most emphatic manner possible that the 'advice' supporter him now. Mr. McFarlane's action, given before he allowed himself to be persuaded to run, to Mr. Gregory, is repeated everywhere and Mr. Gregory is beginning to learn that he ought not to have started an opposition ticket. He looks very glum, does Mr. Gregory. Playing second fiddle to George Colter is not as pleasant an occupation as it seemed likely to be, and he goes about like a man who was already endeavoring to discount defeat, and the chagrin which he will feel by and by.

Thomas Colter is proving a valuable acquisition to the ticket. His bright, cheery, off-handed way takes with everybody. If his brother George got all the family funds, he did not deprive Tom of the family brains, and the family of the services of a man who has by the hand and looking him squarely in the eye. Thomas Colter is a good man to put your dollars on. He's a stayer from way back, and will be in at the finish among the leaders.

John Anderson's nine months experience have done him good service and the experience of the electors of his usefulness has added to his popularity. He is making a splendid canvass and adding to his army of friends.

William Wilson was a little late in getting to work owing to the illness of his child, but he is in the field now full of fight and is making things lively. When St. John tries to shut Wilson out of York it undertakes a big job.

The attorney general is hard at work. He is busy now. When the great opposition ticket was announced he was preparing to try a case in court, and while his opponents were telling each other how they were going to beat him, he was busy and tried the case as if nothing was the matter.

And nothing is. The opposition have been wanting the lightning to strike them, and it's going to. This county is not going to be fooled. It is going to elect the man who will do it. John Clarke thought they might stampede that constituency by the anti-Catholic cry, they can't deceive this county into giving away its proud position in the province.

Capital meetings were held at New Maryland and Bart's hall, Douglas, on Thursday night by the government candidates. On Friday night the meetings were at Scotch settlement and Keswick Ridge, capital meetings all of them.

"Canterbury is all right" said a prominent gentleman from there to THE HERALD on Friday. "Stanley is in fine shape" was the opinion of two of the voters of that party as given to this office on Thursday and Friday.
