-Mr. T. Colins, of Rochester, N. Y. says the hop aphis may be kept from vines by dusting them with ground plasfines by custing them with ground plas-ter, rr even sprinkling them with the scrapings of the street. He instances the fact that several fields lying under the lee of a railroad, and exposed to clouds of dust and smoke, went through the season entirely from from the aphis, while yards a distance from the track were hadly i fested by them and the srop much injured

Nem Abbetisements.
