That Peculiar Lightness and Flavor

Found in the finest biscuit, rolls, cake, etc., is due to the absolute purity, fitness, and accurate combination of the ingredients of the Royal Baking Powder. The best things in cookery are always made with the Royal Baking Powder. Hence its use is universal—in the most celebrated restaurants, in the homes of the people, wherever delicious, wholesome food is appreciated.

Royal Baking Powder

is sold in every civilized country, the world over. It is the only Baking Powder made from Royal Grape Cream of Tartar. Royal Cook Book—300 Receipts—Free. Send Name and Address. ROYAL BAKING POWDER CO., NEW YORK.

The Evening Chit-Chat

By RUTH CAMERON

Christ, the Lord, is risen, and therefore I must get me a new hat and gown with which to celebrate this great anniversary. Sounds terrible, doesn't it? Make a positively shudder at its bad irreverence. And yet that is substantially what thousands of American women are saying by their manner of celebrating Easter Day. "What are you going to have new for Easter?" Nearly everywhere in the last few weeks of Lent you hear that question. And in the dressmaker's little back room, at the tailor's shop, in the sweat shops and in the millinery work rooms, over-wrought nerves, tired fingers, and throbbing eyes are kept at their tasks twelve and fifteen hours a day to answer that question. Truly we are doing almost as well with Easter as we have with Christmas. I know a girl who stayed home from church last Easter because "I didn't have a single new thing to wear and I felt too shabby."

two or three months to wear their Easter suits and hats. Just think for a moment of what Easter means. Easter is the day above all Christmas holy days—even above Christmas, it seems to me—which should hold the fullest significance for Christians. It celebrates the greatest belief of mankind, the belief in immortality. Easter is the day which gives its meaning and its right to be that magnificent chant of St. Paul's which sums up the greatest outcome of the Greatest Man's life—"O, death, where is thy sting? O, grave, where is thy victory?" And we are making this wonderful of wonderful days, a day dedicated to clothes, a day when we stay at home from worship because we are shabby, or go because we have new garments to show off, a day to prepare for which we let our less fortunate sisters suffer the agonies of overwork. No, there is nothing wrong in liking beautiful things. There is nothing wrong in discarding one's dark winter garments and trying to make oneself more in harmony with the beautiful spring things about one. But it seems to me there is great harm in allowing the clothes interest to obscure the meaning of Easter as much as we American women are in danger of doing. Don't you agree with me? Ruth Cameron

There is HEALTH and STRENGTH in every cup of EPPS'S COCOA. It is fine invigorating qualities suit people of all ages. Rich in cocoa butter, and FREE FROM CHEMICALS. GRATEFUL AND COMFORTING. Children thrive on "EPPS'S."

Household Notes.

In making banana salad, soak the fruit for a short time in orange juice to make it less insipid. Cover two cornet boxes with creton to match your shirtwaist box, and tack one at each end of the box. All fruit salads are improved by marinating in French dressing, though better served with mayonnaise. For removing fly specks from wood-work, picture frames, windows, etc., there is nothing that equals vinegar. To stop a lead-pipe leak pound the edges of the break together. This will stop the food until the plumber comes. If the corkcreek is lost try running a nail or ordinary screw in the cork.

with a stout string tied around the head. Sliced bananas mixed with corn-starch just before it stiffens, and served with fresh strawberry sauce, are delicious. In making a baked custard warm the milk before adding the eggs, and there will be less danger of the dessert turning watery. The usual insipidity of potato soup is improved by adding a dash of vinegar just before serving. As all may not like the flavor, the crust can be passed. An excellent way to make a vase waterproof is to pour melted paraffine into it. Tip the vase from one side to another so that all of it will be coated. Put a piece of paper under lace to be mended, and then stitch on material.

Hair Help. Ayer's Hair Vigor has no effect whatever upon the color of the hair. It cannot possibly change the color in any way. But it promptly stops falling hair, and greatly promotes growth. Ask your doctor first.

King Visits an Aged Couple

On Royal Estate and Gives Them Rent Free for Life. London, March 29.—A story of King George's kindness of heart was related last night. The King recently visited an aged couple in moderate circumstances who had resided for a long time on the royal estate at Norfolk, and after a friendly chat the King offered to the husband a chair. The aged man thanked the King, adding, "I don't often get a chance to smoke cigars." A few days later the man received a letter in the King's handwriting, giving to him his house rent free for the rest of his life, and expressing the hope that this little relief to his income would enable him to afford cigars as long as he lived.

In Death Agony Sings for Mother.

Burned by Electric Wires, John Grady Conceals Condition From Aged Woman on Entering Home. Wilkesbarre, Pa., March 28.—With both arms and a leg burned off by electric wires, and so terribly injured that his death was certain, John Grady, of Nanticoke, this morning sang his mother's favorite song as he was carried into the home, to prevent her from being suddenly shocked and alarmed by his unexpected return. It was "The Top of the Morn," and as the aged woman came to inquire why he was returning home, he told her he had been slightly burned. He saved her from a sudden shock and died two hours later. The young man was repairing a wire when a current of 4,000 volts was accidentally turned into them. Before he could be released both arms had been burned off near the elbow, and one leg near the knee. Despite his injuries he never lost courage.

Hints to Householders.

PROFESSOR HENRY ADAMS in his Presidential Address to the Institute of Sanitary Engineers early in 1908, said:—"Gas fires for heating are already widely adopted for offices, consulting rooms where a fire may be required at short notice. I have had many cases in my office for the last thirty years and do not find any of the ill effects that have been ascribed to them." Gas fires are universally used by medical men in London, and they recommend them for use in the homes of their patients. The Coal Smoke Abatement Society, among whose members are many men of high scientific and artistic attainment, are strong advocates of the use of gas for heating. The Society carried out a most elaborate series of tests with gas fires, etc., in May and June, 1906.

...till the hole is filled. Then pick out the paper. Use very fine thread in machine. Net blouses do not get stringy if washed in bran water. Pour boiling water over a small bag of bran and when cold strain the net in it. Biscuits of French rolls for formal use are more diminutive than ever. The former should be the size of a 50-cent piece and a quarter inch thick. Sew small weights on the bottom of your curtains. This will keep them in place when the wind blows, and, if they are near a gas jet, may save you from a serious fire. To prevent the little child from slipping in a porcelain tub when it is having a bath, spread a large Turkish towel on the bottom of the tub before turning on the water. Instead of the individual pate, it is more popular now to pass one or two large pates, each guest serving herself. Fill with mushrooms, oysters or creamed sweetbreads. In sewing on skirt binding, it is best to sew on before pressing hem. Pressing flattens the goods and it is difficult to fill binding on thin goods without stitching through. Fingers of bread about four inches long, quarter of an inch wide and the same thickness, buttered thickly and browned in quick oven, are delicious to serve with boiled eggs. Place a lump of starch on the spot and moisten just enough to dissolve it. Put the garment in the sun for a few minutes, shake it, and you will find the spot has entirely disappeared. In making tallores, buttonholes always wash silk and linen before beginning. Let linen thread run along edge of buttonhole while working with silk and change silk for every buttonhole. When making a meat loaf, place three hard-boiled eggs in the middle end to end. When the meat is cut a piece of egg is in the centre of each piece. It makes a very attractive luncheon dish. A delicious salad was made from different nuts, white grapes, a little shredded grape fruit, pineapple cut into cubes and shredded celery. Mask in mayonnaise or serve with a cream dressing.

Bad Kick From a Horse

Mr. I. S. Kelly, of Markerville, Alta., says: "We have proved Zam-Buk of great value on the farm. I was kicked by a horse and sustained a nasty wound, which finally turned to an open sore. This caused me considerable pain, but as soon as Zam-Buk was applied I got relief. In a short time Zam-Buk completely healed the wound. My father sustained a bad burn on his leg, which for a long time would not heal. Zam-Buk healed it, and quickly brought on a covering of new healthy skin all over the wound. Zam-Buk is also a sure cure for eczema, ulcers, bad leg, warts, abscesses, cuts, scratches, burns, children's rashes, and all skin diseases. Obtainable, druggists and stores, everywhere, 50c. box or post free from Zam-Buk Co., St. John's, Nfld., for price. Try Zam-Buk Soap for baby's bath and for skin rashes and blemishes. 25c. tablet."

Channel is Blocked.

Yesterday afternoon Channel reported that the harbor was packed with heavy ice and the Gulf also, there being no water to be seen with the naked eye. The E. S. S. gale which raged yesterday and last night kept the ice packed on the coast, and the Southern Cross was kept there owing to those conditions.

Exhibition in a Garden

2,000,000 Plants to be Bedded Out in the Grounds. One great feature of the Festival of Empire will be that there is to be no sacrifice of beauty, indeed the 250 acres of grounds will be more enchanting than ever. The Festival will be an Exhibition in a huge tree-dotted garden. The natural adornment of the grounds is in the hands of Mr. F. G. W. Henslow, M.A., the well-known horticulturist, who has made a study of landscape gardening, and who has a veritable genius for finding fascinating effects. Mr. Henslow has decided that, in transforming the grand terrace, where the fountains will throw 500 jets of water into the air, his main scheme of decoration will be the red, white and blue of Old England, while to gain the Imperial purple he will have masses of heliotrope. Mr. Henslow has further designed new roads, paths, lawns, conservatories, summer houses and innumerable flower beds in all parts of the grounds. It is estimated that some 2,000,000 plants of all varieties will be used, and these are now being specially reared by a number of leading growers. Of geraniums alone over 50,000 alone will be planted. Every type of English garden will be represented, and special attention is being paid to illustrate how even small plots may be enchanting with the aid of the rock garden, the pergola of roses, the loggia of climbing roses, and the water garden. A particularly beautiful effect will be obtained on the grassy stretch, formerly used as an aviation ground. Here countless thousands of roses of every shade and size will bloom, the trees constantly being under the care of the most expert rose growers. In the centre of this delightful garden will stand the Terrace Club. A model orchard of all English fruits is being laid out, and, in addition to the unrivalled display in the grounds, two rose shows, to be held in specially erected structures, are being organized. These are for cut blooms—one for amateurs and the other for professionals. Imperial awards in the shape of cups and medals will be given as prizes in the various sections.

THE POSTMASTER TELLS HIS FRIENDS

THAT THEY SHOULD USE DODD'S KIDNEY PILLS FOR KIDNEY ILLS. He had Backache for a long time but Dodd's Kidney Pills cured it. That is why he recommends them. Dymont, Ont., April 7. (Special).—John Oberk, postmaster here, and well-known throughout this entire neighbourhood is telling his friends that Dodd's Kidney Pills are the cure for all forms of Kidney Disease. And when they ask how he knows, this is the answer he gives: "I was troubled with Backache for a long time and Dodd's Kidney Pills cured it. That's why I recommend Dodd's Kidney Pills to all sufferers from Kidney Disease." And the postmaster is not the only one in this neighbourhood who has found relief from their Kidney Pills in the old reliable remedy, Dodd's Kidney Pills. Others there are whose Rheumatism has been relieved, whose Dropsy has vanished, and whose Urinary Troubles have been cured. For if the disease is of the Kidneys, or caused by the Kidneys being out of order, Dodd's Kidney Pills never fail to cure it. HERRING TAKEN.—Herring of a large size were taken at Flat Islands, P.E. last Tuesday. TRAIN DELAYED.—The local train did not arrive till 11.30 last night, having been delayed picking up freight on the line. SHORT OF COAL.—It is believed that some of the steamers on the front are beginning to run short of coal and should be leaving the ice about this time.

Smallpox Increasing.

The Health Authorities were advised yesterday afternoon that two cases of smallpox had developed at Langleine, and that the disease is supposed to have been brought from St. Lawrence, the people of which place who are suffering from it contracted it at Sydney. The disease is of the usual mild type and Dr. J. B. Lynch is looking after the patients. Those suffering from the disease at Marystown and Seal Cove are now convalescent.

OBITUARY.

Mr. Michael Veitch, son of Mr. George Veitch, Holyrood, and nephew of Rt. Rev. Mons. Veitch, of Conception, died of pneumonia in the hospital at Boston on the 4th inst. Deceased had been residing in Boston for 20 years and occupied positions of trust and responsibility under the State Government, and was one of those who was making good in a foreign land. His bereaved parents have wired for his remains to be sent home for interment. He has two brothers and a wife residing in the States. To his bereaved relatives the Telegram extends its sympathy.

Objects to Blubber.

Editor Evening Telegram: Dear Sir.—In the interest of health, and for the benefit of residents and pedestrians, I would ask the Public Health Officer to visit Leslie Street. To the westward of it on a meadow has been deposited a quantity of blubber, the aroma of which floats over that section of the city. Perhaps it is the business of the Sanitary Inspector to attend to this important matter, at any rate who ever's business it is I would ask him to take a car and arrive on the scene quickly and confer a favour on the suffering residents by having it removed immediately. This is not a matter to be treated indifferently, as goodness knows, we suffer enough sickness in our midst already without courting a wholesale epidemic. Yours sincerely, LESLIE STREET. St. John's, April 8, 1911.

Indigestion & Dyspepsia

In all its Forms can be Cured. It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, my appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden. Now, it should be a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained of DR. F. STAFFORD & SON, DUCKWORTH STREET and Theatre Hill. Small size, 25 cents; postage, 5c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—Oct 29, 1m.

An Interesting Lecture.

Taking as his subject: "The Unthinking Crowd," Mr. John M. Devine delivered a very interesting lecture before the members of the Benevolent Irish Society in their rooms last night. Mr. John C. Pippy occupied the chair, and a large and very appreciative audience was present. Mr. Pippy in introducing the lecturer promised all present a literary treat and this promise was fulfilled. Mr. Devine in fluent language brought to the minds of all present the unthinking personalities of some of the greatest personages in history. Napoleon's famous statement "there shall be no Alps" was commented on, while it was shown that on the retreat from Moscow after crossing this great natural barrier he lost the flower of his great and hitherto invincible army. The unthinking genius of Columbus made possible the discovery of the New World, and he referred to the discovery of Newfoundland by Cabot in an unthinking moment. A current of wit and humour flashed through the subject matter of Mr. Devine's able delivered address, and at its conclusion a hearty vote of thanks proposed by Mr. E. L. Power and seconded by Mr. E. L. Carter, was carried by acclamation. MINARD'S LIMEWATER FOR SALE EVERYWHERE.

Hair Dressing That Makes Women's Hair Grow Radiant

Women of Newfoundland are demanding a perfect hair tonic, one that is daintily perfumed, that is not sticky or greasy and that will make the hair grow profusely and give it lustre that attracts admiration. Like their clever sisters in Paris, they have learned that a woman with scant, dull, lifeless hair grows old all too soon. Since the introduction of Salvia into Newfoundland, druggists in every town are recommending Salvia, because they know it will do exactly what the makers say it will do. Besides being a hair grower and beautifier, Salvia is rigidly guaranteed to stop itching scalp, to stop hair from falling, and to banish every trace of dandruff, or money back. Salvia causes the hair to grow strong, vigorous and lustrous because it kills the dandruff germs that infect the hair roots, which is the basis of all scalp and hair diseases, and also because it furnishes natural nourishment to the weakened and run down hair bulbs. Salvia is sold by druggists everywhere for only 50 cents a large bottle. It is guaranteed by druggists. The girl with the long hair is on every package. Sold by McMurdo & Co., wholesale agents.

Sent For Crew.

BOONAVENTURE GOES FOR CAST-AWAY SEALERS—HARLOW'S CREW HAVE THREE DAYS PROVISIONS. Yesterday afternoon the Government concluded arrangements with Messrs. A. J. Harvey & Co. to send the S. S. Bonaventure to St. Paul's Island to bring back the crew of the lost sealing steamer Harlow. The ship was being made ready last night and firemen and deck hands were being procured to join the ship to go in quest of the sealers. Capt. Cross was given command of the ship with Capt. Wm. Bartlett as pilot. The Minister of Marine and Fisheries, Mr. Piccott, also signified his intention of going forward in the vessel which it is hoped will reach St. Paul's Island in two days time. There were roundly 145 men including officers and crew on the ship all of whom are at St. Paul's. Mr. Piccott had a message from the men yesterday evening via Ottawa, saying that they feared they would run short of provisions as they had only enough to do them for three days. The Bonaventure it was thought could reach the place by Sunday evening if everything proved favourable. The men saved some grub from the ship, and it is thought some, if not all of their clothing. The fishermen on St. Paul's Island would have little in the way of food, and if the ship was impeded by the ice men must necessarily conserve their stock of food and put themselves on an allowance until aid reaches them. The ship left here for St. Paul's at midnight with plenty of provisions on board for the sealers should they require them.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There is no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N.Y.,—take 25c advice received and he will.

City Council Meeting.

Fall Board present last night. Deputy Mayor Martin presiding. A long discussion followed over the question of blacksmith patronage, some of the blacksmiths complained that they do not get a share. Inspector General Sullivan sent in a protest against the erection of fish flakes down on the South Side and out the Battery Road. The Council will see what can be done in reference to this as well as a protest against the erection of a Woolen Factory on Alexander Street. Mr. Sullivan also drew the attention of the Council to the necessity of levelling the ice on the sides of the street car track, as the firemen found it difficult to get the engines along. He also suggested that the South Side Road be widened in order that the fire vehicles may get down. The goat question is again to the front. Mr. J. P. Blackwood wrote asking permission that Mr. W. H. Davidson's garden be protected from the goats. The Council will give instructions to the impounder to pay special attention to the goats and Mr. Davidson during the coming season. F. A. Mews wrote on behalf of Andrew Delgado and the U. S. Portland Co., asking that the Council pay them \$150 and \$190, respectively. Mr. Mews declared that water had got into the basements of the building occupied by the claimants on Water Street, and that the same was caused by the neglect of the Council's employees. The claim will be investigated. A protest from the residents of the western suburbs against blubber being spread on the fields there was referred to the Health Officer. Corbett White complained of the fact that night soil as being thrown around the tank on Sebastian Street. Mr. J. Judge's offer to supply lath at \$235.00 each was accepted. Messrs. Crossie & Co. will be sued for arrears of taxes, the Solicitor says, and also that the papers in connection with Mr. O'Reilly's land will be prepared. Plans of houses from J. Harding and J. LeDrew were approved. The plans sent in by S. Miller and James Miller were referred to the Engineer. Councillor Mullaly said that the dump at Leslie Street ought to be removed. It was decided that no more refuse be thrown there. The Engineer was asked to attend to a delapidated house on Barron St. Tenders will be invited for the work of painting the City Hall. The Health Officer's Report was received. Councillor Ryan asked for information about the Sanitary Staff, and as a result he moved that the men be paid at 6 p.m. Saturday. A vote being taken Councillors Coaker and Myrick voted against the motion. They were in the minority and it was carried. Councillor Mullaly spoke in favor of Councillor Ryan's motion and believed that it would be best for the men. Councillor Channing remarked that the collectors had not reported for a long time. He asked that they be ordered to send in a report of every day's work at each meeting. After passing of pay rolls the meeting adjourned. During the week 5 cases of diphtheria are reported, and one death from the disease in hospital. 3 cases of typhoid, 3 of aliphtheria and 2 smallpox. Being nursed at home there are 2 of scarlet fever, 1 of typhoid and 3 of diphtheria.

Don't Have "Spring Fever"

is just another name for Biliousness, Irregular Bowels, Upset Stomach. What you must do is to get the blood pure—by stirring up the liver—making the bowels regular and the stomach sweet. The quickest, and surest, and pleasant way to do all this is to take Abbey's Salt. It's the best spring tonic. 25c and 60c a bottle.

WOODS, Postmaster General. JUST ARRIVED. Bananas, California Oranges, Fruit, Pears, Dessert Apples, Tomatoes, Celery, Carrots, Parsnips, Y. Turkeys, N. Y. Chicken, Finnan Haddies, Kippers and Bloaters, New York Corned Beef, Blue Point Oysters. AMES STOTT. B PRINTING
